

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERALITY IN THINGS NOT ESSENTIAL—CHARITY IN ALL.

No. 258

An Opportune Document

THE RADICALS STULTIFYING THEMSELVES
THEIR VIEW ON THE CABINET IN 18
The Portland Argus says: At a time
when parties

determined to plunge the country into open revolution, it is well for the people to recall the record of these men, only a short time ago, on the subject now in issue. In reference to which they now propose to convulse the country, shake the pulchritude, disturb, if not destroy, business industry.

eral, was understood to differ from President Lincoln in views. Thereupon, a paper signed by the Senators, whose names appended, was addressed to President Lincoln.

"The theory of our government, and early and uniform practical construction thereof, is that the President should be aided by a Cabinet Council, consisting of

and that all important measures and pointments should be the result of the combined wisdom and deliberation of the obvious and necessary.

without which no administration can
ceed, we and the public believe does
now exist; and therefore such select
in its members should be made as

action in all material and essential resp
more especially in the present crisis
public affairs.

B. F. Wade, Ohio; John Sherman, C.

O. H. Browning, Ill.; Lyman Trum
Ill.; James Harlan, Iowa; J. W. Gri
Iowa; S. C. Pomeroy, Kan.; Samuel
Arnold, R. I.; H. B. Anthony, R.

Chas. Sumner, Mass.; Henry Wilson, M.
Z. Chandler, Mich.; James Dixon, Co.
L. S. Foster, Conn.; Dan. R. Clark, N.
John P. Hale, N. H.; Preston King, N.

These were all Senators at that time, all republicans. In consequence of

expression of views, President Lincoln requested Mr. Blair to resign, and he resign.

In 1867, when the tenure-of-office

was offered making it apply to Cabinet officers. This amendment was earnestly opposed by various Senators. Senator Williams, of Oregon, radical, held

I have no doubt that any Cabinet Minister who has a particle of self respect (we can hardly suppose that any man would occupy so responsible an office with-

having that feeling) would decline to remain in the Cabinet after the President had signified to him that his presence was no longer needed.

I take it that no case can arise, or likely to arise, where a Cabinet Minister will attempt to hold on to his office if his chief desires his removal. I

scarcely conceive such a case. I think no gentleman, no man with any sense or honor, would hold a position as Cavalry officer after his chief desired his removal.

If I supposed that either of these gentlemen (referring to the Cabinet of Mr. Johnson) was so wanting in manhood, in honor as to hold his place after the poli-

States that his services were no longer needed, I certainly, as Senator, would consent to his removal at any time, and would we all.

What would this world be without woman? A perfect blank—like a sheet of paper—not even *ruled*.

very plausibly that all they desire in such matters is to have their rites.

A French nobleman, who had been satirized by Voltaire, meeting the poet

poet immediately hastened to the Duke of Orleans, told him how he had been used and begged he would do him justice. "I replied," the Duke "it has been done."

A little boy in Lowell was asked how many mills make a cent. 'Ten,' was the prompt reply. Immediately

in token of dissent. "Well, miss, we have you to say?" "Please, sir, ten m don't make a cent. Pa says all the m in town don't make a cent."

As a word of advice to British statesmen in the present crisis, the New York *All* urges them to "meet the dissatisfied Irish men with a free passage to British No America, and five years, profitable employment."

free grant of a homestead in perpetuity, themselves as well as their offspring—instead of meeting them with a detested constabulary; and the time is not far distant when the idea of a

ings throughout that small but discontented island."

A bald man made merry at the expense of another who covered his partial baldness with a wig, adding, as a clincher, "You see how bald I am, and I don't wear a wig." True, was the reply, but an empty barn requires no thatch."

DIED.
At his residence in Pembroke, Ontario, on the 23rd ult., **ROBERT O'NEILL**, Esquire, Registrar of the District of Pembroke, aged 40 years.

Ticket Office for Great Western Railway. Tickets for the Market, Front-St. Tickets issued to Milwaukee, Chicago, New Orleans, Omaha City, Nebraska Territory, Fort Riley, Kansas, Cheyenne, Decatur, Davis Colorado, and all points West. Fare received either in Greenbacks or current funds.
217½ R. P. DAVY, AGENT.

SPECIAL NOTICES.

R. R. B. Radway's Regulating Pills
Are composed of vegetable extracts (prepared in rectory), free from all inert, crude, or irritating substances. The first dose commences its work of purifying the blood, regulating the liver, cleansing the stomach and intestines, and purging from the system all accumulations and corrupt humors. One Pill, taken two hours before dinner, will create a good appetite and insure a healthy digestion.

BILE.
Bile on the stomach will be eliminated by one dose of the Pills—after four to six in number. When the liver is in a torpid state, or the bile is thicker than Radway's Regulating Pills. They purge easily, are mild in operation, and when taken are perfectly harmless, being elegantly coated with gum. They are recommended for the cure of all disorders of the stomach, biliousness, nervous diseases, indigestion, dyspepsia, flatulency, bilious fever, inflammation of the bowels, and all symptoms resulting from disorders of the digestive organs.

THE AGED.
Suffer from constipation and paralysis of the bowels, and may have to use injections to keep the bowels open. Take 2 or 3 of Radway's pills every night, in a few weeks the bowels, liver, kidneys, etc., will be restored to sound health and strength—no regular discharge from the bowels will be necessary.

See Dr. Radway's Almanac for 1868—R. R. B. sold by all druggists.

LEXINGTON, Missouri, May 28, 1868.
MESSRS. J. N. HARRIS & CO.,
Dear Sirs:—I have made Allen's Balm Balm pretty well known in my city and country, and have sold about the four dozen bottles since I met in March last, and I find persons who try the Balm once, come back again for more, as it gives them satisfaction; and I recommend it in preference to any other medicine for Coughs and Colds. Please send me six dozen bottles as soon as possible.
THOMAS J. FLETCHER, Druggist.
P. S.—I will move Allen's Balm Balm, than all other enough remedies together, and it gives general satisfaction. Sold by all Family Medicine Dealers.
Ferry Davis & Son, Agents for the Dominion of Canada.

"A Fool" — 100

Mr. K.—“About \$8,000.”

Miscellaneous Items.

Light Infantry—Bates in arms.
An unperished Caesar—The Sheriff.
A Way with Melancholy—Suicide.
Moving for a new trial—Court of a second view.
A cheerful name for colored cemetery—Blackberry ground.

When the Queen of England is angry, what order of merit does she represent? A Victoria Cross.

The man who has not anything to boast of but his illustrious ancestors, is like a potato—the only good belonging to him is under the ground.

An honest Irishman, fresh from Ulster, caught a humble bee in his hand, supposing it to be a humming bird. "Oh! he exclaimed, "Divil burn, how hot his little foot is!"

"Whenever you find many men you will find many minds," exclaimed a public speaker. "This is so," replied one of his auditors; "if you'd only ask this crowd out to take a drink you'd find 'em all on one mind."

It is said that a man living on Capitan Mountain, Va., was recently attacked by wolves, and after killing six was himself slashed by the rest. He had only an axe for a weapon.

We entirely agree with the argument of Punch in favor of short dress skirts. They give plain girls a chance. What nature has denied the face she often gives to the under-standing.

A "Johnson Club" which had been formed in New York, was suppressed on Wednesday last by the police. Placards, being inflammatory appeals to the people, have been posted all over New York.

A richly dressed lady was recently run over on Broadway, and had the misfortune thereby to have one ear completely cut off. She was taken up insensible, and on recovering, her first words were: "O my, what has become of the diamond earring?"

Dr. John Cumming has turned up again. Although the world stubbornly persisted in existing long after he had consigned it to the flames, his faith is still strong. He is certain that, "proximately, 1887 winds up the times of the Gentiles," and he gathers "from inspired prophecy that we are plunging into times of unprecedented severity and trouble, and that it is time for every man, while doing his duty to his country, his family, and society at large, to have his joints girt and his lamp burning." This solemn warning and excellent counsel to be ready for anything that may happen—appears in a letter from Dr. Cumming to the London Telegraph, under date of the 31st instant. The Doctor expressly declares that he never professed to be a prophet, and this disclaimer may bring him the honor in his own country which is proverbially denied to prophets and the sons of prophets.

American Watches.

THE true value of Machinery applied to Watchmaking is not that by its use Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed, like any other machine, on mechanical principles. The factory is, indeed, little else than a machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan or the movement, no mistake in the sizes or shapes of the pieces of which it is composed, nothing wanting in their properties, and no error in their positions. These points once thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished piece. The method established in every department is the reduplication of parts by mechanical means, and this is carried out on the system of the most thorough subdivision.

By means of multiplying gauges and microscopes, tests and inspection for the detection of wear in cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes through a finished machine. Every part is found to its property in its place. Every pin may be pushed till it pinches, and every screw turned home. Instead of sluggish and feeble action, the lightest mainspring, vibrates with a wide and free motion, and the beat has the clear ringing sound always noticeable of the Waltham Watch. The machine is a time keeper from the start.

This system of watchmaking is unknown in foreign countries. It is entirely original with the Waltham Company. The Company claim that by it they produce Watches that cannot be equalled for every quality which makes a watch valuable. In plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and clean, but is also made of the most durable materials, and when repaired always as good as new.

There are different grades of finish in the different varieties of Watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means, but every Watch that bears the genuine trade mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

EVERY WATCH FULLY WARRANTED. For sale by all first-class dealers in the United States and British Provinces.

HORACE YEOMANS, Esq., PRESIDENT. ANDREW THOMSON, Esq., TREASURER.
B. S. GILBERT, Esq., SECRETARY. J. G. SHURTZ, Esq., SUPERINTENDENT.

MERCHANTS' BANK, BANKERS. DEAN & GILBERT, SOLICITORS.

DIRECTORS:

HORACE YEOMANS, of Flint & Yeomans, Belleville.
ANDREW THOMSON, Banker, Belleville.
W. W. DEAN, Master in Chancery, Belleville.
JOHN G. SHURTZ, Superintendent.
JAMES LISTER, M.D., Belleville.
JAMES W. CARMAN, American, Consul, Belleville.
BARTON S. GILBERT, of Dean & Gilbert, Barristers, Belleville.

THIS COMPANY is duly incorporated under Cap. 23, Consolidated Statutes of Canada, for the purpose of working the mineral veins upon sixteen acres of Lot No. 10, in the fifth concession of Madoc, (the Richardson Mine being No. 15 in the same concession). A shaft has been sunk to the depth of nine feet in the rock. At six feet a gold-bearing lode was struck, of 18 inches in width, which at nine feet has increased to 24 feet, and a crushing at Gilbert & Turley's mill of four and one-half tons of the rock, gave a yield of over six dollars in gold; the lode is clearly defined, and evidently extends the whole length of the property—53 rods.

The territory is admirably situated for mining purposes, being a high ridge covered with indications of mineral veins. There are numerous places on the land fully as promising as the one on which the shaft has been sunk, and which would unquestionably yield as well. The large quantity of land, and the prospects of other gold-bearing veins, make it certain that the Company will be able to subdivide the property as soon as a little further development has been made, and to conduct its operations at great advantage. Work is being vigorously prosecuted in the shaft, under the superintendence of JOHN G. SHURTZ, Esq., one of the Directors, who is largely interested in the proprietary of the mine, and who has had thirteen years' practical experience in the gold mines of California, and is unquestionably the most accomplished and energetic manager now in this country. It is intended to have a further crushing in a few days, and negotiations are in progress which, if carried out, will secure a mill to the Company at once, so that regular work will be gone on with without delay, and dividends may, in that case, be expected in a short time.

Belleville, Dec. 27, 1887.

ORANGE CERTIFICATES

FOR SALE at the INTELLIGENCER Office, *Intelligencer* Buildings, Front Street, Belleville.

CAUTION.

THE perfection and cheapness of the AMERICAN WALTHAM WATCH have given it such a wide sale, that many unscrupulous dealers, years ago, began to imitate its style and make cheap, worthless imitations. These imitations, which are sold under the name of the genuine, are calculated to injure the high reputation which the Waltham Watch has acquired, and to deprive the purchaser of the many advantages which the genuine watch affords. The last time the Waltham Watch Co. were in the country, they were leaving the number of the watch and the company, the Treasurer of the Company, H. B. WILKES.

The purchaser should in all cases require these two Watches. These are the marks of the genuine.

The following are the trade marks on the several grades of our manufacture:

AMERICAN WATCH CO.
APPLETON, TRACY & Co.
WALTHAM WATCH CO.
P. S. BARTLETT.
WM. ELLERY.
HOME WATCH CO.

PENNSYLVANIA RAILROAD COMPANY.
Office of the General Superintendent.
Altoona, Pa. 15th Dec. 1886.

GENTLEMEN—The watches for which you have been so long in the Railroad for several years by the arrangement on which we furnish watches as part of our equipment. These watches have been the subject of much comment on our line, and we consider them good and reliable time-keepers. Indeed, I have great satisfaction in your great majority of cases, the watches have been worn and do wear much longer without repair than any watches we have ever had in our hands. As you are aware we trusted to those of English manufacture, of acknowledged good reputation, but as a class they never keep time so accurately as the watches of our manufacture. My Lewis, whose experience extended over a series of years.

Respectfully,
EDWARD H. WILLIAMS,
General Superintendent.

American Watch Co., Waltham.

NEW YORK CENTRAL RAILROAD.
Locomotive Dept. Western Division.
Rochester, Dec. 24, 1886.

GENTLEMEN—We have no hesitation in saying that I believe the great majority of the watches you have bought by experience that Waltham watches are the most satisfactory and reliable. They are made with the greatest accuracy and skill, and are of the highest quality of material, and as I have never known one to wear out, they must be durable. I hope to see the time when railway companies will generally adopt your watches, and furnish them to all engineers and conductors. In my opinion it would greatly tend to promote regularity and safety.

Yours respectfully,
CHARLES WILSON,
Chief Engineer.
Brotherhood of Locomotive Engineers.
American Watch Co., Waltham.

For sale by first-class dealers in the United States and British Provinces.

ROBBINS & APPLETON, New York.

ROBERT WILKES, Toronto and Montreal.

patronage of their old friends and the Trade
generally. J. C. FRANCK & Co. 74d.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - \$10,000,000.
FIRE AND LIFE.

LIFE DEPARTMENT.
The principles on which this Company is
founded contain all the elements required for
the outside confidence of Management, and
afford every facility to intending assurers.—
One of the advantages secured by those who
insure their lives with this Company is that
the outside confidence of Management is
absolutely restricted by the Deed of Settlement
to Ten per Cent. of the Net Life
Income. This most important restriction
shows that the interests of participating policy
holders are closely watched and carefully at-
tended to by the Company. Attention is es-
pecially called to this point, as the proportion
of premiums expended for Management
Must Largely Influence Profits
and Bonuses.

The next division of profits takes place in
1868, and all those who wish to participate in
the profits should insure at once.

Dr. CANNIFF,
Medical Referee
May, 1867.

GODEY'S LADY'S BOOK
For 1868.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

THE friend of woman, the arbiter of fashion, the en-
courager and publisher of the best literature of the
day, the reader from which all other copy.

READING MATTER.
In this there will be an improvement. The volume
for 1868 will be set up with new type, and of a
size that will enable to give an additional quantity
of reading matter amounting to about twelve pages in each
number.

BEAUTIFUL STEEL PLATES.
Of the Lady's Book contain four or five
superior (we challenge comparison) to any published in
this country, either in book or periodical form.

THE LITERATURE
OF AMERICAN HARLAND,
Authors of "Aloha," "Hidden Path," "Mist Side,"
"Nemesis," and "Marian."

who contribute to no other monthly publication, will
furnish a new novel for 1868, entitled "Patriotism,"
which will run through the year. Her stories are
usually sought after, and her tales are copyrighted, can
be found nowhere but in Godey. Our former efficient
copy of writers have been richly repaid.

OUR FASHION PLATES.
The original design of fashion-plates will be continued
Month, COURTESY—The only magazine in this country
that gives these designs in the Lady's Book.
DRAWINGS—In this we are also alone.
ORIGINAL MUSIC—Godey's is the only magazine in which
music is prepared expressly for it appears.
We have also a CHILDREN'S MONTHLY, and a
HEALTHY DEPARTMENT.

GODEY'S INVALUABLE RECEIPTS
upon every subject, for the Doctor, Nursery, Kitchen,
House, and Laundry.

THE LADY'S FANCY WORK DEPARTMENT.—Some of the
designs in this department are printed in colors in a style
unparalleled.

Words.

A correspondent of the Glenora Maple
Leaf, disgusted with the "wordy warfare"
with which our worthy M. P. P.'s disport
themselves in the legislative halls of Ontario,
vents his indignation thus:

Words, words, words,
Where shall I see
To this
From this horrid clatter,
This endless stream
Of words!

How like a second deluge they flow
From the "House," where successful candi-
dates go.

Drives go,
Into the newspapers, columns on columns,
drilling, stupid, lugubrious, solemn—
One M. P. sits down, up jumps another,
And so they maintain their eternal blather,
Their speeches come in droves and herds,
Made up of torrents of empty words,
And newspaper men scold and reporters
To gather this rapid meaningless stream,
And pollute the land with the nauseous stuff
A blather that has happened, though I cannot
Understand it, and which I cannot
The unlucky M. P.
If it be
That he
Disagree
With the
For then comes another cloud of words,
As murky and smutty as maggoty cards,
And so the blather goes on, and on, and on,
As half-dressed ale.

You may talk of famine, plague, yellow fever,
But any of these, or all of them, ever
Compare with politicians,
Who are as numerous as flies,
With drowsy inattention,
And sickening repetitions?

If I were an editor this day, I declare,
(The old Adam's up, I had almost said, I swear,
I would not torture innocent readers
In the way that's done by the Globe and Leader,
I'd print no man's speech, under any pretence,
Unless sparkling with wit and laden with sense,
A blather that has happened, though I cannot
Understand it, and which I cannot
Nor where, nor by whom,) and may happen
I'd teach these chattering members of laws
To say something worth printing or hold their
Jaws.

The Conflict at Washington.

A three penny tract on the precipitated
the American Revolution. British taxation
without representation deflected thirteen of
its choicest American colonies from the
British crown, and culminated in their
recognition as the independent republic of
the United States of America. In 1789,
the States were established in the more
perfect Union of the federal constitution.
Under this government, notwithstanding
the blotch of African slavery, the country
fourished as "the model republic" down to
the late pro-slavery rebellion. As a
model of popular sovereignty, prosperity,
economy and taxation so light as hardly
to be felt, its fame extended "from the
ends of the earth." The
down-trodden peoples of the Old World
looked Westward with longing eyes at
outspoken aspirations, while their royal
rulers and feudal aristocracies preached and
plotted our demoralization, dissolution and
destruction. With the suppression of the
most formidable rebellion in the history of
the human race we achieved something
more. In addition to the simplicity,
freedom and cheapness of our republican
institutions, as we moved in peace, their
inherent strength in the severest trials of
war became the wonder and admiration of
the world.

But where are we now? Where are the
economy and cheapness of our republican
system? How paltry appear the stamp taxes
and tea taxes of the old British colonial
regime vis-a-vis with the imposing schedules
of our present internal revenue system? Of
six hundred millions a year in federal tax-
ations, and all absorbed in federal extra-
vagances, corruptions and spoliations, is a
startling exhibit. The charm of cheapness
in our republican institutions is gone. Ours
has become the most expensive government
that the people of any in the world, except
that of the republic of Mexico, where
anarchy is the normal condition of things.

This scandalous conflict between President
and Congress, which will ne end of the war,
has cost the country some two or three
hundred millions a year. And what is it
all for? On part of this radical Congress
it is for the maintenance of their party
in power through the agency of a negro
and negro political ascendancy in the
reconstruction party turn of the rebel-
lous States. On the part of the President it is
a mixture of retaliation, self-comfort,
offense, and a desire to appear as a popular
man, while Congress, Johnson, and
accuses Congress of usurpations and despo-
litions, while Congress impeaches Johnson
of "high crimes and misdemeanors," and
our Johnson will ne end of the war, and
rule over him, law or no law, and Stanton
—the man becoming the master—with the
law in his hand and the Senate at his back,
perists in overruling Johnson.

Such is the demoralizing conduct, such is
the thrusting force at Washington which
now overshadows and supersedes all the
practical functions of the government. It
is enough to bring the bluish of shame upon
the cheek of the honest citizen at the bare
recital of the facts, and cause him to
deprecate the long interval which delays a
judgement from the people. Such a

Gold News.

Among other items from Madoc, we have received an account of the McIntosh Mine, situated on the West half of lot seven, in the fifth concession, which promises to turn out a very valuable property, as will be seen by the following certificate of assays, made by Dr. Oway. The shaft is now only seven feet deep, and increases in richness as it descends. The first assay made of the surface quartz yielded \$8.75 to the ton, and the intermediate assays rapidly improved.

"BELLEVILLE, Feb. 21, 1898.

"I certify that I have made analysis of ore taken from the McIntosh Mine, on the west half of Lot 7 in the 5th concession Madoc. The result of three assays shows the yield as follows: Gold.....\$13.35 per ton. Silver in small quantities.....\$1.25 per ton."

W. B. OTWAY, M. D."

Irish Improvement.

In the discussion of Irish affairs it is almost invariably assumed that the country is in an unprosperous state, and that it is tending from bad to worse under the evils of a state church and a fixed land tenure. A very suggestive table published in the *Pall Mall Gazette* gives at least a comparative contradiction of the assertion:

The percentage of families living in houses of the first and second class, and in those of the third and fourth—the fourth being mere mud cabins with one room, and the third larger and roomier, but still built of mud—was as follows at the dates given:

	1851	1861	1881
1st and 2nd class	19	23	28 per cent.
3rd class	19	19	19
4th class	42	58	53

It thus appears that the percentage of families living in mud cabins in 1881 formed nearly one-half the aggregate population, but twenty years later is constituted barely one-fifth of the census. Simultaneously with the disappearance of the lower strata, there has been a marked increase in the number of the better class of occupiers. These figures are conclusive in showing that emigration has been chiefly among the people who can best be spared, and that there is a steady improvement in the social condition of the Irish people.

TORONTO AND WHITBY MINES.—Major Wallace, the manager of this mine, informs us that from 4½ tons of ore, crushed on Monday, March 22 at Turley & Gilbert's mill, 6½ ounces of gold were obtained. He also says that they have purchased the crusher of Messrs. Turley & Gilbert, and rented 100 acres of land at Turley, thus showing not only their unlimited confidence in their mine, but a determination to push operations with vigor.

The President's Salary.

We frequently hear invidious comparisons drawn between the amount paid to the Governor General of Canada and the President of the United States, for what is called salary. It is always alleged that we are more extravagant, and that our Governor receives double the amount paid to the Ruler of a great nation; and this idea seems to be as prevalent in the United States as in Canada. We commend the following from the *Burlington (U.S.) Free Press*, to all such croakers:—"There are still multitudes of people in the country who suppose that the President of the United States does nothing but his salary of \$25,000 a year. It may enlighten these good people to pursue the following schedule of appropriations made by Congress for the last financial year: For lighting the President's house, \$2, with gas, \$48,000; for fuel for the President's house, \$12,000; for painting the President's house, \$3,000; for repairing the conservatory of the President's house, \$10,000; for refurnishing the President's house, \$76,000; for compensation of gardener, gatekeepers, watchmen, &c., \$30,610. From this it appears that the annual expense of maintaining Andrew Johnson in the White House exceeds \$200,000 including his salary."

THE BILLIARD CHAMPIONSHIP.—Melvin Foster, McDevitt's next contestant for the billiard championship, played a discount game with William Wickes, of Brooklyn, N. Y., 1,000 points up, caroms, the other evening, and won in eight innings, making runs of 99, 102, 516, and 313—in all, 1,093 points, making the unprecedented average of 136. If this were 136, 368, the highest run, McDevitt will not be his mode of playing. Foster, however, has found his laurels long. He is the Montrealer, with whom he tried his skill in New York a short time since, in which the *Tribune* says:—"Joseph Dion, of Montreal, and Melvin Foster, of this city, met in a Crook match on Feb. 10, 15, and 20, and played an improvised match game of billiards, 1,500 points caroms. There were but few persons present. The game began at 8 p.m. and closed at 10.45. Dion beating Foster by a score of 1,150. The highest run made by Dion were 79, 82, 115, 230, and 503, running out on the latter. Foster's highest run was 104. Dion's highest run was 503, out of practice since his defeat by McDevitt at Montreal. His playing last evening was magnificent, and drew forth warm praise from Melvin Foster, George Geary, and E. Edwards, who were present. His last and greatest runs were made almost exclusively by the cue, and he was in the right hand corner of the table, and a 'swinging round cut circle' until he reached the lower left-hand corner for the second time. He handled his cue with a steady judgment, and a delicacy of touch both brilliant and hard. Mr. Foster's playing, though fine, was hardly up to his usual mark. Dion, the conclusion of the game, he apparently became fatigued, and left the balls in ruinous positions."

Ontario Legislature.

SATURDAY, Feb. 26th.

The Bill legalizing the taxes of the County of Hastings, was on motion of Dr. Boulter read a second time.

The proposition of the government to increase a land tax of 2 cents per acre, on all the lands held by private individuals, in the district of Algoma, and the people of that part of the Province, who have no municipal institutions. The proposition was generally approved by the House, though Mr. McKellar moved an amendment relieving all settlers from the tax. This was resisted on the ground that the people of Algoma had already privileges not enjoyed by other settlers in the country. Upon this subject, Mr. Graham, of West Hastings, gave the following sensible reasons for supporting the government proposition: "The Government were giving this district advantages over every other locality in the Province. In the first place, there was the subsidy for the steamer on the lakes; then those in that locality contributed nothing to the administration of criminal justice and other objects for which municipalities were liable to be taxed; their school and other expenses were to be met from the general funds of the Province. Under these circumstances the people of that locality certainly should not object to the Government tax."

The amendment of Mr. McKellar was lost.

Yves, 27, nays.

INTERCOLONIAL RAILWAY.

Mr. Greeley intimated his intention of moving a series of resolutions upon the subject of the Intercolonial Railway. The Attorney General objected on the ground of the order of business, and the motion was therefore postponed till Monday.

FREE GRANTS.

In reply to Mr. Scott the Hon. Mr. Richards said the Crown Land Department would try to get out where the lands fit for settlement were to be found in the Province. And the sufficient for settlement surveyed, further surveys would be made.

MONDAY, March 2nd.

After a discussion on the Printing Contract, which appears to have given members a good deal of trouble and annoyance, simply because (which was clear from the debate) they had no idea of what they were talking about, Mr. Richards introduced a bill respecting Gold and Silver Mines, which was to be read a second time on Tuesday.

The Bill in reference to the taxes of the County of Hastings was read a third time, and passed. A number of other Bills were also read a third time. And then a short discussion upon the "Toronto Trust Company" Bill, the Incorporation of the Town of Brampton, for which Mr. Coyne attempted to obtain the writ of *habeas corpus*, which not being able to carry, withdrew the bill; and another fight upon the broad and narrow gauge railways, during which Mr. Hays moved to amend the bill, and the House adjourned. The House adjourned at 10:30 p.m. The House adjourned at 10:30 p.m. The House adjourned at 10:30 p.m.

TUESDAY, March 3rd.

The election Committee, appointed to try this controverted election, asked to have a Commissioner appointed to take evidence, and to be allowed to adjourn until the House meets again.

A special report was presented by the Hon. Mr. Cameron, from the Chief Superintendent of Education, showing the state of education in Europe and the United States.

The Registration Bill, was passed a third time after a slight amendment giving the government power to exact proper security.

Dr. Doulier's Bill incorporating the Dental profession, was passed a third time.

The Bill imposing taxes upon lands in the District of the Town of Belleville, was passed, amending it so as to have lands which may be sold for non-payment of taxes, sold in Toronto.

Mr. Corby's Bill to legalize the Assessment Rolls of the Town of Belleville, was passed, with some amendments.

GOLD AND SILVER MINES. The Hon. Mr. Richards moved the second reading of a Bill relating to gold and silver mining, the principal features of which appear to be the repeal of the present system, and the substitution of a miner's license, and the exacting of a royalty of from three to ten cents, and no person to be allowed to crush quartz without a license. The Bill was introduced. The license fee to be \$5, and to last one year.

Mr. McKellar objected strongly to the pushing of such an important measure through the House during a space of time without an opportunity to consider it. The whole opposition followed in denouncing the Bill. Mr. Boulter argued that the royalty was too high, that two and a half to five cents was sufficient. He thought, however, the Bill an improvement upon the present one, yet not liberal enough. After a good deal of discussion, the Bill was passed.

WILLIAM LYON MACKENZIE.

On motion of Mr. McKellar an Address was passed, asking the Government to pay the widow of the late William Lyon Mackenzie \$4,000, out of the revenue of Ontario, in consideration of the services of her late husband, in going to England with a petition of grievance, during the rebellion. The Hon. Mr. Cameron agreed that no case had been made out of indebtedness to the late Mr. Mackenzie, and therefore he would not support it. The motion, however, was carried on the following division:

Yves—Messrs. Barber, Baxter, Beatty, Blake, Christie, Clements, Cockburn, Crosby, Evans, Farrier, Ferguson, Gilmartin, Girdle, Gow, Lauder, Lount, McDougall, McKellar, McKinnon, McLeod, McMurich, Oliver, Parson, Parnell, Richards, Scott (Grey), Scott (Ottawa), Scott, Smith (Middlesex), Trow, Williams (Hamilton)—35.

Nays—Messrs. Boulter, Cameron, Carling, Carnegie, Colquhoun, Craig, Currie, Ferguson, Fitzsimmons, Graham (Hastings), Grahame

(York), Hays, Hooper, Laton, Lyon, Matthei, Monteith, McCall (Norfolk), McCall (Elgin), Rykert, Shaw, Strange, Supple, Wallis, Wigle, Williams (Durham), Wilson, Wood—21.

If this is the beginning, where is it to end? We shall not be surprised to see this same Mr. McKellar and his friends supporting a claim from the estate of Lount and Matthews for damages, while the friends of the murdered Moodie receive their execution. If this is to be the style of our legislation, it is time we had a legislative council. After this vote the House adjourned.

Reform Dinner.

The *Globe* says the Reform members "had a pleasant social reunion" at the Queen's Hotel on Monday evening, at which excellent speeches were made, but which had to remain hid under a bushel until Wednesday. We are anxious to know who the Reform members are. Were a stranger to read the debates in the Ontario Legislature, and not told what political principles each speaker professed, he would be puzzled to select the so-called Reformers from the Conservatives. The most Conservative principles having been advocated by men calling themselves Reformers, led by the Attorney General; and on the other side, the men who boast of being Conservatives have lost themselves in the haze of democracy. What's in a name, if our present legislators are to be taken as a sample of what it implies?

From New Brunswick.

St. John, N. B., Feb. 29.

An election to the House of Commons for Restigouche shortly takes place. The candidates are—Mr. Caldwell, Confederate; Mr. Moffatt, Anti.

FREDERICTON, Feb. 29.

A long discussion on the Bill to abolish the export duty on Hackmatast ship keels, was ultimately referred to a select Committee.

The resolutions of Mr. Peck declaring the imposition of stamp duties and newspaper postage independent, next came up. The newspaper postage was condemned on all sides. Opinions on the Stamp Act were pretty equally divided. The general tone of the debate was decidedly hostile to the existing mode of taxation.

Yesterday, Mr. Hartley introduced a Bill abolishing the property qualification of members; also, a Bill abolishing imprisonment for debt.

The Secretary, in reply to Mr. Moore's address, detailed the items under the head of "Press Expenses," and stated that they would be laid out on Thursday afternoon. The church was one of the oldest and handsomest in the neighborhood.

Many of the wells in New Hampshire are drying up. Unless a rain visits the State before many days, and a general thaw, there will be a great want of water.

A Paris paper prints this advertisement:—"A young lady of forty-eight, having a moderate income, but possessing a patent for a new invention, wishes to marry a gentleman of sixty-five well versed in chemistry."

One of the provisions of the proposed new law of Wisconsin is that all plaintiffs in civil suits shall give bonds for the costs, including the fees of the defendant's lawyer, in case of failure.

A letter from Rome, in the *Corriere delle Marche*, states that the sum to be paid for the disputation asked from the Pope on the occasion of the marriage of Prince Humbert with his cousin, the Princess Marguerite, will be \$4,000.

An indication of the present wide-spread distress among the poor of New York is afforded by the fact that one charitable association alone has already furnished solicited aid to over 14,000 families.

Mr. Charles O'Connor, who is the Counsel for Mr. Jefferson Davis, will, it is said, assist in defending the President of the United States.

Mr. O'Connor is one of the first lawyers in the United States.

A lady who had carried two common pigeons from their home in Missouri, to Illinois, in a close box, lately missed them, and has received a letter from Missouri saying that they had returned to their old haunts.

A *Comuniquo* to the *Italiya Chronicle* says the feeling among the people throughout Cape Province is so deep and strong that the appeal to the mother country be unsuccessful, it is hard to say what the consequences may be. What can they be?

Col. Stephen John Hill will, it is said, be promoted to the Governorship of Demerara. He will be succeeded by Major Robert M. Mundy, the present governor of Grenada.

Francis Hincks, of Demerara will probably succeed Sir I. P. Grant of Jamaica, who wishes to be relieved.

Telegraphic News.

BY ATLANTIC CABLE.

LONDON, March 3.—Another effort to get a mixed jury in the case of Gen. Nagle, at Silgo, failed yesterday. Mr. Heron, Nagle's counsel, renewed his motion to remove the trial to the vessel of the American navy, but the British Port declined to grant the necessary concessions for such a purpose.

QUEENSTOWN, March 3.—The steamship "City of Baltimore," from New York, has arrived, and reports that on February 28th she spoke the steamship "Hammonia," which left Southampton on the 21st, and was returning to that port, having broken her screw.

DUBLIN, March 3, 10 p.m.—George Francis Train has again been arrested. He had advertised that he would lecture this evening at the Rotunda in this city, and was about proceeding to the hall for the purpose of delivering his lecture when he was taken into custody. An audience of some 500 persons had assembled at the hall and when informed of Mr. Train's detention were indignant and demanded back their money at the door. At one time a serious disturbance was threatened, but the crowd finally dispersed, and all is now quiet in the vicinity of the building. It is given out that Mr. Train was arrested this time on an action for debt.

LONDON, March 4, 1:30 p.m.—Consols 93½ to 93½ for money and account; Bonds 7½ to 7½; T. C. 89½; Erie 47½.

PARIS, March 4, 1:30 p.m.—Bourse active; Renten firm.

LIVERPOOL, March 4, 1:30 p.m.—Cotton active, firm, and advancing rapidly; transactions very heavy; Uplands 9½d on spot and to arrive; Orleans 9½d; sales 25,000 bales. Pork advanced to 75s; Lard declined to 60s; Sugar and other articles unchanged.

CHICAGO, March 3.—A fire at Peoria, Ill., on Sunday morning, destroyed the Metropolitan hotel and another building, involving a loss of \$100,000.

CLARENCE, IOWA, March 3.—Two coaches and a baggage car on the Chicago and North Western railroad, capsized down an embankment near this place last night. Several persons were injured, but none killed.

PHILADELPHIA, March 4.—A daring robbery was committed yesterday afternoon at the store of Messrs. Caldwell & Co. Transactions very heavy; the store and during the temporary absence of the attendant, abstracted two trays containing diamond jewelry. One of the thieves was arrested and part of the jewelry recovered. The amount of property stolen is valued at \$25,000.

ST. LOUIS, Mo., March 4.—The steamers "M. S. Mipham," and "Fanny Scott," were burned at the levee at 11 o'clock yesterday morning. Total loss \$100,000.

NEWARK, March 4.—Walker, the murderer of Backwell, was captured on Monday night. He was taken out of jail last night by a mob, who intended to hang him, and escaped, but was subsequently recaptured and returned to prison.

NEW YORK, March 4.—The *Herald's* Havana special says, troops have been sent from San Luis Potosi to Guadalajara to support General Corona in suppressing the civil wars in Jalisco and Sinaloa. The government contemplates offering General Ortega his freedom and the vice-presidency of the Republic. The proposition to exclude ex-Imperialists from office has been withdrawn. The American Legation of Honor is very much dissatisfied with their treatment. They have been forced to leave the country after being defrauded of their rights.

General Cepeda had attacked Ismael, and pursued the rebels towards Valladolid, near which place he was defeated by Cantin and Naravette with severe loss.

The Imperialists in Havana are plotting to set up a regency in Mexico under Santa Ana. Corona is suppressing the civil wars in Jalisco and Sinaloa. The government contemplates offering General Ortega his freedom and the vice-presidency of the Republic. The proposition to exclude ex-Imperialists from office has been withdrawn. A Law Story.

A few years ago a couple of Dutchmen, Von Vamp and Von Bones, lived on friendly terms on the high hills of Limestone. At last they fell out over a dog. Von Vamp killed Von Bones' canine companion. Bones, choosing to assume the killing to have been intentional, sued Vamp for damages. They were called in due time into court by the judge whether the case was asked by the judge whether he killed the dog.

"Be sure I kill him," said Vamp, "but let Bones prove it."

This being quite satisfactory, the plaintiff in the action was called on to answer a few questions, and among others he was asked by the judge at what amount he estimated the damages. He did not well understand the question, and so, to be a little plainer, the judge inquired what he thought the dog to be worth.

"Be sure," replied Bones, "the dog was worth nothing, but since he was so mean as to kill him, he shall pay de full value of him."

How many suits have occupied the attention of courts—how many contests have engaged the time of the public, and have been waged with virulence and invective, having no more worthy defence than that of Von Vamp and Von Bones.

A teacher asked a little girl: "What country is opposite to us on the globe?"

"Don't know sir," was the answer.

"Well now," pursued the teacher, "if I were to bore a hole through the earth, and you were to go in at this end, where would you come out?"

"Out of the hole sir," replied the pupil, with an air of triumph.

American Transmigrator.—A parliamentary return clearly disproves the assertion that American fishermen on the Canadian coast would not generally comply with the license regulations. It appears from this return that 349 craft, an aggregate of 4,884 tons, paid the duty of 50 cents a ton in 1896, and that in 1897, although the number of vessels had decreased to 281, the tonnage had increased on the other hand to an aggregate of 14,531, on which about \$14,000 was collected.

A New York paper says that a "young lady from the country, whose only idea of the metropolitan police was gathered from the newspapers, recently came to town on a visit, and found herself at one of the crossings in Broadway. Frightened by the number, rapidity and noise of the vehicles that were passing, she stood hesitating, in great distress, when one of the gallant policemen politely stepped forward to escort her across. But no sooner had he touched her elbow, than with a piercing shriek she shrank from under his hand, cleared the crossing almost at a bound, and exclaimed in terrified accents: "O, sir! it wasn't me! Indeed, indeed, I have been doing nothing!"

American Watches.

The true value of Machinery applied to Watchmaking is not that by its use Watches are made more quickly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed, like any other machine, on mechanical principles. The factory is, indeed, little else than a machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan, movement, no mistake in the sizes or shapes of the pieces of which it is composed, nothing wanting in their properties, and no error in their positions. These points once thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished pieces. The method established in every department is the redemption of parts by mechanical means, and this is carried out on the system of the most thorough subdivision.

By means of multiplying gauges and microscopes, tests and inspection for the detection of wear in cutting tools and for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes together a finished machine. Every part is found to fit properly in its place. Every pin may be pushed into its pinches, and every screw turned home—instead of sluggish and feeble action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat has the clear ringing sound always characteristic of the Waltham Watch. The machine is a time keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claims that by it they produce Watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform to the minutest detail, not easily damaged, easily repaired, and when repaired always as good as new.

There are different grades of watches in the different varieties of Watches made by the Waltham Company, as there are different sizes and shapes of watches. But every Watch that bears the genuine trade mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

PROSPECTUS

OF THE

MOIRA GOLD MINING COMPANY.

Capital Stock, \$100,000. Divided into 10,000 Shares.

WORKING CAPITAL, \$15,000.

HORACE YEOMANS, Esq., PRESIDENT. ANDREW THOMSON, Esq., TREASURER.

R. S. GILBERT, Esq., SECRETARY. J. G. SHURTZ, Esq., SUPERINTENDENT.

MERCHANTS' BANK, BANKERS. DEAN & GILBERT, SOLICITORS.

DIRECTORS:

HORACE YEOMANS, of Flint & Yeomans, Belleville.

ANDREW THOMSON, Banker, Belleville.

W. W. DEAN, Master in Chancery, Belleville.

JOHN C. SHURTZ, Superintendent.

JAMES LISTER, M.D., Belleville.

JAMES W. CAHMAN, American, Consul, Belleville.

BARTON S. GILBERT, of Dean & Gilbert, Barristers, Belleville.

THIS COMPANY is duly incorporated under Cap. 23, Consolidated Statutes of Canada, for the purpose of working the mineral veins upon sixteen acres of Lot No. 19, in the fifth concession of Madoc, (the Richardson Mine being No. 18 in the same concession).

A shaft has been sunk to the depth of nine feet in the rock. At six feet a gold-bearing lode was struck, of 18 inches in width, which at nine feet has increased to 24 feet, and a crushing at Gilbert & Turley's mill of four and one-half tons of the rock, gave a yield of over fifty-six dollars in gold; the lode is clearly defined, and evidently extends the whole length of the property—52 rods.

The territory is admirably situated for mining purposes, being a high ridge covered with indications of mineral veins. There are numerous places on the land fully as promising as the one on which the shaft has been sunk, and which would unquestionably yield as well. The large quantity of land, and the prospects of other gold-bearing veins, make it certain that the Company will be able to subdivide the property as soon as a little further development has been made, and form other Companies at great advantage.

It is intended to have further prospecting in a few days, and negotiations are in progress which, if carried out, will secure a mill to the Company at once, so that regular work will be gone on with without delay, and dividends may, in that case, be expected in a short time.

Belleville, Jan. 27th, 1898. 2284-1f

India and China Tea Company.

HOME DEPOTS—London and Liverpool.

Dissolution of Partnership.

THE PARTNERSHIP heretofore existing

between Messrs. WALLACE & FORDYCE as Photographers, in the Town of

Belleville, is this day dissolved by mutual consent.

(Signed.) D. J. WALLACE, ED. FORDYCE.

Belleville, December 4th, 1897.

THE undersigned having purchased Mr. Fordyce's interest in the Gallery, will hereafter conduct the business on his own account. His long experience and thorough knowledge of the business will enable him to satisfy all who give him a call.

ROOMS—Over Graham and Grainger's Store.

ENTRANCE—Two doors South of Holden's Drug Store.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - \$10,000,000.
FIRE AND LIFE.
LIFE DEPARTMENT.

THE principles on which this Company is
founded contain all the elements required
to develop the benefits of Life Insurance, and
afford every facility to intending assured.
One of the advantages secured by those who
insure their lives with this Company is that
the outside expenditure for Management is
absolutely restricted by the Deed of Settlement
to Ten per Cent. of the Net Life
Income. This most important restriction
shows that the interests of participating policy
holders are closely watched and carefully
tended by the Company. Attention is especially
called to this point, the proportion
of premiums expended for Management
is most largely Influence Profits
and Bonuses.

The next division of profits takes place in
1869, and all those who wish to participate in
the profits should insure at once.

GODEY'S LADY'S BOOK
For 1868.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

THIS friend of woman, the arbiter of fashion, the en-
courager and publisher of the best literature of the
age, the pattern from which all others copy.

READING MATTER.
In this there will be an improvement. The volume
for 1868 will be set up with new-faced type, and of a
size that will enable it to contain an additional quantity
of reading matter amounting to about twelve pages in each
number.

BEAUTIFUL STEEL PLATES.
Of these the LADY'S BOOK contains fourteen each year,
superior to any other magazine. Our former efficient
copy of writers has also been retained.

OUR FASHION PLATES.
The original double fashion-plates will be continued.
MODEL CUTTING.—The only magazine in this country
that gives an original pattern for each dress.

DRAWING LESSONS.—In these are also alone.
ORIGINAL MUSIC.—Godey's must send 12 cents additional
for every subscription to the Lady's Book, and 12 cents
for either of the other magazines.

GODEY'S UNPARALLELED RECEIPTS
upon every subject, for the Household, Nursery, Kitchen,
House, and Laundry.

TIPSY ENGRAVINGS.—This is a series of engravings
that no one has attempted but ourselves.

LADY'S BOOK.—This is a series of engravings that
no one has attempted but ourselves.

The Cork Riots.

THE POLICE and the FENIAN SYMPATHIZERS
—DESPERATE FIGHTING—SEVERAL
MEN KILLED.

The Dublin correspondent of the London
Telegraph says:

The city of Cork was thrown into a state
of intense excitement yesterday, culminat-
ing in serious rioting, by the arrest of two
persons on suspicion of having attempted
stable Courtenay, a detective head con-
stantly with the detective force.
The facts connected with the attempted
assassination are as follows: Courtenay was
a man who, though frequently cautioned,
was known to move about without his
revolver. On Sunday night he attended
the departure of the Dublin mail train, but
on this occasion he had his revolver strapped
on his back, under his outside coat,
at the railway station he was met by
detective constable Carson, a man who,
from his prominence, is detected by the
Fenians in Cork. After a brief conver-
sation, and as they parted, Carson remarked
to Courtenay, "I hope you have your re-
volver?" "I have," he replied, "in my
case." "You should have it," replied Car-
son, "in your hand, as I always have it,
concealed in my pocket." Courtenay
laughed as they retired. He then proceeded
to the station house, passing along St.
Patrick's Quay, the Dublin mail train, but
rick street. At the end of Fish street he
perceived two suspicious looking men,
and as he moved up Patrick street he
noticed that they followed. Coming to the
end of Winthrop street he met two patrol
men, constables Kelly and O'Connell. He
then turned round, but the followers
were gone. Courtenay and the two sub-
stantially walked through Winthrop street,
Fenian street, and the South Mall, until
they arrived at the front of the Provincial
Bank, opposite Anglesea Bridge, where
which Courtenay would have to pass to the
station. Here he again encountered his
followers, they having evidently passed
through a cross street to intercept him.
He remarked on this to the patrol, and they
determined to watch the parties, but re-
tracted their steps to prevent suspicion.
They had not moved many yards, when,
turning round, one of the followers came
up to them with pistol in hand, and he
fired four shots in succession as fast as
trigger could be drawn, and before Cour-
tenay and the two sub-constables could
recover their surprise, the two sub-constables
crossed the street and turned into Morrison's
Quay. Had Courtenay his revolver in
hand, he had sufficient time to prevent
their retreat. The outrage being reported,
the police were instructed as to the appear-
ance of the assassins. In the afternoon
of Monday a detective saw two men walking
in Patrick street answering the description.
Meeting a policeman, he sent him in search
of Courtenay, or any of the sub-constables,
following in the interval the suspects. It was
not long until Morrison was up, and he
immediately recognized one of the two as
the fellow that fired at his party. Both
were arrested almost opposite the
chief constable's residence, and were
dragged within its walls. The man iden-
tified as Patrick O'Brien, house plasterer,
residing at Wise's Hill; and the other John
Eddy, boiler maker, living in George's
street. No sooner had the two been taken
know that an immense mob congregated
in the vicinity of the station. After some
time the prisoners were removed to the
Bridewell under an imposing escort, but
not sufficient to deter the mob, who
from assaulting the fully armed constabulary
with stones. O'Brien was subsequently
brought up at the police court for exami-
nation, and the policemen having deposed
to the facts, the case was adjourned until
O'Brien as the man who fired the shots at
Courtenay, he was committed for trial.
Eddy was afterwards examined, and re-
manded for eight days, as the police expect
to be able to prove his connection with the
Fenian conspiracy.

The Cork Constitution gives the follow-
ing account of the subsequent riotous
proceedings of the Fenian sympathizers:—
"At about four o'clock in the evening the
real rioting commenced, when a party of
the mob was returning from the Brid

Korn Kobb Publishes America's Ultimatum to Great Britain.

List ye nations of the earth. Let the universe be hushed while the great Republic speaks. England is doomed. The measure of her iniquities is full. Her day of her destruction is at hand. Her star of Empire has set. Macaulay's New Zealand is on his way to London. The American Eagle has said it. The great bird whose plumage rakes the stars, whose scream is thunder, and the clap of whose wings is a hurricane, does not speak in vain. We are the apostles of the great work. From Maine to California, from the St. Lawrence to the Gulf of Mexico, its strains re-echo in thunder tones. Who shall gainsay it? Who shall dare to tread on the skirts of the Goddess of Liberty? The rotten monarchies of the Old World? We guess not. Let them beware! Let Europe quake at the tread of her kings and emperors tumbled in the dust; let her slaves break their fetters, and take refuge under the Stars and Stripes, where liberty is universal, and takes only 50 cents on the dollar. England must go under. The American Congress has said it; the New York Herald has said it; George Francis Train has said it; By the Tower of the immortal memorie. The young giant of the West, and name of Commodore Wilkes, it shall be so. The interests of half a million Irish, the united voices of half a million Irish, demand it. Englishmen, put your houses in order. Balance your books and say your prayers. Roll up your meter flag, and send your Royal Lion over to Barmen's Museum. The young giant of the West, whose splendor the glories of ancient Greece and Rome fade into nothingness, is at your gates. We come with the Alabama claims in one hand and a streak of greased lightning in the other. We unfurl the Stars and Stripes in the eastern hemisphere, and the sun ceases to shine. Yankee Doodle waves his hand and England is wiped out; that nest of tyrants disappears from the map. The Atlantic swallows it up; the American Eagle is perched upon the North Pole, whistles Hell Columbia o'er its grave. We're the unmatred terror of the earth—the grand climax of all climates. We're the biggest, strongest, largest, broadest, highest, deepest, heaviest, loudest, smartest people in creation. We're a whirlwind, a hurricane, an avalanche, an earthquake, and two or three hundred volcanoes. We're immense—you bet! The American Eagle is unmuzzled—can any one tie him up? The Goddess of Liberty has drawn the sword—can any one return it to the scabbard? We calculate not.

American Watches.

The true value of Machinery applied to Watchmaking is not that by its use Watches are made rapidly, but that they are made correctly. Very few people know what a Waltham Watch is. The Waltham Watch is made in the first place, at Waltham the Watch is regarded as only a machine, to be constructed like any other machine, on mechanical principles. The factory is the little else than a machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan or the movement, no mistake in the sizes or shapes of the pieces of which it is composed, nothing wanting in their properties, and no error in their positions. These points once thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished pieces. The method established in every department is the reproduction of parts by mechanical means, and this is carried out on the system of the most thorough subdivision.

By means of multiplying gauges and microscopes, tests and inspection for the detection of wear in cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes together a finished machine. Every part is found to fit properly in its place. Every pin may be pushed till it pinches, and every screw turned home—instead of sluggish and feeble action, the balance, even under the pressure of the lightest unsprung vibrator with a wide and free motion, and the beat has the clear ringing sound always characteristic of the Waltham Watch. The machine is a time keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce Watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform to the minutest detail, not easily damaged, easily repaired, and when repaired always as good as new.

There are different grades of finish in the different varieties of Watches made by the Waltham Company, as there are different sizes and shapes. As a necessary result, the trade mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

JOHN G. SHURTZ, Superintendent.

JAMES LISTER, M.D., Belleville.

JAMES W. CARMAN, American Consul, Belleville.

BARTON S. GILBERT, of Dean & Gilbert, Barristers, Belleville.

THIS COMPANY is duly incorporated under Cap. 33, Consolidated Statutes of Canada,

for the purpose of working the mineral veins upon sixteen acres of Lot No. 19, in the fifth concession of Madoc, (the Richardson Mine being No. 13 in the same concession.)

A shaft has been sunk to the depth of nine feet in the rock. At six feet a gold-bearing lode was struck, of 18 inches in width, which at nine feet has increased to 24 feet, and a crushing at Gifford & Turley's mill of four and one-half tons of the rock, gave a yield of over five dollars in gold; the lode is clearly defined, and evidently extends the whole length of the property—32 rods.

The territory is admirably situated for mining purposes, being a high ridge covered with indications of mineral veins. There are numerous places on the land fully as promising as the one on which the shaft has been sunk, and which would unquestionably yield as well. The large quantity of land, and the prospects of other gold-bearing fields, make it certain that the Company will be able to subdivide the property as soon as a little further development has been made, and form other Companies at great advantage.

Work is being vigorously prosecuted in the shaft, and the superintendency of JOHN G. SHURTZ, Esq., one of the Directors, who is largely interested in the proprietary of the mine, and who has had thirteen years' practical experience in the gold mines of California and Nevada, and is unquestionably the most accomplished quartz miner now in this country.

It is intended to have further crushing in a few days, and negotiations are in progress which, if carried out, will secure a mill to the Company at once, so that regular work will be gone on without delay, and dividends may, in that case, be expected in a short time.

Perry R. Co.
to Incorporate the Gananoque Water
Co.
respecting Dentistry.

respecting Registrars and Registry
for the Collection of Taxes for Belle-

Famine in A French Colony.

SICKENING DETAILS FROM ALGERIA.
A letter from Algiers, in the *Vieille* of Cherbourg, gives some heartrending details of the famine among the Arabs. The writer says—

"At Oranville I have seen from 150 to 200 of these poor wretches, scarcely covered with ragged burnous, eating the leaves of the olive plant, the roots of the dwarf palm, and the fifty fragments abandoned in the streets. I have seen natives coming down from the mountain with asses laden with dates robbed of all in an instant by these famished Arabs. The latter I have seen emaciated unmercifully by Europeans in order to make them desist, and yet they received the blows without seeming to feel them rather than give up a single date. At Bellanme I noticed squatted on the foot-path, with their backs against the wall, some dozen Arab children, the oldest of whom could scarcely be more than four. When I saw children I make a mistake; they were only skeletons. Their legs and arms were, in the most rigorous meaning of the words, no more than bones covered with shrivelled skin. On looking at these poor little things, so frightfully emaciated, one was at a loss to know by what effort they could stand on their feet. I brought a dozen pound loaves and distributed them among the children, but was scarcely able to starve them, for the assistance of some Europeans I do not know what might have become of me. Scarcely had I got clear of the crowd when I saw them fall upon the children and snatch away the bread which I had just distributed. At Oran, in the middle of the city, in front of the Hotel de l'Univers, I witnessed the most disgusting of spectacles. Every evening there is thrown out of that establishment the remains of the kitchen—damaged leaves of salad, and other vegetables, the entrails of fowl and game, and filth of that kind. Well, on the evening I speak of I saw a dozen Arabs fighting with the dogs of the neighbourhood over this offal.

The rebel papers of Kentucky are taking the ground that the "process of abolishing slavery has been revolutionary," that the ratification thereof by the second States was compulsory, and that the whole matter will be reconsidered when military power shall be withdrawn.

Store-keepers! Farmers! And Others!
SHOULD BUY THEIR TEA FROM THE IMPORTERS DIRECT.

The Montreal Tea Company,
6 Hospital Street, Montreal.

HAVE sent over One Thousand Packages to different parts of the country—and receive every day assurance that the Tea gives entire satisfaction.

Subjoined are a few of the numerous testimonials already received:

Montreal Tea Company.
GENTLEMEN—The six chests of Tea forwarded some time since arrived in good time. The quality is pure and excellent, and prices cheap. As I am particular in buying the best quality of Tea to be had for my customers, I am pleased to acquaint you that it gives general satisfaction. Your obedient servant,
WILLIS RUSSELL,
House of Senate, Ottawa, Dec. 14, 1897.

Montreal Tea Company.
GENTLEMEN—The box of English Breakfast and Young Hyson Tea which you sent gives great satisfaction. You may expect my further orders. Yours &c.,
J. H. BARNER,
Quebec, December 18, 1897.

Montreal Tea Company.
GENTLEMEN—The box of 30 lbs. English Breakfast Tea we had of you at 60 cents was of excellent quality, and fully as good as we have paid 60 cents for. Yours respectfully,
D. ANDERSON,
Toronto, December 18, 1897.

Montreal Tea Company.
GENTLEMEN—The two chests of Tea I had from you some weeks since have given entire satisfaction. You will please forward a friend of mine at Brimpton, who has been very much pleased with the quality of the tea. At same price, viz., at 50 cents per lb., Yours &c.,
JAMES DEBART,
P. Quebec, December 23, 1897.

Montreal Tea Company.
GENTLEMEN—The Oolong Tea which you sent me some weeks since has given entire satisfaction. I am sending a friend of mine at Brimpton, who has been very much pleased with the quality of the tea. At same price, viz., at 50 cents per lb., Yours &c.,
JOHN T. DAY,
Quebec, January 8, 1898.

Montreal Tea Company.
GENTLEMEN—I beg to inform you that the two boxes of Tea you sent me some time since have given entire satisfaction. I am sending a friend of mine at Brimpton, who has been very much pleased with the quality of the tea. At same price, viz., at 50 cents per lb., Yours &c.,
F. OLIVER,
Quebec, January 8, 1898.

The contributors to the "Medical Journal" have frequently declared that one half the nervous diseases are caused by drinking impure tea. The Company have carefully selected and imported a pure and fine tea that can be warranted pure and free from deleterious substances, 10, 20, 30, 50, 100, 150, lbs. boxes.

JAMES LISTER, M.D., Belleville.

JAMES W. CARMAN, American, Consul, Belleville.

BARTON S. GILBERT, of Dean & Gilbert, Barristers, Belleville.

THIS COMPANY is duly incorporated under Cap. 29, Consolidated Statutes of Canada, for the purpose of working the mineral veins upon sixteen acres of Lot No. 19, in the fifth concession of Madoc, (the Richardson Mine being No. 18 in the same concession.) A shaft has been sunk to the depth of nine feet in the rock. At six feet a gold-bearing lode was struck, of 18 inches in width, which at nine feet has increased to 24 feet, and a crushing at Gilbert & Turley's mill of four and one-half tons of the rock, gave a yield of over five and a half dollars in gold; the lode is clearly defined, and evidently extends the whole length of the property—52 rods.

The lode is admirably situated for mining purposes, being a high ridge covered with indications of mineral veins. There are numerous places on the land fully as promising as the one on which the shaft has been sunk, and which would unquestionably yield as well. The large quantity of land, and the prospects of other gold-bearing veins, make it certain that the Company will be able to subdivide the property as soon as the further development has been made, and form other Companies at great advantage.

Work is being vigorously prosecuted in the shaft, under the superintendence of JOHN G. SHURTZ, Esq., one of the Directors, who is largely interested in the proprietary of the mine, and who has had thirteen years' practical experience in the gold mining industry of Nevada, and is unquestionably the most accomplished quartz miner now in this country.

It is intended to have a further crushing in a few days, and negotiations are in progress which, if carried out, will secure a mill to the Company at once, so that regular work will be gone on with without delay, and dividends may, in that case, be expected in a short time.

REMOVAL.

N. MANN begs to notify the public that he has removed his Barber Shop to the Daffoe House Building, where he hopes to see all his old customers, and as many more, who will favor him with their patronage.

Belleville, Dec. 27, 1867.

ORANGE CERTIFICATES

FOR SALE at the INTELLIGENCER Office.

Intelligencer Buildings, Front Street, Belleville.

CAUTION.

THIS perfection and cheapness of the AMERICAN WATCHES (WALTHAM) have given to the world celebrity that distinguishes them years ago. The popularity of the American Watch, by selling it is hardly necessary to say, that such watches are calculated to insure the highest reputation which any watch can attain. The several hundred of the American Watches—except the lowest grade, marked Home Watch Co.—are now being sold in the United States, and the number of the watch and the signature of the Treasurer of the Company, R. H. ROBBINS.

The purchaser should in all cases require one of these certificates, which is furnished at the price of the watch.

The following are the trade marks on the several grades of our manufacture:

AMERICAN WATCH CO.

APPLETON, TRACY & CO.

WALTHAM WATCH CO.

P. S. BARTLETT.

WM. ELLERY.

HOME WATCH CO.

PENNSYLVANIA RAILROAD COMPANY.

Office of the General Superintendent.

Albion, Pa. 13th Dec. 1866.

GENTLEMEN—The watches manufactured by you have been in use on this Railroad for several years, by our engineers, to whom we furnish watches as part of our equipment. There is no occasion in saying that we are carried on our line, and we consider them good and reliable time-keepers, and we have had great satisfaction in having your watches give us so little trouble and have worn so much longer without repairs than any watches we have ever had in use on this road. As you are aware we trust to these of English manufacture, and we have no doubt that they will give us the same service as correctly, nor have they done so good service.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years.

Respectfully,

EDWARD H. WILLIAMS,

General Superintendent.

American Watch Co., Waltham.

NEW YORK CENTRAL RAILROAD.

Locomotive Dep't. Western Division.

Rochester, N.Y. 24, 1866.

GENTLEMEN—I have no hesitation in saying that I believe the great majority of locomotive engines have found by experience that the American watches are the most satisfactory of any for their uses. They run with the greatest accuracy and steadiness, notwithstanding the rough riding of our engines, and have never known one to wear out, they must be durable. I hope to see the time when our engines will be supplied with your watches, and furnish them to all engineers and conductors. In my opinion it would greatly tend to promote regularity and safety.

Yours respectfully,

CHARLES WILSON,

Chief Engineer.

Brotherhood of Locomotive Engineers.

American Watch Co., Waltham.

For sale by all first-class dealers in the United States and British Provinces.

ROBBINS & APPLETON.

New York.

ROBERT WILKES,

Toronto & Montreal.

GENERAL AGENTS.

100-100-40-40

Nov. 2, 1867.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted) and will be furnished to all subscribers at the rate of \$2 a year if paid in advance, \$3 otherwise. Mail subscribers \$5 a year. \$3.00 for 6 months; \$1.50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable dispatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Macao, Hong Kong, Shanghai, and other points, who will furnish us with early and full information respecting the Gold Regions, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., and in short, we will pains no expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 5 cts

Months, 10 cts

Half Square, 6 months, 40 cts

One Square, 6 months, 80 cts

Two Squares, 6 months, 120 cts

Four Squares, 6 months, 160 cts

Notices of Births, 50 cts

Do of Marriages, 50 cts

Do of Deaths, 50 cts

"BUSINESS NOTICES"—All matter under this heading, local or general, 10 cts per line, measured by a scale of solid matter.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at 25 cts per annum if called for at the Office, or sent by mail; and 25 cts if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cts will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months the circulation has rapidly increased, and the number shown on our Subscription Books is over 1,400.

With such a large and general circulation, throughout this adjoining County, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING.

Six lines and under, first insertion, 10 cts

Each subsequent insertion, 5 cts

HARTON S. GILBERT, of Dean & Gilbert, Barristers, Belleville.

THIS COMPANY is duly incorporated under Cap. 23, Consolidated Statutes of Canada.

for the purpose of working the mineral veins upon which the title of Lot No. 19, in the fifth concession of Madoc, (the Richardson Mine being No. 19 in the same concession).

A shaft has been sunk to the depth of nine feet in the rock. At six feet a gold-bearing lode was struck, of 18 inches in width, which at nine feet has increased to 24 feet, and a crusting of sulphur and iron's mill of four and one-half tons of the rock, gave a yield of over fifty-six dollars in gold; the lode is clearly defined, and evidently extends the whole length of the property—53 rods.

The territory is admirably situated for mining purposes, being a high ridge covered with indications of mineral veins. There are numerous places on the land fully as promising as the one on which the shaft has been sunk, and which would unquestionably yield as well. The large quantity of land, and the prospects of other gold-bearing veins, make it certain that the Company will be able to subdivide the property as soon as a title further development has been made, and other companies at great advantage.

Work is being vigorously prosecuted in the shaft, under the superintendence of JOHN G. SHURTZ, Esq., one of the Directors, who is largely interested in the property of the mine, and who has had thirteen years' practical experience in the gold mines of California and Nevada, and is unquestionably the most accomplished and skillful miner now in this country.

It is intended to have further crushing in a few days, and negotiations are in progress which, if carried out, will secure a mill to the Company at once, so that regular work will be gone on with without delay, and dividends may, in that case, be expected in a short time.

Intelligencer Buildings, Front Street

Belleville.

CAUTION.

THE perfection and cheapness of the AMERICAN

WALTHAM WATCH have given it such a wide

world sale, that unscrupulous dealers years ago

imitated its style and price to trade most. It is

now the property of the American Watch Co., acting

upon the popularity of the American Watch Co. in selling

its own watches, and the name of the genuine article.

It is hardly necessary to state that the watches are

worthless as time-keepers, and when bought for genuine

are calculated to injure the health of the wearer.

The several grades of the American Watch Co. are

guaranteed by special certificates, and the signature of

the Treasurer of the Company, R. E. ROBERTS, is

on every watch. The purchaser should in all cases require one of these

certificates, which is furnished at the dealer in the

genuine watches.

The following are the trade marks on the reverse

of our watches:

No. 266

County Council.

SECOND DAY.
TUESDAY, March 10, 1868.
PRESENT—His Honor the Mayor.

Messrs. Rose, Rowe, Armstrong, Appleby,
 Anderson, Deasy, Flint, Emo, Finlay,
 Conly, Walker, Hamilton, Cumming,
 Farley, Daly, Clapp, Boulder, War-
 gabourie, Stokes.

Some communications were read.

Mr. Appleby gave notice of a By-Law
 fix the license fee of teamsters and ca-
 riages under the Statute.

Mr. Rose moved, seconded by Mr. Armstrong. That the County Treasurer be, and he is hereby instructed to settle with the Municipality of the Township of Sidon with respect to Taxes.

Township for the year 1865, on the same terms as the settlement with the Township of Thurlow has been affected by Act Parliament.

Mr. Farley wanted this matter postponed until Thurlow had been settled with. The County was not yet done with Thurlow and I shall appeal to the next session of Parliament. It was distinctly understood

that interest should not be charged us, and I will go forward and make oath that I withdrew my opposition on the express understanding that there should be no interest charged. As they had false

their agreement, I intend to go before next Parliament, and have the matter opened up. They said we were bullied down and it was true. Blake in his conduct had murdered reason, and kicked justice out.

doors, and the party acting with the through duplicity and falsehood got the Committee to consent to a settlement, and then they come here and try to deceive

the matter over until the June session, for the reasons advanced by Mr. Earl but because then the assessment would be made, and it would be the proper time.

Mr. Rose in moving the resolution he did it, because he felt it was right and just. He did not desire a repetition of a disgraceful scene that occurred here.

day. He had no objection to have the matter lay over. Sidney was willing to wait until Thurlow settled.

The Warden suggested that Mr. Appleb motion pass first, and if then it was desired that Mr. Graham should be heard.

After some further discussion Mr. R. withdrew his motion.

would withdraw his motion. He did not say this out of any disrespect to Mr. Graham, but because he did not wish to open the question up again. If Mr. Graham stepped on Mr. Farley's toes, Mr.

Mr. Farley wanted Graham to speak. Mr. Graham was too much of a gentleman

to make such misstatements as had been made yesterday. He was sure he would not go over the rigmarole stories given yesterday.

Mr. Cummings was sorry he did not agree with Mr. Flint. Though the discussion was stormy yesterday, he had gained good deal of information, and he was satisfied that Mr. Graham could enlighten

The motion being put and carried,
Mr Graham said he only desired to supply an omission which had been made yesterday by Dr. Boulter and the Council.

Solicitor. The settlement between Thurlow and the County was reduced to writing and agreed to by all parties, so that this settlement was placed in his hands and he could assure Thurlow the

the settlement as reduced to writing was carried out to the very letter, and no fault was broken with Thurlow. With respect to what Mr. Farley said about log-rolling he could say so far as he was concerned

that up to the time the Bill was placed in the hands of the Committee he had not spoken to a single person respecting it, preferring that it should stand upon its own merits.

Mr. Appleby moved, that the Council go into Committee on Roads and Bridges.

Mr. Farley—I want my question answered.
The Warden did not intend to allow any further discussion upon this matter.
Mr. Farley—Does Mr. Graham refuse to

[Mr. Farley commenced to speak again and reiterated his question with a good

of vehemence. He was called to order by members and the Warden, but it did not seem to produce the slightest effect. He maintained his position in spite of all demonstrations demanding an answer to

his question, and it was not until the Warren left the chair that Mr. Farley would take his seat, and that quiet was restored.]

Daily Intelligencer.

BELLEVILLE, WEDNESDAY, MARCH 11.

SUNDAY SCHOOL CONCERT.—A Concert will be given by the children of No. 1 Wesleyan Sunday School, in the Church, Bridge Street, on the 15th inst. The proceeds are to be applied towards the purchase of the library. We trust there will be a full house.

BANK OF UPPER CANADA.—His Excellency the Governor-General in Council has been pleased to appoint Poley Howland and Charles James Campbell, both of Toronto, Esqs., to be Trustees to represent the interests of the creditors, in terms of the 4th section of the Act of the present Session of Parliament, chapter 17, intitled: "An Act for the Settlement of the Affairs of the Bank of Upper Canada."

THE NEW DOMINION MONTHLY.—The March number of this Canadian monthly is before us, and contains a large amount of reading matter, a map of Abyssinia, and an engraving of the Mission House, Caribou Island, Labrador. Published by John Douglass & Son, 138 St. James Street, Montreal; \$1.00 per annum. The publishers of the New Dominion Monthly desire to secure canvassers in every county and township. For terms apply, with suitable credentials, to John Douglass & Son, Montreal.

BLACKWOOD.—The February number has been received, and contains the following papers:—Brownlee's expedition, Memoirs of Sir Philip Francis; Linda Trevel, part V.; Cornelius O'Dowd; Historical Sketches of the Reign of George II.—No. 1.—The Queen; Fenianism; and the Irish at Home and Abroad; The Queen of the Highlands. Leonard Scott & Co., publishers, 140 Fulton St., New York. Terms: For Blackwood or any of the Reviews, \$4 a year; Blackwood and any one of the Reviews, \$7; the four Reviews, \$12; Blackwood and the four Reviews, \$15.

FIRESET AT VIENNA.—A special telegram from Vienna, says: The large quantity of snow melted on Saturday last, caused the Otter Creek to overflow portions of the village on Monday. All along the front street the water has flowed through to the depth of four or five feet. How boats passed freely up and down the business streets, and families living near the creek had to leave their houses. The lumber, shingles and fences were carried down the stream. Had the ice broken and come down, nothing could have saved a part of the village from destruction. The water has been the highest ever known before. The floor of the telegraph and postoffice was covered with water to the depth of two feet. No other casualties.

CENTRAL SCHOOL.—The system of Central Schools, we see by our exchanges, is being introduced into every Town and City in Canada, where new school houses have to be built. In Ottawa a new central school has just been completed, of which the Ottawa Citizen says: "The handsome Central School House, east, which our Central School Trustees have recently had erected is now, we are glad to observe, completed and ready for occupation. It will be opened on Monday next and the occasion will be hailed with joy by all friends of education. We must compliment all parties concerned on the really capital building which has been erected, as the Central School House, east. Spacious, cheerful and well ventilated, possessing those qualifications which modern civilization requires."

County Court.

The County Court and Quarter Sessions commenced yesterday, Hon. G. Sherwood, County Judge, presiding. Messrs. Emo and Campbell associates. There is but one criminal case on the calendar, and only some nineteen civil cases. Several undefended issues were disposed of yesterday. The following is the Grand Jury:

Samuel Bailey, Foreman.
Frederick Bine, E. D. Allen,
Mark Landon, E. M. White,
Samuel Kilpatrick, Francis Vandervoort,
William Harrison, Thomas Cassidy,
Charles Kirk, John Chappin,
Francis Abbott, Jacob Caldwell,
Edwin Oser, Robert Wilson,
John Spyr, George Wilson,
Daniel Caniff, Edward Koseph,
Adam Barton, J. McQuigk,
Philip Brown, William Courtney.

SECOND DAY.

WEDNESDAY, MARCH 10, 1868.
The Court opened at 9 o'clock the Honorable Judge Sherwood presiding.
The forenoon was occupied with the consideration of the following case:
WALLBRIDGE vs. PLAYFAIR.—This was an action brought by William Wallbridge against John Playfair, to recover the balance due on the purchase of a Yankee gate manufactured at plaintiff's foundry at the request of defendant, plaintiff prayed the making and delivery of the gate.
Defendant proved payment of \$150 and alleged that the gate was not worth a greater

amount. Several witnesses were called to support this view. Verdict for defendant. L. Wallbridge, Q. C., for plaintiff. R. P. Jellett for defendant.

Death of Lt.-Col. Dunn.

The news of the accidental death of Lt.-Col. Dunn of the 33rd Regiment, will be received with general regret throughout Canada. Col. Dunn was the son of Mr. Dunn, Receiver General of Canada for over twenty years, and was a popular and promising officer. He was attached to the Abyssinian expedition. His death occurred at Senaf, on the 26th of January in the following manner: The deceased had gone out with his rifle, after game, and from the account of his native servant, who was the only person with him when the accident happened, it seems that, as he was stooping forward over a ditch to get water, both barrels suddenly went off, and lodged their contents in his left side. His death must have been instantaneous. He was just able to say, "Run for a doctor," and then dropped dead. There is not an officer of the same rank in this force whose loss would be more severely felt. Indeed the whole army has sustained a heavy loss in the death of Col. Dunn. He was the youngest colonel in it, and his career had already given sufficient promise of distinction to justify the belief of his friends that the highest military appointments were within his reach. In the ever-memorable charge of the Six Hundred at Balaklava he won the Victoria Cross conferred upon him by the unanimous vote of his comrades who saw his gallant bearing in the peril which they shared with him; and partly in consequence of this achievement, but more as a reward for the great share which he took in raising the 100th Regiment in Canada, when the Indian mutiny broke out, he obtained his promotion so early. Even those who did not know Colonel Dunn well enough to appreciate his good qualities must feel a keen pang of regret at the thought that so gallant a soldier, in the prime of manhood, and with fresh hopes of distinction just dawning upon him, should have died such a death.

Royal Black Knights of Ireland.

The annual Session of the Grand Black Chapter of Canada, in connection with the Royal Black Knights of Ireland, was held in the Orange Hall, King street, Hamilton, on Friday, March 6th.

Bro. Sir Knight F. H. Medcalf occupied the chair, as Deputy Grand Master, in the absence of Bro. Sir Knight Thomas Keyes, of St. Catharines.

A large number of delegates were present and the business transacted was, it is said, of importance to the Order.

The Grand Lodge adjourned, after sitting to a late hour, the following officers being elected for the current year:

Grand Master—Bro. Sir Knight F. H. Medcalf, Toronto.

Deputy Grand Master—Bro. Sir Knight J. Ross Robertson, Toronto.

Grand Chaplain—Bro. Sir Knight Reginald Dawson, Waterloo.

Grand Treasurer—Bro. Sir Knight J. G. Moore, Belleville.

Grand Registrar—Bro. Sir Knight William McAndrew, Hamilton.

Grand Lecturer—Bro. Sir Knight Thomas Minnis, Hamilton.

Deputy Grand Treasurer—Bro. Sir Knight John Reid, London.

Deputy Grand Registrar—Bro. Sir Knight W. H. Scholes, Belleville.

Deputy Grand Lecturer—Bro. Sir Knight James McGowan, Belleville.

Standard Bearer—Bro. Sir Knight McCabe, Hamilton, and Bro. Sir Knight Griffith, Brantford.

Grand Censors—Bro. Sir Knight Morrison, Kingston, and Bro. Sir Knight L. S. Giffin, Madoc.

Grand Pursuivant—Bro. Sir Knight Harron, Hamilton.

The next meeting of the Chapter will be held in the city of Kingston.

Mr. Wm. Johnson, of Ballykibbeg House, Belfast, is Grand Master of the Order in Ireland. He was arrested for a breach of the Party Processions Act, as announced by cable some weeks ago.

After adjournment of the Chapter, the delegates sat down at a sumptuous repast at McCabe's Volunteer Hotel, King street, Bro. McAndrew in the Chair, and having Bro. Medcalf, and Major Reilly on his right, and Bro. J. Ross Robertson, D. G. M., and Bro. Wm. Johnson, ex-Grand Registrar on his left. About one hundred were present, and enjoyed themselves to a late hour with toast, song, and sentiment.

For The Intelligencer.

Albert College.

And the pleasure last evening of attending one of those entertaining and edifying treats given every term at Albert College by the ladies of the "Adelphi Society." The exercises consisted of essays, recitations, and some very interesting readings from their society paper, "Zetatehenn," interspersed with vocal and instrumental music. This was followed by refreshments prepared for the occasion, after which the company adjourned to the Reception Room for a social "Conversation." The company dispersed about eleven, all seeming to be highly pleased with the action of the evening. I would suggest to the members of the "Adelphi" that it might be advisable to arrange with one of the publishers in Town to issue their paper in a neat magazine form; that would give stability and permanence to their paper; it could not otherwise possess. It would be well patronized in Town, I pre-

The Council went into Committee on Roads and Bridges. Hon. Mr. Flint in the chair.

The Report of the County Surveyor, giving particulars of repairs to bridges and other work done, and suggestions for other work, was read and considered. The report acknowledged that the Surveyor had departed from the County by-law, but he found, when he commenced to repair the bridges, they required a larger expenditure than first estimated. The Surveyor was directed to comply with the law in future. The amount for repairs was concurred in after some discussion.

On motion of Mr. Wood, seconded by Mr. Ward, the Surveyor was instructed to repair Kellar's Bridge without delay.

The Clerk was directed to apply to the proper party for the plans and specifications for the County gage, so that the County Surveyor could have access to them.

On motion of Mr. Hamilton, seconded by Mr. Conley, the County Surveyor was instructed to examine the road from Marmora to Belmont and report what repairs are necessary.

On motion of Mr. Conley, seconded by Mr. Walker, the County Surveyor was instructed to report respecting the road on the 4th concession of Rawdon, between lots 6 and 7.

On motion of Mr. Wood, seconded by Mr. Ward, the County Surveyor was instructed to examine the road between Blenheim and Hungerford, and report what repairs were necessary.

With respect to the petition of the inhabitants of the eastern section of Hungerford for a grant to make a good road to the gravel road, the Reeve and Mr. Flint spoke as long as length in favor of doing something to enable the inhabitants of that section to get out to the gravel road. The Surveyor was ordered to examine the road and report at the next meeting.

A petition of John Houston, asking for certain allowance of road, in lieu of allowance given by him, was laid over.

Mr. Gibson moved, seconded by Mr. Stokes, That whereas the Township of Hungerford has appropriated \$300 towards building the bridge known as Caton's Bridge, and the farmers of the vicinity having given \$300 towards the same bridge, and it requiring \$300 to build it, the County Council appropriate \$300 for that purpose.

After some discussion the motion was referred to the Committee on Ways and Means for an appropriation.

Mr. Conley moved, seconded by Mr. Walker, That \$100 be appropriated to build the bridge on the Ridge Road. It was referred to the Committee on Ways and Means.

Mr. Hamilton moved, seconded by Mr. Walker, That the County Surveyor be authorized to examine the road through the swamp from Marmora to Lake. It was referred to the Committee on Ways and Means.

Mr. Cummings moved, That the report of the Committee appointed to examine the Trenton Bridge be accepted, and that the Surveyor be instructed to carry out the recommendations of that report. The motion was laid on the table until the report was brought up.

Mr. Armstrong moved, seconded by Mr. Rowe, That a bridge be built across the Trent at Chisholm's Rapids, in accordance with the Surveyor's Report. Laid on the table until the report was brought up.

Mr. Clapp moved, seconded by Mr. Daly, That the sum of \$300 be appropriated to repair the bridge across the Moira at Archibald Ross'. Laid over.

Mr. Hamilton moved, seconded by Mr. Wood, That the County Surveyor be instructed to examine the road from Marmora to Madoc, and to see what it will cost to put it in repair; and also to examine the road by way of Bailey's Corners to El Dorado, and ascertain the cost of making it a good road, with a view to decide which road shall be adopted as a County Road. Carried.

Committee rose and reported progress, and asked leave to sit again.

The Council adjourned until 2 o'clock, p.m.

AFTERNOON SESSION.

The Council met at two o'clock pursuant to adjournment.

Mr. Wood introduced a By-Law respecting the Gravel Roads, providing for keeping them in repair, &c., which was read clause by clause and adopted. The By-Law is somewhat similar to the one in force last year. It provides for the appointment of six members, who, with the Warden, shall constitute the committee who shall have charge of the roads, and power to give out contracts, say what work shall be done, what material shall be used, &c., and defines the duties of the County Surveyor, Foreman, &c.

Committee rose and reported progress, and asked leave to sit again.

Council went into Committee on Roads and Bridges, Hon. Mr. Flint in the chair. Mr. Cummings' motion respecting the repairs to Trent bridge was considered. The report of the committee stating what repairs should be made, was read, and plans and specifications of the proposed repairs were laid on the table. On motion of Mr. Cummings, seconded by Mr. Wood, it was decided that the repairs be proceeded with in accordance with the plans and specifications of the Surveyor, and that the Surveyor be instructed to advertise for tenders, and that the same be submitted to the Gravel Road Committee.

Mr. Farley moved, seconded by Mr. Clapp, That \$100 be granted towards improving the highway in front of Albert College. Referred to Committee on Ways and Means.

sume, and all old students would be only too happy to become regular subscribers. Notwithstanding the unfavorable state of the streets, a goodly number from Town were present, and all seemed to appreciate the efforts of the young ladies, and to wish a hearty success to "Zetatehenn."

Business Notice.

ROBERT NICKLE'S ENTERTAINMENT.—We are pleased to state that the citizens of Belleville will, on Thursday and Friday evenings of this week, be able to witness the acknowledged annihilator of the art of prestidigitation, and from the enormous heaped upon him by his Montreal exchanges, also the crowded houses which welcomed his opening performance and the second, his closing one, we can assure our citizens they will see strange sights of originality by this great Prestidigitator of United States repute. Mr. Nickle's manipulation of cards, coins, bullets, &c., is spoken of in the highest terms, as equalling the great Hermann, by those who have seen him. Mr. Nickle was formerly a Bellevillite, and comes to show his great talent and genius, as developed in his profession. Mr. Nickle is also the inventor of several of the greatest illusions performed by other magicians. The universal bewilderment in a gentleman's hat and the growth of flowers are his invention, also the celebrated Nickle puzzle and bewitched card, which are for sale in the audience, they being a very pleasing freebie amusement. Remember Thursday, March 12th, when Mr. Nickle gives his first representation. We advise those who wish to go in comfort to go early, as we can insure the Bellevillite a good house.

Telegraphic News.

BY ATLANTIC CABLE.

PARIS, March 10.—It is reported to-day that the Emperor Napoleon will pay a visit to St. Petersburg in June.

ST. PETERSBURG, March 10.—The Nicolay Railroad is to be disposed of to a newly formed Russian Company, the terms of the sale have already been settled; the property rights of Americans in the material and rolling stock of the road are protected by provisions of sale.

BERLIN, March 10.—A commercial treaty between Germany and the Austro-Hungarian Government has been concluded and signed.

LONDON, March 10.—The Prince of Wales will soon make a visit to Ireland, where he is to be made a Knight of the Order of St. Patrick.

The Fenians who were captured at Merthyr Tydvil, in Wales, have been indicted for treason and will be tried at the Swansea Assizes.

Dispatches from Amnelay Bay say that King Theodore had arrived in the immediate vicinity of Magdala with his troops and war material. The advance of the British was steadily pushing them under Gen. Napier, and at last accounts was two days' march beyond the village of Aftargat.

CORE, March 10.—The Grand Jury yesterday presented an indictment against Capt. Mackay for murder, and against Marix and Walsh as accessory to the crime.

LONDON, March 11, 1:30 p.m.—Consols 93½ to 94½; Bonds 7½ to 7½; Erie 48½; L 100 84½.

LIVERPOOL, March 11, 1:30 p.m.—Cotton firm and active; prices unchanged; sales 12,000 bales. Breadstuffs generally quiet; Corn declined to 42s 9d; Beef firm at 11s 6d; Lard dull at 57s; Tallow firm at 44s.

ANTWERP, March 11, 1:30 p.m.—Petroleum dull and unchanged.

QUEBEC, March 11, 1:30 p.m.—The steamer "City of Boston" and "Britannia" have arrived.

American Despatches.

SAN FRANCISCO, March 9.—Advice from Victoria, state that the excitement caused by the threatened Fenian invasion still continues. Gunboats had been stationed in the harbor and a large body of marines placed on board. The powder magazine, opposite the city, and different engine houses are strongly guarded. The volunteers have received orders to hold themselves in readiness in case their services be required, in fact every precaution has been taken to secure the safety of the city. Information of a startling nature has been received, which is only known to the authorities, but the general impression prevails that they have been badly hoaxed.

NASHVILLE, March 10.—Two United States soldiers were killed yesterday in an encounter with illicit distillers, in Claybury Co., East Tennessee.

NEW YORK, March 11.—The steamer "Hising Star," with California passengers, arrived this morning. The steamer "Fulton," of the opposition California line has also arrived.

CHICAGO, March 10.—A fire occurred at Waterloo City last night, which destroyed the drug establishment of Darby, Leitcher & Co., besides several adjoining buildings. Loss about \$30,000.

NEW YORK, March 11.—The 27th of the Washington special says: The board of managers of the impeachment will file their report to the President's return to the summons on Monday, and ask that the trial proceed at once. Should the President's counsel ask for longer delay, the managers, on the part of the House, will resist it, and will be prepared to argue the question before the Senate. One of the managers expressed the opinion to-night that the trial could not consume more than two weeks. The President has a plan of his own for transacting business through Gen. Thomas, and Representative Boutwell has prepared a Bill, which he will present in a few days, providing that all communications of an official character between the President and Congress shall pass through the War Department. Secretary Seward was in consultation with the Foreign Affairs Committee, urging immediate action on Mr. Bancroft's

BY ATLANTIC CABLE.

CORR. March 11.—The trial of Capt. Mackay concluded to-day. Verdict—Not guilty of murder.

BERLIN, March 11.—The treaty just concluded between the North German Confederation and the United States of America, providing for the protection of the rights of naturalized citizens, was to-day unanimously ratified by the Federal Council.

It is reported that a proposition was recently made to Lord Stanley to submit the Alabama claims to the arbitration of France, and that he was willing to entertain the proposition, so far as it applied to the question of indemnity, but he refused to submit other points in dispute.

LONDON, March 11.—In the House of Commons last night a warm debate took place on the condition of Ireland, and the following resolution was introduced, but on further consideration was postponed until to-morrow:—

"That the discontent of Ireland is a source of uneasiness to the Empire, and must be remedied; that laws for Ireland should be framed to suit the wishes of the people; that the present church, school and land tenure systems are unjust, and that, in the opinion of this House, their wrongs should be righted."

ROME, March 11.—One hundred Canadian Zouaves, who volunteered for Papal service, have arrived here.

LONDON, March 12.—General Dix, American Minister to France, has arrived in this city and will remain two or three weeks. It is said he came on business connected with the question of the Alabama claims.

The House of Commons last evening, in committee of the whole, agreed to report for the passage of a bill introduced by Mr. Gladstone, for the abolition of church rates. Mr. Waters, recently arrested, has been discharged. The case of Mallory is to be brought up in the House of Lords next week.

LONDON, March 12, 1:30 p. m.—Consols 92 to 93½; Bonds 7½ to 7½½; Erie 49½. Liverpool, March 12, 1:30 p. m.—Cotton quiet and steady; sales about 10,000 bales. Corn 42s 6d; Beef 11½d 6d; Pork firm; Lard quiet. Newcastle, March 12, 1:30 p. m.—Petroleum quiet.

American Despatches.

NEW ORLEANS, March 11.—The *Marico* *Drape* publishes an extract from a letter written by Gen. Grant to Mr. Romero, in which he says he intended to visit Mexico after the election, and when matters go on well. Particulars of the attempt to assassinate Juárez show that an ex-impresario officer and a foreigner in command of a city regiment were the ringleaders. They are believed to have been employed by Santa Anna. The plot included the murder of the Cabinet.

BURLINGTON, Vt., March 11.—William Henry Bissell, D. D., Rector of Trinity Church, Geneva, New York, was unanimously elected Bishop of Vermont by the Episcopal Convention in this city yesterday.

NEW YORK, March 12.—The *Herald's* Vera Cruz special says a British corvette was detected in smuggling a large amount of specie out of the city. The commander of the fort was about to fire on the vessel carrying the specie, when a British corvette anchored between it and the fort. The troops composing the expedition to Yucatan were returning. The climate of the peninsula was depressing the troops. The governor who was objectionable has been advised to resign and has gone to the capital.The *Herald's* Washington special says, it is almost certain that six republican senators will vote conservatively on questions involving the President's right in the impeachment trial, and many concede that the same number will fail the party at the final issue. With but one important amendment, the treaty with the German confederation relative to naturalized citizens, will be conferred.The *Tribune's* Washington special says the House impeachment managers are marshalling their witnesses, preparing their testimony, and shaping their action so that the trial may be entirely over by the first of May.The *World's* Washington special says: Mr. Stanbery has concluded to resign his position as Attorney General, in order to take part as counsel for the President on the impeachment trial, and has presented his resignation, which Mr. Justice of the Supreme Court will decide.

The Reconstruction Act unconstitutional, the Radicals are making an effort to induce Grant to issue an order changing the time for holding the next election. There is official authority for denying the fact that the President has induced Gen. Thomas to send up a new War Department. There is a mere place of guess work, originating in an irresponsible evening paper of this city, habitually given to sensationalism.

NEW YORK, March 12.—Both Stock Exchange and Open Board to-day decided by formal vote to receive any Erie draft from March 7th. This is done to prevent Daniel Drew from using any new stock. It is rumored that he issued a large amount without authority.

The *Financial* article says: The loan market is active; documents improved; Railways quiet; Exchange steady.

The steamer "Ward" took out \$273,045 in specie.

COMMERCIAL.

Gold News.

Mr. J. R. Vantassel, of Stirling, has just shown us a certificate from Dr. Oway, of an assay made by him yesterday of a small quantity of ore obtained from lot 27 in the 10th concession of Tudor, from a mine at the depth of 14 feet. The yield was very handsome, being at the rate of \$6 per ton of gold and \$67 per ton of silver.

The Impeachment Question.

To-morrow, the 13th of March, President Johnson has been summoned to appear before the Senate, "then and there to answer to the articles of impeachment; and then and there to abide by, obey, and perform such orders, directions and judgments as the Senate of the United States shall make in the premises, according to the Constitution and laws of the United States."

A writer in the *Washington National Intelligencer* is of opinion that Macaulay, after all, is mainly responsible for the whole impeachment business. His magnificent description of the arraignment and trial of Warren Hastings has fascinated and fired the souls of a good many of their prominent public men, who think they have a fair chance of having their names immortalized in connection with a similar proceeding there. There are several things lacking, however, to such a consummation. They have neither the same actors, nor the same criminal; and also lack the historical. This impeachment is more likely to be a caricature than a copy of that. The immortality of a caricature is not always to be coveted.

Crime in Belleville.

The Chief of Police submitted his annual report of crime in Belleville to the Council, at its last meeting yesterday evening, and we submit a copy thereof. The tabular form accompanying it appears to have been compiled with much care, showing each offence monthly, but our space only permits us to give the following abstract. Under all the circumstances of want of employment, an unusually severe winter and a constant floating population, it is a matter of congratulation that crime is steadily on the decrease, and that we can compare favorably with any other town of similar extent in the Dominion.

ABSTRACT OF OFFENCES.

Burglary.....	8	Decrease.....	3
Larcenies.....	16	Decrease.....	5
Aggravated assaults.....	138	Decrease.....	38
Common assaults.....	8	Decrease.....	2

Damage to sheep.....	2	Decrease.....	2
Breach of Militia Act.....	13	Decrease.....	2
Other offences.....	13	Decrease.....	2

Making a total of 420 offences, of which 9 were sent to trial, 161 dismissed and 250 convicted.

BELLEVILLE POLICE OFFICE,

10th March 1887.

SIR,—I have the honor to submit, for the information of His Worship the Mayor and Town Council of Belleville, the annual report of crime for 1887.

It varies in a few instances from the reports which I have had the honor to submit in former years, and although an increase of 38 cases of assault is exhibited, the total number is not deemed a criterion of an advance in that particular offence, the greater number being of a very trivial nature, and the same number being dismissed by the Police Magistrate.

Three cases of burglary form a marked exception, but even in this instance the increased case was from the rural district, and the other two were rendered amenable and committed for trial. During the year 1887 there were 138 persons arrested by the police, both with and without warrants, of which number 71 males could read and write, and 1 female. The following were as follows: 10 Canadian, 9 English, 5 Scotch, 1 from the United States, 1 Dutchman and 1 Frenchman.

Since my last annual report a Police Station has been erected, in connection with the Fire Department, but the police have not yet occupied it. I would respectfully suggest that the rooms be fitted up for occupation as early as practicable.

The necessity of two additional men for a night watch is becoming more urgent, and it is respectfully submitted that it is necessary. This, if adopted, would be found very beneficial to the public, and the Chief of Police would be enabled to perform the ordinary duties of a constable, and cannot, therefore, give his attention to his most important functions, which would be considerably increased by the appointment of two additional men.

I respectfully submit these suggestions, and have the honor to subscribe myself,

Your very obedient servant,

GEO. JAMES, Chief of Police.

Port of Belleville.

The following is a comparative statement of the Imports and Exports for the port of Belleville for the years 1886 and 1887:

Imports	Exports
The Imports in 1886 were \$118,816; Duties collected, \$13,739.72.	In 1887 the Imports were \$150,470; Duties collected, \$15,860.39.

1886.....	\$258,017
1887.....	499,023

—Prince Alfred during his visit to Australia, late the shipstone of a Methodist college named after himself.

up the County Buildings and Registry Office payable by the Town of Belleville.—Carried.

The Warden suggested that Dr. Boulter should explain the new law respecting Agricultural Societies in the Electoral Divisions of the Province.

Dr. Boulter explained that the Act provided for the establishment of Agricultural Societies in the Electoral Divisions, and that the Government would grant the sum of \$700 to each society so established, according to the provisions of said Act.

Mr. Farley thought it would only be necessary to organize a new society in the East Riding of Hastings.

Dr. Boulter said, as the divisions in this County had been changed it would be necessary to establish new Agricultural Societies in all the Electoral Divisions to secure the grant of \$700.

Mr. Flint agreed with Dr. Boulter.

The Warden named Messrs. Farley, Desay, Rose, Armstrong and Ward as a Committee to report what amount should be granted to J. Bartlett, Esq., Police Magistrate, for deciding County cases, said Committee to report to-morrow.

Council adjourned till Thursday at 10 o'clock.

Daily Intelligencer.

BELLEVILLE, WEDNESDAY, MARCH 11.

MILITARY SCHOOL.—We are pleased to observe that at the late examination at Kingston, among the Cadets we obtained a second-class certificate, is the name of Mr. Chas. Anderson, of Melrose.

SHOW SHOWS.—The lovers of this interesting and exciting sport will remember that the new show races, take place to-morrow on the race course, commencing at 12 o'clock noon. Entries may be made to-night with the Secretary. For particulars see advertisement.

LACROSSE WALTERS.—We have received from the composer a copy of the sheet music for the Lacrosse Walters, by Mr. E. G. B. Crozier. They are now on sale at the different book stores in the town. They are very highly spoken of in musical circles, and we have no doubt the edition will be rapidly taken up.

BANK RETURN.—The Montreal *Gazette*, referring to the Bank returns in the last *Canada Gazette*, says:—"The statement of the Merchants' Bank presents the most interesting features in this week's *Gazette*. This Bank has for some months steadily pursued the policy of concentrating its resources for the one purpose of assuming the debts of the late Commercial Bank without regard to itself, and its Coin, Bullion and Legal Tenders now amount to the enormous sum of \$849,517. This, moreover, is the average of the four weeks of the month, and we should not be surprised to hear that the amount on hand of gold and notes, including bills of other banks at time of its assuming the Commercial liabilities, was \$1,000,000, or say one-tenth of the total held by all the Banks."

Business Notice.

ENTERTAINMENT THIS EVENING.—Mr. Robt. Nickle, "The World's Prestidigitator," gives his first representation of necromantic Eastern Illusions to-night, and in looking over the programme for the evening we pronounce it a very novel, chaste and pleasing entertainment.

We were somewhat surprised in having a description of some of the tricks performed by Mr. Nickle given to us. His trick of the universal brewery in a hat borrowed from the audience excels really the most credulous trick imaginable. While standing before the audience, and almost in their midst, Mr. Nickle will produce large glasses full of foaming beer, one after another, without the slightest hesitation as to the number. This is most marvelous, and the more so being his own invention. Mr. Nickle has been known to perform this trick over two years, night after night, since he first invented it, and as yet, whether from want of self-confidence, or that the principle has not been detected, no other magician to this day has ever dared to attempt. We feel pleasure in introducing Mr. Nickle in his profession to our citizens, as we believe that they will consider him fully entitled to the title of "The World's Prestidigitator." We say, a full house for the Belleville. The Band will be in attendance.

—Mr. Van Norman, Bookseller, has sent us a copy of Mr. Crozier's Lacrosse Walters, which have been so highly admired in musical circles.

—A telegram from Bradford says the Cockatrice Flat is entirely submerged in water and floating ice. Parties living there were removed to town yesterday in boats.

—Mr. Alexander Somerville, the "Whistler at the Plough," intends proceeding to England shortly, with the design of publishing a book on Canada, calculated to influence emigration.

answer, and he moved, seconded by Mr. Finlay, That the Warden and Mr. Cummings be the deputation, which was carried.

Mr. Flint moved, seconded by Mr. Appleby, That Mr. T. Farnham be appointed Foreman of the County Grand Jurors in accordance with the By-Law, at a salary of \$300 per annum.

Mr. Gabourie moved, seconded by Mr. Stokes, That Mr. John Francis be appointed Foreman at a salary of \$400 a year.

Mr. Armstrong moved in amendment to Mr. Flint's motion, seconded by Mr. Rowe, That Mr. Farnham be appointed at a salary of \$400 a year.

The first motion, being the highest sum, was put and lost. Mr. Armstrong's amendment was then put and carried.

Mr. Gabourie's motion was then altered, appointing Mr. Francis, should the committee decide upon employing a second Foreman, at the rate of \$400 a year when employed, and in this shape it was adopted and carried.

The Council adjourned until two o'clock.

AFTERNOON SESSION.

WEDNESDAY, March 11, 2 p.m.

Council met at two o'clock, pursuant to adjournment.

The Warden called the attention of the Council to the matter of the sum to be paid by the County to the Police Magistrate of Belleville, for trying cases sent in from the County.

Moved by Mr. Emu, seconded by Mr. Finlay, That W. Morton, Esq., Treasurer of the Township of Huntingdon, be sub-Treasurer of school moneys for that Township.

Mr. Daly explained that the Council had already a By-Law providing that sub-Treasurers should be sub-Treasurers of school moneys.

The By-Law in question was read by the Clerk.

The motion was passed.

The Committee of the Whole on Roads and Bridges resumed.

The Council resumed. The Committee on Roads and Bridges rose and reported. The report was received and adopted.

The Committee of the Whole on Ways and Means resumed.

Moved by Mr. Armstrong, seconded by Mr. Rowe, That the Council do grant the sum of \$2,000 to aid the erection of a bridge over the River Trent at Chisholm's Rapids.

Moved in amendment by Mr. Appleby, seconded by Mr. Anderson, That the sum of \$1,900 be granted to the Township of Sidney for the building of a bridge at Chisholm's Rapids, according to a plan and specification by the County Surveyor, said sum to be payable at one, two and three years, provided that the bridge be built to the satisfaction of the County Surveyor, and sufficient approaches to be made to the same.

Mr. Wood thought \$2,000 too much and \$1,900 too little, but was ready to support a motion for \$1,650.

Mr. Ward thought there was no necessity for such a bridge, and would rather propose to make a good road from the Rapids to the Frankford and Stirling road.

Mr. Walker thought the proposed bridge would benefit the inhabitants of the west side of Rawdon.

Mr. Hamilton thought it of no moment whether the people of Rawdon or Marmora wanted the bridge or not, if it was wanted for the general benefit of the County.

Mr. Wood moved, seconded by Mr. Clapp, That the sum of \$1,900 be granted, on condition that the bridge be a good and sufficient one and completed within one year from the 1st December next, and that the road from Frankford to Chisholm's Rapids be put in sufficient repair.

In proposing the grant of \$1,650, Mr. Wood stated that if the above sum were found insufficient, the representatives of Sidney could return to the Council for an additional grant, when he had no doubt they would be liberally dealt with.

The motions of Messrs. Armstrong and Ward were then withdrawn, and Mr. Wood's motion carried.

Mr. Daly moved, seconded by Mr. Clapp, That the Council pay three-fifths of the expense of putting the bridge at Ross, in the Township of Tyndinaga, in repair, the sum not to exceed \$500. This was withdrawn, and

Mr. Clapp moved, seconded by Mr. Daly, That the sum of \$300 be granted to the Township of Thurlow, to aid in the repairing of Ross' Bridge over the Moira. Carried.

A regulation was presented from the Clerk of the County Court for a Record Book for the judgments of the Court, which was laid on the table, and the motion as to the liability of the County to furnish books and stationery for the use of the officers of the Courts.

Mr. Appleby moved, seconded by Mr. Desay, That the sum of \$400 be granted to the Township of Tyndinaga to aid in the re-erection of the bridges over Sucker Creek and Mud Creek, on the old York Road. Carried.

The sum of \$125 per annum was granted to the County Grammar School at Belleville, on condition that children from the County be admitted to said school free of charge.

Committee rose, reported progress, and asked leave to sit again.—Granted.

Mr. Appleby called attention to the matter of the arbitration between the County and the Town of Belleville, respecting the proportion to be paid by each towards the expenses of the Registry Office.

Moved by Mr. Flint, seconded by Mr. Emu, That Mr. Appleby, Dr. Boulter and the Warden be a Committee to ascertain the proportion of the expense of keeping

R. P. DAVY, AGENT.

DIED.
On Thursday morning at 11th inst., Mr. ROBERT WALLACE, in the 49th year of his age.
[The funeral will take place from the family residence, Bridge Street, to-morrow (Friday) afternoon at four o'clock.]

ALLEN'S LUNG BALSAM
Is warranted to break up the most stubborn Cough, in an incredible short time. There is no remedy that can show more evidence of its merits than this BAL-SAM, for curing Croup, Whooping Cough, Asthma, Bronchitis, etc.

Physicians having Coughing patients, and having failed to cure them by any other means, should not hesitate to prescribe this remedy, it has cured cases when all other remedies have failed.
Consumptives do not despair because all the remedies that you have tried have failed, BUT TRY THIS GREAT REMEDY.
Sold by all Medicine Dealers.
Perry Davis & Son, Montreal agents for the Dominion of Canada.
2-4w. 371-4w.

R. R. R.
The high prices exacted from people in all parts of the world that have derived benefit from the use of Dr. RAY'S REMEDY, prove their value to mankind. There is no pain or severe no disease so malignant as is the destruction of life, but that the RAY'S REMEDY will stop the pain and arrest its progress. Every one has heard of it, it is not tried. Let those who have not used it, if they are afflicted with a cough, or any other ailment, try it. It will stop the cough, and give you the power of stopping pain. Read the following letter. Any person who writes to the RAY'S REMEDY, will receive a free trial of the RAY'S REMEDY. For every word not true we will pay One Hundred Dollars.
See Dr. RAY'S REMEDY for full particulars.
Pneumonia, Spitting of Blood, Difficult Breathing, Croup, Whooping Cough, etc.
Wonderful Cures of the RAY'S REMEDY.
Rio de Janeiro, June 10th 1906.
Messrs. RAYMOND & Co.,
GENTLEMEN—It is now eight years that I have suffered from Pneumonia, and have had the best advice, but could not be cured. I was in the hospital 100 days and all that time I spat blood and mucus, but seeing that I would not get any better, I made up my mind and left the hospital. And, fortunately, I was met by a friend, who recommended Dr. RAY'S REMEDY.
After taking the first dose of Relief and water, I could breathe with ease, and I had my mind diminished. I continued taking two of RAY'S PILLS every night, and half a teaspoonful of Relief and water, and soon feeling my chest and throat with it, and, thank God, I feel myself perfectly well. I only took ten bottles of Relief and water, and I have been able to do my work and my preparations may have a long and prosperous life.
I am, Sir, your obedient servant,
JESSE D. MARSH,
170 Francis Street.

C. E. Rankin,
CIVIL ENGINEER, Professional Land Surveyor, and Commissioner in the Queen's Bench. Will and other lands examined and valued. Bridgewater, Ontario.

PROVINCIAL LAND SURVEYOR, Civil Engineer and Draftsman.
Office—Over Overall's Book Store, Belleville.

A CARD.
R. P. DAVY, ESQ.,
Agent "Etna Insurance Company," of Hartford, Conn.

DEAR SIR,—I beg to acknowledge with thanks, the receipt of \$1,100 in full, of my claim for loss by fire, on the morning of the 25th Jan., on my premises on East Front Street. The promptitude with which the claim was settled, without abatement, simply upon filing with the Company the affidavits and statement of loss, will tend to establish further the reputation which the "Etna" now holds for liberal and immediate adjustment of all claims against them.

Yours truly,
JAMES GRANT.
Belleville, March 11, 1898.

PROSPECTUS

OF THE MOIRA GOLD MINING COMPANY.

Capital Stock, \$100,000. Divided into 10,000 Shares.

WORKING CAPITAL, \$15,000.

HORACE YEOMANS, Esq., President. ANDREW THOMSON, Esq., Treasurer.
B. S. GILBERT, Esq., Secretary. J. G. SHURTZ, Esq., Superintendent.

MERCHANTS BANK, BANKERS. DEAN & GILBERT, SOLICITORS.

DIRECTORS:

HORACE YEOMANS, of Flint & Yeomans, Belleville.
ANDREW THOMSON, Banker, Belleville.
W. W. DEAN, Master in Chancery, Belleville.

JOHN G. SHURTZ, Superintendent.
JAMES SPEER, M.D., Belleville.
JAMES W. CARMAN, American, Consul, Belleville.

BARTON S. GILBERT, of Dean & Gilbert, Barristers, Belleville.

THIS COMPANY is duly incorporated under Cap. 23, Consolidated Statutes of Canada,
for the purpose of working the mineral veins upon sixteen acres of Lot No. 19, in
the fifth concession of Madoc, (the Richardson Mine being No. 18 in the same concession.)

A shaft has been sunk to the depth of nine feet in the rock. At six feet a gold-bearing
lode was struck, of 18 inches in width, which at nine feet has increased to 24 feet, and
a crushing at Gilbert & Turley's mill of four and one-half tons of the rock, gave a yield of
over fifty six dollars in gold; the lode is clearly defined, and evidently extends the
whole length of the property—32 rods.

The territory is admirably situated for mining purposes, being a high ridge covered
with indications of mineral veins. There are numerous places on the land fully as
promising as the one on which the shaft has been sunk; and which would unquestionably
yield well. The large quantity of land, and the prospects of other gold-bearing veins,
make it certain that the Company will be able to subdivide the property as soon as a
further development has been made, and form other Companies at great advantage.

Work is being vigorously prosecuted in the shaft, under the superintendence of JOHN G.
SHURTZ, Esq., one of the Directors, who is largely interested in the property of the
mine, and who has had thirteen years' practical experience in the gold mines of California
and Nevada, and is unquestionably the most accomplished quartz miner now in this country.

It is intended to have a further crushing in a few days, and negotiations are in progress
which, if carried out, will secure a mill to the Company at once, so that regular work
will be gone on with without delay, and dividends may, in that case, be expected in a
short time.

N. MANN begs to notify the public that
he has removed his Book Shop to
the Dufour House Building, where he hopes
to see all his old customers, and as many
new, who will favor him with their patronage.

Belleville, Dec. 27, 1897.

ORANGE CERTIFICATES
FOR SALE at the INTELLIGENCER Office
Intelligencer Buildings, Front Street
Belleville.

CAUTION.

THE perfection and cheapness of the AMERICAN
WATCH have given it such a wide
celebrity that unscrupulous dealers, to
simulate its style and printed its trade marks, irrepro-
achable dealers are consequently deceived, and the public
upon the popularity of the American Watch, by selling
a base imitation under the name of the genuine article.
It is hardly necessary to state that such watches are
worthless as time-keepers, and that the genuine article
is calculated to insure the high reputation which our
watches have attained. The number of the watch, and the
Home Watch Co.—are guaranteed by special certificate,
bearing the number of the watch and the name of the
Treasurer of the Company, R. E. HODGINS.

The purchaser should always require one of these
certificates, which is furnished to all dealers in the
watches.

The following are the trade marks on the several
grades of our manufacture:

PROSPECTUS OF THE MOIRA GOLD MINING COMPANY.

Capital Stock, \$100,000. Divided into 10,000 Shares.
WORKING CAPITAL, \$15,000.

HORACE YEOMANS, Esq., PRESIDENT. ANDREW THOMSON, Esq., TREASURER.
B. S. GILBERT, Esq., SECRETARY. J. G. SHURTZ, Esq., SUPERINTENDENT.
MERCHANTS' BANK, BANKERS. DEAN & GILBERT, SOLICITORS.

DIRECTORS:
HORACE YEOMANS, of Flint & Yeomans, Belleville.
ANDREW THOMSON, Banker, Belleville.
W. W. DEAN, Master in Chancery, Belleville.
JOHN G. SHURTZ, Superintendent, Belleville.
JAMES LISTER, M.D., Belleville.
JAMES W. CALMAN, American Consul, Belleville.
BARTON S. GILBERT, of Dean & Gilbert, Barristers, Belleville.

THIS COMPANY is duly incorporated under Act 23, Consolidated Statutes of Canada,
for the purpose of working the mineral veins upon sections of Lot No. 19, in
the fifth concession of Madoc, (the Richardson Mine being No. 18 in the same concession).
A shaft has been sunk to the depth of nine feet in the lot. At six feet a gold-bearing
lode was struck, of 18 inches in width, which at nine feet has increased to 24 feet, and
crushing at Gilbert & Turley's mill of four and one-half tons of the rock, gave a yield
of over six dollars in gold; the lode is clearly defined, and evidently extends
the whole length of the property—52 rods.

The territory is admirably situated for mining purposes, being a high ridge covered
with indications of mineral veins. There are numerous places on the land fully as
promising as the one on which the shaft has been sunk, and which would unquestionably
yield as well. The large quantity of land, and the prospects of other gold-bearing veins,
make it certain that the Company will be able to subdivide the property as soon as a
little further development has been made, and offer other Company at great advantage.

Work is being vigorously prosecuted in the shaft, under the superintendence of JOHN G.
SHURTZ, Esq., one of the Directors, who is largely interested in the proprietary of the
mine, and who has had thirteen years' practical experience in the gold mines of California
and Nevada, and is a unquestionably the most accomplished and successful miner now in this country.

It is intended to have a further crushing in a few days, and negotiations are in progress
which, if carried out, will secure a mailing to the Company at once, so that regular work
will be gone on without delay, and dividends may, in that case, be expected in a
short time.

May 1. Dissolution of Partnership.
THE PARTNERSHIP heretofore existing
between Messrs. WALLACE & FOR-
DYCE as Photographers, in the Town of
Belleville, is this day dissolved by mutual
consent.
(Signed.) D. J. WALLACE.
Belleville, December 4th, 1897.

THE undersigned having purchased Mr.
Fordyce's interest in the Gallery, will
hereafter conduct the business on his own
account. His long experience and thorough
knowledge of the business will enable him to
satisfy all who give him a call.
ROOMS—Over Graham and Granger's
Store.
ENTRANCE—Two doors South of Hol-
day's Drug Store.
Belleville, Dec. 4th, 1897. 185-TB8T

REMOVAL.

N. MANN begs to notify the public that
he has removed his Barber Shop to
the Dufosse House Building, where he hopes
to see all his old customers, and as many
more, who will favor him with their patron-
age.
Belleville, Dec. 27, 1897.

ORANGE CERTIFICATES FOR SALE AT THE INTELLIGENCER OFFICE

Intelligencer, Buildings, Front Street
Belleville.

THE London Quarterly Review (Conser-
vative).

Montreal Times.	

Daily Intelligencer.

BELLEVILLE, SATURDAY, MARCH 14.

NEW SENATOR.—Mr. Benson, member of the Commons for Lincoln, has been appointed Senator to fill the place of the late Hon. Mr. Blair. A new election will have to take place for Lincoln.

REWARD.—It will be observed by our advertising columns that the Town Council have at length offered a reward of \$250 for the apprehension and conviction of the murderers of Sullivan. Though a long time has elapsed since the unfortunate murder occurred, it is to be hoped the reward offered will stimulate some efficient detective to ferret out the whereabouts of the murderers and bring them to justice.

FRENCH REMOVS.—The Morning Star of yesterday says: "One quiet village has been somewhat excited the other day by the report of a rumor which has obtained to the effect that preparations are at this moment being made for a raid across the border at some place near here, and that very shortly. The intelligence seems to have been brought over by a thoroughly reliable person, in the opinion of the movement, and desired to place our people on their guard. We merely give it as a rumor to be taken for what it is worth."

FEARS OF A FRESHET.—Guided by the rather expensive lessons which the last two seasons have furnished, the merchants on the west side of Front Street are making preparations for a spring freshet. Yesterday and today a number have removed their goods from cellars to the upper stories, a precaution which the threatening state of the river seems to justify. Below Coleman's dam the ice has given way, portions of which have floated down with the current which runs over twice, but the greater bulk forming a jam at the lower end of the island, and which is gradually increasing its proportions. The ice at the mouth of the river being still firm and in many places frozen to the bottom, should it give way above the upper dam and come down with a rush, a serious freshet must be the consequence, and great damage to property follow. We understand that this gives way and only it will greatly increase the danger of a serious flood.

HAND ON BUTLER.—A Washington correspondent is responsible for the following: "Butler went to hear Dickens in Washington, talking in late and making himself as prominent as possible. The selection was Bob Sawyer's party, which is very funny, and the laughing was, at times, immoderate. There was a point, however, at which the laugh became very much like a vulgar roar, and it wasn't the funniest part of the reading by any means. Mr. Dickens felt a little confused, for a man of his fine perceptions knows exactly where the fun comes in, and we all know there is such a thing as a laugh at the expense of an actor, which is always more vivid than that provoked by the play. Mr. Dickens evidently thought he had blundered. But he hadn't. He had simply read the colloquy between Hopkins and Noddy, which closes: 'Sir, a friend of mine shall wait on you in the morning.' 'Sir, I am very much obliged to you for the caution; and I'll have particular directions with the servant to look up the spoons!'"

An air line railway, from New York to New Orleans, is in rapid process of completion. It is 170 miles shorter than any existing route.

The snow has melted so rapidly in Quebec, that the tops of the fences can be seen along the country roads.

The Legislature of Prince Edward Island opened on the 4th inst. No mention is made of confederation in the Governor's speech.

A petition signed by some 400 inhabitants of Carleton and Victoria counties, N. B., has been forwarded to the Privy Council at Ottawa, against the adoption of the Northern route of the Intercolonial Railroad.

The Huronian Society, of Toronto, advertises a procession on the 17th. This is the society of which Mr. Murphy was President, and which sends representatives to the Fenian Congress in the United States.

Public Morals.

At its late session the County Council amended the By-law for the preservation of public morals in a very important particular. The amendment consists briefly, in making it unlawful for any person to give or sell intoxicating liquor to any child or servant under the age of 16 years. It will strike every observing person as a very wise, as well as a very important regulation, and it is earnestly to be hoped that it will be rigidly enforced. The evil attempted to be remedied is one of the most frightful, as well as one of the most wide-spread, that exists, and it is not at all creditable to our civilization or our Christianity, that men will be found so lost to shame as to give or sell strong drink to children. Men who are licensed to sell liquor are supposed to be of good moral habits; indeed the law provides that they should possess this virtue before they are entitled to a license, but unfortunately for public morality, the habits of many of these publicans are not such as to make it safe to entrust them with the disposition of so destructive an agent as intoxicating drink. They exhibit neither prudence nor regard for public morality in the traffic in which they are engaged. They sell to the boy of twelve years as readily as to the toper of sixty, and make no difference whether the applicant for a glass of whisky has already had more than he can carry, or is perfectly sober. They do not read the lesson which the bleared eye, the bloated face, the unsteady hand, and staggering form teaches, or if they do they do not permit themselves to be influenced by it. They do not read that other lesson which the home of the drunkard teaches, or if they do they banish it once with the comforting sentiment, "Am I my Brother's keeper?" Nor that other lesson which is taught every day upon the street by half-famished, ragged children, whose bread has been taken and converted into poison. Of course there are many exceptions to the class alluded to. There are many respectable, high-minded licensed innkeepers, who conform strictly to the moral as well as the civil law, who could not be purchased to give or sell liquor to children or drunkards. But unfortunately for public morality, there are many of the class we have pictured, licensed as well as unlicensed, who openly and flagrantly violate all law human and divine, and in order to restrain them from corrupting and destroying the morals of our youth, it is necessary to make stringent laws. The clause referred to in the County By-law is none too stringent, and it is to be hoped it will not, like too many of our laws, remain a dead letter, but be promptly and rigidly enforced.

Stock Market.

The Montreal Gazette of yesterday has the following report of the Stock Market:

Bank of Montreal—Has ruled heavy through the week, with limited sales at 129½ and 129½.

Bank of British North America—Holders ask 104½, while buyers will not advance on 104.

City Bank—Is firm and in demand at 109. No stock offering.

Molson's Bank—Is asked for at 111½ to 111½. The transfer books close on the 31st for payment of a dividend of four per cent.

Merchants' Bank of Canada—Has slightly advanced, closing firm with buyers at 108½ to 108½.

Mechanics' Bank—Is without change. La Banque du Peuple—Has advanced to 106½, at which there are buyers but no sellers. La Bank Jacques Cartier—Holders are to-day firm at 107½ to 109, buyers only offering 106 to 106½.

Quebec Bank—Sellers at 99½, and buyers at 99½.

La Banque Nationale—Quotations nominal. Neither sellers nor buyers in this market.

Union Bank of Lower Canada—There has been an improved demand for this stock. 109½ to 109½ would now be paid; sellers ask 104.

Eastern Townships Bank—Is offered at 99½, by buyers at 98.

Ontario Bank—The transactions have been small, but the rates show a considerable advance on last week's quotations. There are to-day buyers at 98, with no sellers under 99 to 99½.

Bank of Toronto—Is inquired for at 109½ to 110, with sellers to a considerable extent at 110½ to 111.

Gore Bank—Continues heavy and is offered at 89 to 91.

Royal Canadian Bank—Has declined two to three per cent, closing dull at 88 to 90.

Canadian Bank of Commerce—Is inquired for at 99 to 100, with sellers at 100½ to 101.

Montreal Telegraph Company—Is without change; buyers at 131 and sellers at 132.

Canadian Navigation Co.—Considerable sales during the week at 107, at which price the stock is still procurable.

Richelle Navigation Co.—Has been sold to some extent at 100.

Railway Stocks and Bonds—Nothing doing. Canada Debentures—Large amounts of Currency Sixes have been placed at par. Currency Fives are asked for at 87. None offered. Sterling Fives are procurable at 87½.

Mortgages—Continue to be inquired for at 7 to 7½.

Exchange—Dull and lower, closing at 98 to 100 for Bankers' Bills.

Money—Is in good demand, and 10 to 14 is paid on the street for good paper.

DOMINION PARLIAMENT.

FROM OUR OWN CORRESPONDENT.

OTTAWA, March 13th, 1868.

The House met to-day. A few returns were laid before the House, and notice of a number of Bills was given by the Hon. John A. McDonald, Hon. John Rose, and Hon. G. E. Cartier, when the House adjourned until Monday at 3 o'clock, p. m.

In the Senate the question of Retrenchment has been agitating the Senators, and a fair beginning was made during the first part of the session. A report made by which a large sum would be saved if adopted, was laid over until this part of the session, and now an attempt to be made to defeat it, by a Ronge, one of the party who is constantly finding fault with extravagance and the venality of public men, but no sooner is an attempt made to retrench, than one of them objects, and proposes to defeat the report by proposing the following resolution: "That under present circumstances it is not advisable to recommend any material interference with the Officers and Servants who have been in possession of their respective Offices as Officers and Servants of this House since the first of July last until the present day, but that in the event of vacancies occurring in future, the following scale of reductions in the salaries be acted upon and followed in each case:—

	Present Salaries.	Proposed Reduction.
Clerk of the House, Master in Chancery, Councillor and Assessor.	\$2,400	\$2,400
Deputy Clerk, Clerk Assistant, Assistant Master in Chancery and Chief French Interpreter.	2,000	2,000
Deputy Clerk, Master in Chancery, and Chief English Interpreter.	3,600	2,000
Additional Clerk's Assistant, Additional French Translator, or Additional English Translator, Orders and Clerk of Private Bills.	1,800	1,600
Additional Clerk's Assistant, Second Office Clerk.	1,800	1,600
Clerk of the English Journals, Clerk of the French Journals.	1,400	1,300
In 1864, \$1,300.	1,300	1,200
Clerk of Committees and French Translator.	1,400	1,400
Additional French Translator, Assistant Accountant.	1,300	1,200
English Writing Clerk.	600	600
Chaplain and Librarian, not disturbing present incumbent as Chaplain and Librarian.	500	500
Law Clerk acting as English Translator and Chief Office Clerk.	2,800	2,000
gentleman Usher of the Black Rod.	1,350	1,000
Door Keeper.	600	400
Chief Messenger.	1,150	800
House Keeper and Chief Clerk, in 1864, \$700.	800	700
Permanent messengers.	700	500
Seasonal messengers.	350	300

To be understood as the maximum of salaries for future incumbents.

The proposition of the Contingent Committee of the Senate is to reduce the salaries at once, and dismiss a number who are not wanted; in short to get rid of the surplus of all kinds of employees who hang about, and do nothing. After looking over the list and the salaries paid, you will agree with me that there is plenty of room for improvement in the Senate, and it is a mistake, not in the Commons also.

There are various rumors as to the gentleman who is to be selected to fill the vacancy in the Senate caused by the death of the Hon. Ferguson Blair. Some say it is to be the Hon. Mr. Benson, others Mr. Cowan, while others say Mr. Murphy, formerly in the Inland Revenue Department. My own impression is that the mantle will fall upon Mr. Benson.

It is stated that we are to have further Legislation upon the worst question, but of what character, it is difficult to say.

Weather here dull, and a drizzling rain all day.

Editorial Summary.

The French market in New Orleans is leased by the city for \$50,000 per annum to contractors, who sub-let the stalls.

Weston, the pedestrian, lately passed through Cleveland in disguise to avoid distasteful attention. Such are the misfortunes of greatness.

The earnings of twelve railroads entering Chicago are estimated by the Tribune at \$49,000,000.

Five more distilleries were seized in New York on Saturday last by the Revenue Inspector, for defrauding the Government.

The Prescott Telegraph says that Mr. John Cook, of the 7th concession of Edwardsburgh, lately killed two men in his neighborhood, one of which was a very large and fierce.

Mr. Notman, at Montreal, will marry Miss Galbraith, the young lady whom he seduced, and thus preclude her from appearing as a witness against him.

A bed of iron ore of excellent quality and of great extent has been discovered recently about five miles from Reading, Pa. A shaft has been sunk through a solid mass twenty-six feet in thickness.

The Trenton (Tenn.) Gazette contains the following "obituary": "Died, officially, at Nashville, Tennessee, without premonitory symptoms, the registrar of this county. Disease, too much honesty."

The Fenian societies of New York city are to have a grand procession on St. Patrick's day. The police authorities, warned by last year's experience, are taking precautions, and endeavoring to keep the process out of the crowded streets of the lower parts of the city.

The largest Sunday school building on the continent, is to be erected in Philadelphia. It belongs to the Bethany Mission School, and will accommodate 1,700 scholars.

This effort was commenced by a year ago in a tent, in one of the most destitute portions of the city.

BY ATLANTIC CABLE.

LONDON, March 14.—In the debate in the House of Commons, on Irish grievances last night, the O'Donoghue member for Tralee, said the disaffection among the Irish people was wide-spread, and reached all classes of society, paralyzing trade with the constant fear of its consequences. This charge and land question were leading causes of all the refusal of independence in legislation. Ireland was now voiceless and helpless, the first remedies to be applied should be to deprive the Irish grant establishment of its endowments and grant to tenants leases of not less than thirty years. John Bright said the tenants' proprietary rights of ownership in the soil could only make a people steadily loyal. He regarded the advancement of relief, the creation of a great Savings Bank and the sectarian university as all impracticable plans.

LONDON, March 14, 11:15 a. m.—Consols 90 Bonds 72; Erie 99½; C 89½.

LIVERPOOL, March 14, 11:15 a. m.—Cotton firmer, but prices the same. Breadstuffs quiet.

QUEENSTOWN, March 14, 11:15 a. m.—The steamship "Cuba," from New York, has arrived.

American Despatches.

WASHINGTON, March 13.—The Impachment Court reorganized to-day. After a long argument on both sides, the Court, by a majority of 40 to 10, refused to grant the forty days for preparation asked for by the President, and fixed the 23rd inst. as the date for the trial to commence. The Court adjourned until that time.

NEW YORK, March 14.—The Herald's Florida Yucatan, special has intelligence to the 6th inst. All political prisoners had been liberated, and a safe-conduct promised to those who were held away from their homes.

Gen. Alatorre had been recalled. He will be replaced by Samora.

The late unpopular Governor Cepeda abandons politics altogether.

A number of assassinations had taken place. Some duels had been fought between officers and young Yucatan.

The Indians of the South had defeated those of the East near Santa Cruz, where the insurance companies and have their headquarters.

The Herald's Havana special says there is a drought in Almayra. Several plantations have been burned.

There is some small-pox at Puerto Principe.

BOSTON, March 13.—A special agent of the Treasury Department went to Providence and seized 216 barrels of whiskey on which the Government tax had not been paid. It was offered for sale at less than \$2 per gallon.

NEW YORK, March 14.—Warrants issued yesterday for the arrest of the Erie Railway Directors were placed in the hands of city detectives, who immediately proceeded to the several Jersey City and Hoboken ferry houses to intercept them if they attempted to escape the jurisdiction of the New York Courts. While they were watching, however, it was known to a few that two of the most prominent Directors were at a hotel in this city, arranging their private affairs. These gentlemen were subsequently found at Taylor's Hotel, Jersey City, after a perilous voyage across the North river in a row boat, in the midst of a dense fog.

Messrs. Drew, Fish, Gould and other Directors of the road expressed the intention of remaining in Jersey City until the present difficulty is satisfactorily settled.

All the ready capital of the Company, amounting to about \$8,000,000, has safely been transferred to Jersey City.

The World's Washington special says the President has not yet determined as to who will form the addition to his council. That will be decided upon probably during the coming week.

Mr. Johnson has acknowledged the receipt of Gen. Hancock's request to be relieved, but no official answer has yet been issued. Gen. Thomas was not present at the Cabinet meeting this morning.

Brigham Young and his Seraglio.

Though there is an act of Congress against polygamy, and the United States equally married to him for the same offence of enforcing the laws, this wholesale statute continues to be disregarded there by those highest in social and ecclesiastical position. On the 31st ult., in Great Salt Lake City, Brigham Young was married for the thirty-first time, the happy bride being Miss Merivine Van Cott, a lady twenty-eight years of age, daughter of Elder Van Cott, and formerly, while a Gentile, the wife of Mr. John, from whom she was duly divorced so that she could remain her maiden name. She is now the thirty-first of the Mormon prophet's wives, not counting those who have been only sealed, or formally married to him for the sake of securing their salvation, since none but married women are admitted into the Mormon heaven. Of the previous thirty wives, the most recent was married to Brigham Young in the month of January, 1867, her name was Amelia Folom, and she emigrated to Utah from Council Bluffs, Iowa. She has since presided over her establishment, and sat in the first place in the temple and the theatre. Now she resigns this distinction to Miss Van Cott, and become lost in the general mass of the household. The prophet's thirty-first wedding festival was also marked by the marriage of his fourth daughter, Emily, to Elder Hiram B. Clawson, whose first wife is also Mr. Young's eldest daughter, Alice.

Flowers are the alphabet of angels scattered over hills and dales, and speaking what the tongue cannot express.

It is not until the flower has fallen off that the fruit begins to ripen. So in life it is when the flower is past, that the practical usefulness begins.

The nightingale was heard singing in Laprarie, Quebec, on Thursday last. Perhaps she was trying to keep the spirit of song from freezing.

Queen Victoria is reported to be an indefatigable knitter; and, therefore, all the English ladies learning to make their husbands stockings and their own.

The weather in Nova Scotia continues very cold, and so severe a winter has not been experienced for years. The latest advice says snow was falling heavily.

To be always intending to live a new life, but never to find time to do it, is as if a man should put off eating and drinking from one day to another, till he is starved or destroyed.

Brigham Young attended the theatre lately with six dozen of his daughters. Three or four dozen more are understood to have been on the stage. The rest of the family were kept at home to take their turn another time.

An American paper says that Mr. Disraeli rose from the humblest ranks of life. A great many people would think themselves fortunate if they could have as pleasant a "walk in life" as Mr. Disraeli's commencement.

The Union Act relieves the city of Halifax from a pledge of subscribing £100,000 to the Nova Scotia railways. This has now accumulated to over £200,000, the interest on which will be about \$50,000. The Express advises the Halifaxians to ponder before adding this sum to their annual taxation by repealing the Union.

It is certainly odd enough that Chief Justice Chase should now give as a reason for again postponing the trial of Jeff. Davis that he must first preside at the trial of Andrew Johnson. When Davis fell into the hands of justice, Johnson of all men in the country, seemed the best person to preside over the trial. Three years have passed away, and Johnson himself is denounced as a traitor and enemy of the country, and the trial of Davis is postponed in the name of the trial of Johnson, who may be prosecuted.

An "eloquent" orator, while pleading in a court in the County of N. B., in a matter of disputed value of a quantity of logs, made a brief digression to politics, and quoted the stanza commencing "The Harp that once through Tara's Halls," etc., said the substitution of New Brunswick for Tara would strongly portray the position of the former, and the condition of the Blueshirts to the ancient Hebrews when carried into captivity by the Babylonian kings.

Reports from the parts of Italy leave no doubt that that country is in great danger of the outbreak of civil war. The expelled princes, and in particular the ex-king of Naples has even reappointed himself King of the Two Sicilies. An extraordinary order for his reserve, has been heard to express his conviction that Napoleon has lost sympathy with Italian unity; and that there will soon be a war between Italy and France, and that this war will result in the re-establishment of the expelled princes and the union of the several Italian States into an Italian Confederation.

It is easy to say all manner of things, and thus get a reputation for earnestness; but genuine humor doesn't flow from a bitter fountain. It is gentle and genial, comes from a bright and loving spirit, and reflects itself in smiles to mirth and laughter. Less brilliant than wit, it is more agreeable. While this one offends by its severity, the other makes a man ashamed of his follies without exciting his resentment.

The Speaker of the Senate has had gorgeous refreshment rooms fitted up for the accommodation of himself and the Senators at Ottawa. Speaker Cockburn has also had some alterations made by which he gets one or two more rooms, and adds to his consequence and dignity. The panels of the new Library of House of Commons are being covered with cloth, with the anticipated effect of making members heard.

We were considerably amused the other evening, at three little girls playing among the sage brush in a "back yard." Two of them were "making believe" a "crazy house" a few yards distant from each other—neighbors, as it were. One of them says to the third little girl: "There now, Nellie, you go to Sarah's house, and stop a little while and talk and then you come back and tell me what she says about me, and then I'll talk about her; then you go and tell her all I say, and then we'll get mad and don't speak to each other, just as our mothers do, you know? O, that'll be such fun."

Cincinnati, by means of a well regulated system of charity, has given over eighty thousand and a half of cloth to the poor this winter.

Gen. Lord, Treasurer of the United States, has been attending the annual meetings of the Secretary of War, and the President transact all business pertaining to that department through him. They have not, however, done anything of importance yet.

SPECIAL NOTICES.

ALLEN'S LUNG BALSAM

It is warranted to break up the most troublesome Cough in an incredible short time. There is no remedy that can show more evidence of its merits than the BAL- SAM, for curing Consumption, Croup, Croup, Asthma, Croup, etc.

Physicians having Government patients, and having failed to cure them by their own prescriptions, should not hesitate to prescribe this remedy, it has cured cases when all other remedies have failed for us.

Consumptives do not despair because all the remedies they have tried have failed, BUT TRY THIS GREAT REMEDY.

Sold by all Medicine Dealers.

Very Davis & Son, Montreal Agents for the Dominion of Canada. 371-1/2

R. R. R.

The high prices exacted from people in all parts of the world that have derived benefit from the use of HADWAY'S BALM, is now eight years that I have suffered from Rheumatism, and have had the last day of my life in pain. I was in the hospital 100 days and at that time I lost blood and matter, but seeing that I could not get any relief from my mind and let it be. (And, fortunately, I was met by a friend, who recommended Dr. Hadway's Balm for Rheumatism.

After taking the first dose of Balm and water, I could breathe with ease, and the pain in my joints diminished. I continued using two of Hadway's Balm every day, and had a wonderful relief of Balm and water, and was rubbing my chest and throat with it, and the result I feel myself perfectly well. I only took ten bottles of Balm and water, and I feel that the authors of said preparations may have a long and prosperous life.

JOHN G. SHURTZ, Superintendent.

JAMES LISTER, M.D., Belleville.

JAMES W. CARMAN, Amosbury, Canada, Belleville.

BARTON S. GILBERT, of Dean & Gilbert, Barristers, Belleville.

THIS COMPANY is duly incorporated under Cap. 23, Consolidated Statutes of Canada.

For the purpose of working the mine and upon sections across of Lot No. 19, in the fifth concession of Madoc, (the Richardson Mine being No. 18 in the same concession.)

A shaft has been sunk to the depth of nine feet in the rock. At six feet a gold-bearing lode was struck, 15 inches in width, which at nine feet has increased to 22 feet, and a crushing of 240 lbs. of ore and one-half ton of the rock, gave a yield of over 250 dollars in gold; the lode is clearly defined, and evidently extends the whole length of the property—52 rods.

The territory is admirably situated for mining purposes, being a high ridge covered with indications of mineral veins. There are numerous places on the land fully as promising as the one on which the shaft has been sunk, and which would unquestionably yield as well. The large quantity of land, and the prospects of other gold-bearing veins, make it certain that the Company will be able to develop the property as soon as a little further development has been made, and form other Companies at great advantage.

Work is being vigorously prosecuted in the shaft, under the superintendence of JOHN G. SHURTZ, Esq., one of the Directors, who is largely interested in the proprietary of the mine, and who has had thirteen years' practical experience in the gold mines of California and Nevada, and is unquestionably the most accomplished quartz miner now in this country.

It is intended to have a further crushing in a few days, and negotiations are in progress which, if carried out, will secure a mill to the Company at once, so that regular work will be gone on with without delay, and dividends may, in that case, be expected in a short time.

Premiums for New Subscribers.

New Subscribers to any two of the above periodicals for 1898 will be entitled to receive, gratis, one of the four Reviews, or Blackwood

The Ejected Pills.

In a town in America, the board of select men who governed in local affairs was composed of Universalists or men who composed for the first happiness of all mankind, whether Christians or not, and a pious physician. They acted through the town in great harmony for the last meeting of the town, but at their last meeting it was determined to attack the religious doctor. After they had finished their transactions one of them said:

"Doctor, we have very happy in being associated with you the year past, and that the business of the town has been conducted in harmony, and to the satisfaction of our constituents. We have found you to be a man of good sense, extensive information, unbending integrity, and of the purest benevolence. It is astonishing to us that a man of your amiable character should believe in the doctrine of future punishment."

The doctor replied:

"Gentlemen, I should regret very much the forfeiture of the good opinion which your partiality has led you to entertain of me. Will you have the goodness to answer candidly a few questions? Do you believe in a future state?"

"You believe, do you?"

"All men to a state of perfect happiness?"

"Of this I have no doubt."

"Are you now happy?"

"We are not, we are far from it."

"How do men act when they are unhappy, and know that happiness is within their reach?"

"They endeavor to attain that happiness."

"Do you believe that I understand the nature and operation of medicine?"

"We have no doubt, doctor, of your skill in your profession; but what has that to do with the subject?"

"In this box," said the doctor, taking a tin box to his hand, "are pills, which, if you swallow each of you one, will, without pain, carry you to your own, out of this world of trouble; and, if your doctrine be true, place you in a world of perfect felicity. Will you accept one of them?"

"Will you?"

"No, sir."

"When they all refused, the doctor said: 'You must excuse me, gentlemen, from embracing your doctrine, which I have better evidence that you believe it yourselves.' This closed the debate.

Store-keepers!

Farmers! And Others!

SHOULD BUY THEIR TEAS FROM THE IMPORTER DIRECT.

The Montreal Tea Company,

6 Hospital Street, Montreal.
HAVE sent over One Thousand Packages to different parts of the country—and receive every day assurance that the Tea gives entire satisfaction.

Subjoined are a few of the numerous testimonials already received:

Montreal Tea Company, Quebec, January 7, 1887.
GENTLEMEN:—The chests of Tea forwarded some time since arrived in good order. The quality is pure and excellent, and prices are such as give me pleasure in buying the best quality of Tea to be had for my purse. I am pleased to acquire you as a general satisfaction. Your obedient servant, WILLIS RUSSELL.

REPORT OF SENATE, QUEBEC, Dec. 16, 1887.
Montreal Tea Company: GENTLEMEN:—The chests of English, Breakfast, and Young Hyson Teas which you sent me give great satisfaction. You may expect my future orders, I am, Sir, Yours respectfully, J. SKINNER.

Quebec, December 18, 1887.
Montreal Tea Company: GENTLEMEN:—The box of 30 lbs. English, Breakfast Tea, which you sent me, was of excellent quality and fully as good as we have ever received from you. Yours respectfully, J. ANDERSON.

Toronto, December 15, 1887.
Montreal Tea Company: GENTLEMEN:—The two chests of Tea I had from you some weeks since have given satisfaction. You have placed forward to me chests of Tea of the highest quality, and at a price, viz.: at 65 cents per lb. Yours, &c., JAMES EDGAR.

Quebec, December 12, 1887.
Montreal Tea Company: GENTLEMEN:—The Young Tea which you sent me gives great satisfaction. I forwarded part of the chest to a friend in Toronto, who informs me he considers it as good as the best tea sent for which he paid double the price. I send you a chest of Young Hyson at same price, viz.: at 65 cents per lb. Yours, &c., JOHN C. DAW.

Montreal Tea Company: GENTLEMEN:—The chests of Tea which you sent me are of excellent quality, especially the Young Hyson at 60 cents. Please send another box of 30 lbs. at same price, and oblige yours, &c.

The contributors to the "Medical Journal" have frequently declared that one half the nervous diseases are caused by drinking impure Tea. The Company have carefully selected and imported a supply of pure Tea that can be warranted pure and free from poisonous substances in 50, 25, 20, 15, and 12 lbs. boxes.

OF THE

MOIRA GOLD MINING COMPANY.

Capital Stock, \$100,000. Divided into 10,000 Shares.
WORKING CAPITAL, \$15,000.

HORACE YEOMANS, Esq., President. ANDREW THOMSON, Esq., Treasurer.
H. S. GILBERT, Esq., Secretary. J. G. SHURTZ, Esq., Superintendent.

MERCHANTS' BANK, BANKERS. DEAN & GILBERT, SOLICITORS.

DIRECTORS:
HORACE YEOMANS, of Flint & Yeomans, Belleville.
W.W. DEAN, Master in Chancery, Belleville.
JOHN G. SHURTZ, Superintendent.
JAMES LISTER, M.D., Belleville.
JAMES W. CARMAN, American Consul, Belleville.
BARTON S. GILBERT, of Dean & Gilbert, Barristers, Belleville.

THIS COMPANY is duly incorporated under Cap. 23, Consolidated Statutes of Canada, for the purpose of working the mineral veins upon sixteen acres of Lot No. 19, in the fifth concession of Madoc, (the Richardson Mine being No. 18 in the same concession). A shaft has been sunk to the depth of nine feet in the rock. At six feet a gold-bearing lode was struck of 18 inches width, which at nine feet has increased to 22 feet, and a crushing at Gilbert & Turner's mill of four and one-half tons of the rock, gave a yield of over five sixths of an ounce of gold; the lode is clearly defined, and evidently extends the whole length of the property—33 rods.

The territory is admirably situated for mining purposes, being a high ridge covered with indications of mineral veins. There are numerous places on the land fully as promising as the one on which the shaft has been sunk, and which would unquestionably yield as well. The large quantity of land, and the prospects of other gold-bearing veins, make it certain that the Company will be able to subdivide the property as soon as a little further development has been made, and form other Companies at great advantage. Work is being vigorously prosecuted in the shaft, under the superintendence of JOHN G. SHURTZ, Esq., one of the Directors, who is largely interested in the property, of California mine, and who has had thirteen years' practical experience in the gold mines of California and Nevada, and is unquestionably the most accomplished quartz miner now in this country. It is intended to have further crushing in a few days, and negotiations are in progress which, if carried out, will secure a mill to the Company at once, so that regular work will be going on with without delay, and dividends may, in that case, be expected in a short time.

QUEEN
INSURANCE COMPANY
CAPITAL, \$10,000,000.
FIRE AND LIFE.

LIFE DEPARTMENT.

The principles on which this Company is
founded contain all the elements required
to develop the benefits of Life Assurance, and
afford every facility to intending assureds.

One of the advantages secured by those who
insure their lives with this Company is that
the outside expenditure for the cost of settle-
ment is absolutely restricted by the Deed of Settle-
ment.

Ten per Cent. of the Net Life
Insurances. This most important restriction
shows that the interests of participating policy
holders are closely watched and carefully at-
tended to by the Company. Attention is es-
pecially called to this point, as the proportion
of premiums expended for Management is

Must Largest of Influence Profits
and Bonuses.

The next division of profits takes place in
1868, and all those who wish to participate in
the profits should insure at once.

GODEY'S LADY'S BOOK
For 1868.

THE CHEAPEST OF LADIES' MAGAZINES.
BECAUSE IT IS THE BEST.

THE friend of woman, the arbiter of fashion, the en-
courager and publisher of the best literature of the
day, the pattern from which all others copy.

READING MATTER.
In this there will be an improvement. The volume
for 1868 will be set up with new-fangled type, and of
a size that will enable us to give an additional quantity
of reading matter amounting to about twelve pages in each
number.

BEAUTIFUL STEEL PLATES.
Of these the Lady's Book contains fourteen each year,
and these will run through the year, and be published in
the country, each book of periodicals.

THE LITERATURE OF THE LADY'S BOOK.
MARION HARLAND,
Author of "Auntie," "Helen's Path," "Moss Side,"
&c., &c., &c.

who contributes to no other monthly publication, will
furnish a new novel for 1868, called "Pamela Row-
land's" that will run through the year, and be published in
the country, each book of periodicals.

OUR FASHION PLATES.
The original double illustrations will be continued
Month after month, and the only magazine in the coun-
try that gives these designs to the Lady's Book.

Worth Reading and Heeding.

The following piece of poetic prose, or prosaic poetry, rather odd, but contains a good proportion of wholesome advice and practical truth, worth the attention of him who by his trade would thrive:

"When trade grew slack and notes fell low, the merchant's face grew long and blue; his dreams were troubled through the night with shivers of his kindred's cry. At last his wife into him said: 'Rise up at once, get out of bed, and get your paper, ink and pen, and say these words unto all men!'

"My goods I wish to sell to you, and to your wives and daughters, to my prices they shall be so low, that each will buy before they say 'No!'

"He did as his wife advised, and in the paper advertised. Crowds came and bought of all he had, his notes were paid; his dreams were glad, and he will tell you to this day, how well did printer's ink repay."

"Held out this with knowing wink, how he was saved with printer's ink."

"The other in a place as tight, contented was the press to slight, And did not let the people know of what he had, or where to go."

"His drafts fell due and were not paid; a levy on his goods was made; the store was closed until the sale, and bankrupt now, without a cent, at leisure he can repent that he was foolish and unwise, and did not truly advertise."

"The Armstrong guns belonging to the field batteries in Abyssinia are dragged up the steep mountainous passes by men. Eight oxen are attached to each gun."

PEN AND INK SKETCH OF NEW YORK.—A rural editor, having visited the metropolis, lets off the following: "New York is a barbarous, oblong, municipal bladder, stuffed with feverish sensuality, nervous energy, crabbed shrewdness, spasmodic fits of piety, and paralytic strokes of abstraction."

DEU ET MON DROIT.—Dieu et mon droit (signifying God and right), the motto of the royal arms of England, was first assumed by King Richard I, to intimate that he did not hold the empire in vassalage of any mortal. It was afterwards taken up by Edward the Third, and was continued without interruption to the time of William the Third, who used the motto "Je maintiendrai," though the former was still retained upon the great seal. After him, Queen Anne used the motto "Semper Eadem," which had been before used by Queen Elizabeth, but since Anne's time "Dieu et mon droit" has continued to be the royal motto.

store-keepers!

Farmers! And Others!
SHOULD BUY THEIR TEAS FROM THE IMPORTERS DIRECT.

The Montreal Tea Company,

6 Hospital Street, Montreal.
HAVE sent over One Thousand Packages to different parts of the country—and receive every day assurances that the tea gives entire satisfaction.

Subjoined are a few of the numerous testimonials already received:

HELEN HOLT, QUEBEC, January 7, 1867.
GENTLEMEN.—The tea which you forwarded some time since arrived in good order. The quality is pure and excellent, and I have no objection to its being the best quality of tea to be had for my own use. I am pleased to say that it gives general satisfaction. Your obedient servant, J. M. RUSSELL.

HENRY DEBARR, QUEBEC, December 18, 1867.
GENTLEMEN.—The box of 30 lbs. English Breakfast Tea which you sent me some time since arrived in good order. The quality is pure and excellent, and I have no objection to its being the best quality of tea to be had for my own use. I am pleased to say that it gives general satisfaction. Your obedient servant, J. M. RUSSELL.

Can have their work supplied by sending their orders by mail. These letters will receive prompt and careful attention.

M. BOWELL,

INTELLIGENCER BUILDING,

FRONT STREET, MONTREAL.

PROSPECTUS OF THE MOIRA GOLD MINING COMPANY.

Capital Stock, \$100,000. Divided into 10,000 Shares. WORKING CAPITAL, \$15,000.

HORACE YEOMANS, Esq., PRESIDENT. ANDREW THOMSON, Esq., TREASURER. B. S. GILBERT, Esq., SECRETARY. J. G. SHURTZ, Esq., SUPERINTENDENT. MERCHANTS' BANK, BANKERS. DEAN & GILBERT, SOLICITORS.

DIRECTORS:

HORACE YEOMANS, of Flint & Yeomans, Belleville. ANDREW THOMSON, Banker, Belleville. W. W. DEAN, Master in Chancery, Belleville. JOHN G. SHURTZ, Superintendent. JAMES LISTER, M.D., Belleville. JAMES W. CALMAN, American Consul, Belleville. BARTON S. GILBERT, of Dean & Gilbert, Barristers, Belleville.

THIS COMPANY is duly incorporated under Cap. 23, Consolidated Statutes of Canada, for the purpose of working the mineral veins upon sixteen acres of Lot No. 19, in the fifth concession of Madoc, (the Richardson Mine being No. 18 in the same concession.)

A shaft has been sunk to the depth of nine feet in the rock. At six feet, gold-bearing ore was struck, 18 inches in width, which at nine feet has increased to 24 feet, and is crushing at 40 feet & 50 feet, and one-half ton of the rock yields a yield of over 100 dollars in gold; the lode is clearly defined, and evidently extends the whole length of the property—52 rods.

The territory is admirably situated for mining purposes, being a high ridge covered with indications of mineral veins. There are numerous places on the land fully as promising as the one on which the shaft has been sunk, and which would unquestionably yield as well. The large quantity of land, and the prospects of other gold-bearing veins, make it certain that the Company will be able to subdivide the property as soon as their further development has been made, and form other Companies at great advantage.

Work is being vigorously prosecuted in the shaft, under the superintendence of JOHN G. SHURTZ, Esq., one of the Directors, who is largely interested in the proprietary of the mine, and who has had thirteen years' practical experience in the gold mines of California and Nevada, and is unquestionably the most accomplished quartz miner now in this country.

It is intended to have further crushing in a few days, and negotiations are in progress which, if carried out, will secure a mill to the Company at once, so that regular work will be gone on without delay, and dividends may, in that case, be expected in a short time.

Belleville, Jan. 27th, 1868.

India and China Tea Company.

HOME DEPOTS—London and Liverpool. CANADA DEPOT—32 Hospital Street, Montreal.

PURE and GENUINE TEAS of splendid natural flavor, imported direct from the Company's Plantations in ASSAM, and on the slopes of the HIMALAYAS, blended with the finest products of CHINA.

Only two qualities, viz., 70 cts. or \$1.00 per lb., either Black, Green, or Mixed.

Protected by Trade Mark.

Sole agents for Belleville, Messrs. T. WILKS & Co., Apothecaries Hall. ROBERT BARKER, Agent, Brighton. T. W. BARKER, Agent, Trenton.

August 16th, 1867.

PROVINCIAL INSURANCE CO. OF CANADA

N. MANN begs to notify the public that he has removed his Barber Shop to the Duffo House Building, where he hopes to see all his old customers, and as many more, who will favor him with their patronage.

Belleville, Dec. 27, 1867.

ORANGE CERTIFICATES FOR SALE at the INTELLIGENCER Office, Intelligence Buildings, Front Street, Belleville.

CAUTION.

THE perfection and cheapness of the AMERICAN WATCH, which has given it such a wide sale, has unfortunately attracted the attention of unscrupulous dealers, who have imitated its style and printed its trade marks. Therefore, when you purchase a watch, be sure that it is an American Watch, and that it is made in the United States.

It is highly necessary to state that each watch is marked with the name of the genuine article. It is equally necessary to state that each watch is marked with the name of the genuine article. It is equally necessary to state that each watch is marked with the name of the genuine article.

The purchaser should all cases require one of these genuine watches, which is furnished with a certificate of the Treasurer of the Company, H. E. ROBINSON.

The following are the trade marks on the several grades of our manufacture:

AMERICAN WATCH CO.

APPLETON, TRACY & CO.

WALTHAM WATCH CO.

P. S. BARTLETT.

WM. ELLERY.

HOME WATCH CO.

PENNSYLVANIA RAILROAD COMPANY.

Office of the General Superintendent, 100 Broadway, New York.

GENTLEMEN.—The watches manufactured by us have been in use for several years, and our engineering is of the highest quality, and our work is of the highest quality, and our work is of the highest quality.

There are now some three hundred of these watches in use, and they are all of the highest quality, and they are all of the highest quality, and they are all of the highest quality.

Induced I have great pleasure in saying that your watches give us less trouble than any other watches we have ever had in use in the road. As a witness to the truth of these statements, I have no objection to your watches, and furnish them to all engineers and conductors of the Pennsylvania Railroad.

Respectfully, J. M. WILKES, General Superintendent.

AMERICAN WATCH CO., Waltham.

NEW YORK CENTRAL RAILROAD.

Locomotive Dept., Western Division, 100 Broadway, New York.

GENTLEMEN.—I have no objection to saying that I believe the great majority of locomotive engineers have found by experience that the American watches are the most satisfactory of any for their use. They run with the least trouble, and they are all of the highest quality, and they are all of the highest quality.

Induced I have great pleasure in saying that your watches give us less trouble than any other watches we have ever had in use in the road. As a witness to the truth of these statements, I have no objection to your watches, and furnish them to all engineers and conductors of the New York Central Railroad.

Respectfully, J. M. WILKES, General Superintendent.

AMERICAN WATCH CO., Waltham.

For sale by all first-class dealers in the United States and British Empire.

ROBBINS & APPLETON, New York.

ROBERT WILKES, Toronto & Montreal.

Nov. 9, 1867.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by express at the rate of \$5 per year if paid in advance, \$6 otherwise. Mail subscribers \$4 per year. \$2 50 for 6 months; \$1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including cable news, and all the news of the day.

Arrangements have been made with BELLEVILLE CONSUMERS in Madison, Bridgewater, Marston and other points, who will furnish us with early and full information respecting the Gold Regions, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, nothing that may be expected to be of interest to the Daily Intelligencer worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 50 cts.

Half Square, 6 months, \$10.00.

One Square, 6 months, \$20.00.

Two Squares, 6 months, \$40.00.

Four Squares, 6 months, \$80.00.

Notices of Births, \$2.00.

Do of Deaths, \$2.00.

ADVERTISERS.—All matter under this heading, headed or sold, is sent per line, unless otherwise specified.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements at any time.

Transient advertisements inserted at 7 cents per line for first insertion, and 5 cents for each additional insertion.

THE WEEKLY INTELLIGENCER.

Published every Friday Morning at 22 per annum if called for at the Office, or sent by mail; and 24c if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

you would prefer, I should have been less perplexed. Let me see.

Yours are a-horse President! All parties are looking out for you. They want a man to "Horse" to his fellow-men, to himself, and to his God. What a motto, is that to run a race with? Thus far they seem not to have found just the man they want. I am sure your name, no doubt you would be ravished away to Washington in spite of your screams, and made President of the United States. And the only reason why I do not disclose your whereabouts, is that I fear that the presidency would not prove that "easy" place which you justly think is due to your honesty.

Don't be an editor if you would be "easy." Do not try the law. Avoid school-keeping. Keep out of the pulpit. Let alone all ships, stores, shops and merchandise. Don't practice medicine. Be not a farmer, nor a mechanic; neither a soldier nor a sailor. Don't think. Don't work. None of them are easy. Oh, my honest friend, you are in a very hard world! I know of but one real "easy" place in it. That place is in the grave!

How is it in Lancaster? Can they not serve you there? Ever your graves are very dear about here. Try and get suited at home.

The Mission to England.

The House yesterday was occupied with a discussion on the mission of Dr. Tupper to England.

The debate arose upon a motion made by Mr. Holton, for paper motion made by Mr. Holton, for paper

who dared not travel in his own province for fear of his personal safety, was an insult to Nova Scotia. He could not throw the intention of that province to get rid of the Union, and if conciliation was difficult before, it was impossible now, for the feeling there was inflamed to the highest possible pitch.

Mr. S. Campbell, also a Nova Scotian, charged that the responsibility for the excitement which existed in Nova Scotia rested not upon the member for Cumberland, but upon a clique in Halifax who were endeavoring to stir up strife. These parties alleged that nothing could satisfy them except a repeal of the union, and it was useless, therefore, to endeavor to conciliate them. He deplored the state of the feeling that existed there, and said that it was horrible to know that in a British colony annexation to the United States was openly advocated. This fact alone would make him accept Confederation and endeavor to work it out loyally and faithfully. He asked what was the value of the expression of opinion at the recent meetings, when members from Nova Scotia still came to the House, although among the resolutions passed at all those meetings was one calling upon them to stay at home. Mr. Coffin, a Nova Scotian, said that the appointment of Dr. Tupper to the mission was a disgraceful and a dishonorable one. Mr. Blake and Dr. Tupper disapproved of the appointment. Mr. Ross (Nova Scotia) denounced the appointment as an insult to Nova Scotia. At this juncture the House adjourned without any motion having been offered.

FROM BRIDGEWATER.

From our own Correspondent.

BRIDGEWATER, March 19, 1868.

"St. Patrick's day in the morning" will be as memorable here as the 15th inst. in Belleville, and on precisely the same account. Before noon on that day there was decided evidence of a great jam in the river close by the saw mill and scythe and hammer factories, and the water began to inundate the latter places, and the danger of machinery being injured was so imminent that gangs of men were engaged all day opening a channel. Before this could be effected, however, the water had begun to rise considerably, and when the opening was made in the ice, a shove took place, and the whole mass went dashing down till it came to the rapids just below the saw mill dam, where it formed a dead-lock, backing the water, which rose so rapidly a rate that in a short time the Kaledar road was flooded, and might have been, so far as a stranger could judge, the centre of a lake and nothing but deep water there; garden plots were submerged, and there seemed every prospect of a "big" inundation. No very great rise took place after the first rush till after midnight, when it began to show considerably higher. This morning another "shove" took place, which knocked down the bridge at the end of the saw mill completely, and after spinning round a few times, it took its course down the river. The rush of water which followed this took large blocks of ice and several logs and landed them on the Kaledar road, thus stopping anything from passing along that, previous to this, had been done by several vehicles, though the water was up to the hubs. Great fears were at one time entertained by the inhabitants of this part of the village, as there seemed every probability of the water coming into the houses, and every precaution was taken to remove goods to the upper parts of houses. Still the waters came on, rising till they reached the door steps, which, however, it may be to look at on the banks of a flowing stream in some romantic spot, is too matter-of-fact to be admired when performing the same operation at your street door, with the chance of the contents in at any moment. But towards three o'clock a clearance was effected below the rapids, and the whole bulk made one grand move, causing every one engaged in the work to acknowledge without loss of time. The strangers, &c., of the bridge crossing the river at the grist mill had been previously removed, which appeared to be a very wise precaution, as the materials were thus saved, and it gave the place a clean channel. And away the immense cakes went, dashing and crashing over the mill dam into the surging water below, which looked as if it was boiling. Great fears were entertained for the grist mill all along, but I am happy to say that the whole mass passed down without doing any injury. When the ice got down opposite Frost's wagon shop it formed another jam, but in a short time it started again and went on its way, where it was felt again, and so remains; but the water can work its way through, and no danger is anticipated. This was the greatest flood that has ever been known in this locality, and probably it has passed off without any accident.

We had a Tea Meeting at the Wesleyan Methodist Church here on Thursday last, but it rained all day and the attendance was consequently small. A large number, having been met for a larger number, it was announced that a "Social" would be held on the following Monday, when the weather was, if possible, a slight danger than on the previous Thursday, quite preventing people living at a distance from joining in it. But though the weather was against them, the result of the two meetings was \$110.

The Episcopal Methodists had a Tea Meeting on Friday last in the Town Hall, which passed off very satisfactorily, and realized, I believe, a very good sum, which was for the benefit of the Minister who is on his circuit.

—House of Representatives at Washington numbers 192 Republicans and 198 Democrats.

Editorial Summary.

—The damage by the storm in Toronto is estimated at \$30,000.

—What is the largest room in the world? Room for improvement.

—The crops in Venezuela have been half lost for want of laborers.

—Butler is selling in Troy and Albany at sixty-seven cents per pound. Paradise for house keepers.

—In a church near Toledo, Ash Wednesday was celebrated by a wedding, a christening, a fight, and a funeral.

—Sykes, the driver who was robbed and thrown from the Grand Trunk Railway, near Prescott, died on Monday.

—Robert Notman has been committed to trial at the Queen's Bench for participation in the recent arson case at Montreal.

—The new firm of Messrs. Buchanan & Co. is announced. The Hon. H. Buchanan is shortly expected out from Scotland.

—The death has been announced of Mr. William Cory, well known in the coal trade of London. At least 1,000,000 tons yearly passed through the hands of his firm.

—Three thousand people have been indicted in the county of California for witnessing a prize fight, and the sheriff proposes to arrest the entire population.

—The Mexican debt is \$100,000,000. Of this sum, \$50,000,000 is due to England, and \$12,000,000 to Spain. About \$5,000,000 are owing to France.

—One hundred and eighty wells have been bored in the Yucatan oil region within the past three months, but only about seventy-two will pay at present prices. There are one hundred and thirty-two wells drilling.

—Miss Kate Field thinks that Mr. Dickens' face is capable of wonderfully varied expression. Hence it is the best sort of face. There is a twinkling in the eye, like the glint of a gem, which reflects to any amount of fun within thirty minutes.

—The cattle fair at Galt, on Wednesday was an immense success. Between 400 and 500 head of splendid cattle were on the ground, and the drovers generally remarked that the fair had never been equalled in the Province. By an average of 300 head, had changed owners, at an average of \$40 per head.

—Buffalo is to have a skating rink to cost \$25,000. It will be 208 feet long by 124 feet wide, with brick ends and sides, walls 16 feet high, and arched roof crowned with ventilating roof, making a height of 42 feet; from floor to ridge-pole. The skating floor will afford ample room for 1,000 spectators.

—The first occupant of the new County Jail of Wexford was the comrade of the Wexford 74, who was committed for twenty-four hours on Saturday last, by a vindictive magistrate, for contempt of court in refusing to testify.

—The editor has commenced an action against the magistrate for redress.

—A Government return shows the condition of the Volunteer army of Great Britain at the close of last year: Light Horse, 553; Artillery, 6,025; Infantry, 6,581; Mounted Rifles, 373; Infantry, 107,035; total 110,512. Of this force, however, 25,548 are returned as not thoroughly efficient, the total available force of volunteers being therefore reduced to 184,964 of all arms. But of this number 90,588 are set down as being "extra efficient."

—To the Editor of the Daily Intelligencer.

DEAR SIR,—Would you be kind enough to insert the following bit of news from the North Country:

Complimentary supper to A. Jelly, Esq., J. P., on the occasion of his leaving the Hastings Road. Owing to the inclemency of the weather and bad state of the roads, there were not quite so many as were expected at this social gathering. However, notwithstanding all this, and its being quite an impromptu affair, about forty of Mr. Jelly's immediate relatives and old acquaintances sat down to a plentiful supper on Friday, the 18th ult. James Maitland, Esq., Chairman, ably supported by Robert R. Smith, Esq., Vice-Chairman. After the usual loyal and patriotic toasts were proposed and responded to, our worthy Chairman, in a suitable and eloquent speech, proposed the health of Mr. Jelly, with many regrets on account of his straitened means from this part of the country, which appeared to be felt by all the assembly. Several good songs having been sung by Messrs. Cooper and Tapp, all adjourned down stairs, where a good provision of the fair set were ardently awaiting an opportunity of tripping on the light fantastic toe, which performance was kept up until daylight, when, after wishing Mr. and Mrs. Jelly good bye and God-speed, the assembly wended their way homeward. I remain

Yours truly, ADOLPHUS.

Tudor, March 18, 1868.

I'll keep my eyes shut.

Little Henry had been quite sick. When he was slowly recovering, and just able to be up and about the room, he was left a short time, when his sister came in eating a piece of cake. Henry's eyes had been told to him, must eat nothing but what she gave him, and that it would not be safe for him to have what the other children did still he was stronger.

His appetite was coming back; the cake looked inviting; he wanted very much to take a bite to get out of temptation. He was glad to have given it to him. What was he to do?

"Jennie," said he, "you must run right out of the room, and get me that piece of cake that I shut my eyes shut while you go, so I can eat it."

When that a good way for a little boy to have years to get out of temptation. I think so. And when I heard of it, I thought that there are a great many times when children and grown people too, if they would remember Little Henry's way, would escape from sin and trouble.

Telegraphic News.

BY ATLANTIC CABLE.

Paris, March 19, evening.—The much looked for Imperial pamphlet made its appearance to-day. The writer, after giving a lengthy history of the early popular votes in France, proves from that that the French constitution is based upon the will of the people only, and is changeable only by the vote of the people. He then goes on to review the course of the Emperor toward the people, and contends that in the decree of 1860 and 1867, wherein certain liberal reforms were guaranteed, the Emperor himself declared that he seeks to adopt the covenant to progress and liberty. It is said that M. Coute, Secretary of the Emperor's Cabinet, is the author.

London, March 19, evening.—The regular weekly statement of the Bank of England shows an increase of bullion to the extent of £102,000.

In the House of Commons, last evening, Mr. G. W. Hunt, chancellor of the Exchequer, in reply to a question, proposed the appearance of the Budget on the 30th of April next.

During a debate on the Irish question, Lord Mayo made an explanation in regard to the Fenian prosecutions. He said that the offer of pardon made to Mr. Johnson, who was accused of participating in an illegal procession, was not held out to Messrs. Sullivan and Pigot, the Dublin editors, for the reason that the cause was widely different.

Capt. McKay, who was recently tried at Cork on a charge of murder and acquitted, was yesterday put upon trial again on a charge of treason and felony. Messrs. Massey, Corydon and Mullany are the chief witnesses against the prisoner.

Second Despatch.

London, March 19, midnight.—In the House of Commons to-night Earl Mayo, chief Secretary for Ireland, presented the Government bill for reform in the representation of Ireland in the commons. There is to be no alteration in the county branches, but in the boroughs the right of voting is to be given to all five pound householders, instead of ten pounds, as

JAMES LISTER, M.D., Belleville.
JAMES W. CARMAN, American Consul, Belleville.
BARTON S. GILBERT, of Dean & Gilbert, Barristers, Belleville.

THIS COMPANY is duly incorporated under Cap. 23, Consolidated Statutes of Canada, for the purpose of working the mineral veins upon sixteen acres of Lot No. 19, in the fifth concession of Madoc, (the Richardson Mine being No. 18 in the same concession.) A shaft has been sunk to the depth of nine feet in the rock. At six feet gold-bearing lode was struck, 18 inches in width, which at nine feet has increased to 22 feet, and a further 12 inches at 21 feet. The lode is clearly defined, and evidently extends the whole length of the property—32 rods.

The territory is admirably situated for mining purposes, being a high ridge covered with indications of mineral veins. There are numerous places on the land fully as promising as the one on which the shaft has been sunk, and which would unquestionably yield as well. The large quantity of land, and the prospects of other gold-bearing veins, make it certain that the Company will be able to subdivide the property as soon as a title further development has been made, and form other Companies at great advantage.

Work is being vigorously prosecuted in the shaft, under the superintendence of JOHN G. SHURTZ, Esq., one of the Directors, who is largely interested in the proprietary of the mine, and who has had thirteen years' practical experience in the gold mines of California and Nevada, and is unquestionably the most successful and experienced miner now in this country.

It is intended to have a further crumpling in a few days, and negotiations are in progress which, if carried out, will secure a mill to the Company at once, so that regular work will be gone on without delay, and dividends may, in that case, be expected in a short time.

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERALITY IN THINGS NOT ESSENTIAL—CHARITY IN ALL.

No. 275

Three Ships.

Three precious ships I sent,
From land-locked heaven to an ocean blue,
Whereto no vague, no dim horizon bent
Down on this outward view.
One to Elision Isles

And round and round, through throbbing, if
miles,
Kissed to ecstatic sleep.
One to a glorious shore,
Whose stainless mountain summits strack
sky,
Each bearing grandly up, forever more,
A name that could not die.
One to the Fortunate Land

Whose sunset clouds were piled barbarian
And swift below whose drifts of silver sand
Pearl pebbled rivers rolled.
The first went down in sight
Of the Elvian Isles: along its keel

The soft impulses of their waves of light
Had just begun to steal.
In some obscure lagoon.
The next ship rots, or on some desert coast

With ruined rope and sail,
Seams open wide, lost helm, and broken
Back from vain struggles with roiling waves

So fared my precious ships,
That to the visioned ocean gave the sail:
With wildy beating heart, yet silent lips.

But in the later year,
When the dark storm of life was overblown
Without a hope, and yet without a fear,
I sailed the sea alone.

Not from a sheltered bay,
To Dreamlands full in sight along the sea
My ship of Life pursues a luminous way
Into Eternity:

But from a barren strand,
Strew'd with the wrecks of many an earl,
And far below the horizon lies the land,
Darkly, to which I sail.

Though unseen currents drift,
And head winds beat me back with st.
force,
And soft Morgans from the ocean lift
To lure me from my course.

If I with patience stand
Fast by the helm, and count as lost no d
Through which my utmost strength o
and hand

I know my ship will ride
At last where baffling winds are never d
Nor current drifts—safe anchored on th
That leaves the shores of Hea

Pebbles.

"Shrouds have no pockets," remarks

A preacher, in a funeral sermon on after summing up her good qualities,

"I resort to wine to stimulate my said young spendthrift to an old one, replied the veteran. "That is the way I

NEVER ALONE.—A pious cottager
in the centre of a long and dreary

being asked by a visitor. "Are you sometimes afraid in your lonely situation, especially in winter?" replied, "Oh, Faith shuts the door at night, and opens it in the morning."

During the war a lady passing from
cot through the wards of a hospit
shocked to hear a fellow laughing at
She stopped to reprove the wretched

Why, look here, ma'am," says he, "I've given you a tract on the sin of dancing. I've both legs shot off."

is told by the elder Berryer), the defendant whose title was contested, proved that the estate had been in his family for more than two hundred years. "Well, then," said the judge, "it is yours."

TRUE HAPPINESS.—Guilt, though attain temporal splendour, can never be real happiness. The evil consequent

our crimes long survive their committers, and, like the ghosts of the murdered, haunt the steps of the malefactor. The love of virtue, though very seldom those of the wickedness are always those of pleasure.

WHOSOEVER.—“Whosoever will come.” ‘I thank God,’ said Richard “for that word *whosoever*. If God has

there is mercy for Richard BAXTER, a vile sinner that I would have thought meant some other Richard Baxter when He says *whosoever*, I know that is me, the worst of all Richard Baxters."

The Dry Rot in Men.
A very curious disease, the dry rot l

and difficult to detect the beginning had carried Horace Kitch inside the old King's Bench prison and it hurried him out with his feet foremost. A likely man to look at, in the prime

well to-do, as clever as he needed to be, popular among many friends. He was ably married, and had healthy and numerous children. But, like some fair-looking or fair-looking ships, he took the d

The first strong external revelation of dry rot in men is a tendency to lounge; to be at street corners with telligible reason; to be going anywhere, to be nothing tangible, but to be

intention of performing a variety of inte

Epitaphs.

From an article on epitaphs we make a few extracts:

Perhaps the most absurd of all epitaphs is that attributed to a pyrotechnist who died a few years ago. In the course of his travels he had been immensely struck by an inscription on the grave of the great musical composer, Purcell:

"He is gone where alone his melodies can be excelled."

Fired by laudable ambition to secure such praise, Mr. B. requested that over his tomb might be written:

"He is gone where alone his fireworks can be excelled."

Can anything be more simply touching than the third line of this triplet:

"Here both wrapped in clay
The body of William Wray,
—I have no more to say."

There is the grotesque intentional, and the grotesque unintentional. Among the former we should rank the epitaph of Mr. Poole, of Norwich:

"Here lies one Poole, whose death may thousands save,
For death hath now one foot within the grave."

And the one on Mr. Box:

"Here lies one Box within another,
The one of wood was very good,
We cannot say much of his, but
The following must have been flattering to the bereaved widower:

"Here lies the body of Mary Ford,
Whom soul we trust, is with the Lord;
But if for hell she changed this life,
'Tis better than being John Ford's wife."

We wonder whether the old bachelor commemorated in the last, would have indited the epitaph for him:

"At three score winters' end I died,
A cheerful being, lone and sad;
The spirit knelt I never tied,
And valued my father never had."

Grammar is postponed in the next to high poetical and moral considerations:

"She's gone and cannot come to me,
But we will shortly go to see."
The following would be set down as Irish, but we believe may claim a Saxon origin:

"Ah, cruel death! Why so unkind,
To take her, and leave me behind?
Butter to have taken both, or neither,
Would have been more kind to the survivor."

But of the following there can be no mistake:

"Under this stone lie two babes dear,
One is buried in Comma, and the other here."

The monument is if needful to say—in Ireland, in Athlone churchyard.

The following is on a lady, possibly of those loquacious tendencies too often attributed to her sex:

"Here rests in silent clay,
Miss Arabella Young,
Who on the 21st of May,
Began to hold her tongue."

CAUTION.

The perfection and cheapness of the AMERICAN (WALTHAM) WATCH have given it such a wide world-wide sale, that unscrupulous dealers have imitated its style and created a trade mark. It is impossible to describe the many advantages which the American Watch has over all other watches, and the popularity of the American Watch, by selling a large number of these watches, has given rise to the necessity of stating that each watch is warranted as time-keeper, and when bought for general use, is warranted to be accurate. The several grades of the American Watch are as follows: The Standard, the Home Watch Co.—are guaranteed by special certificates, bearing the number of the watch, and the signature of the Treasurer of the Company, H. E. ROBINSON.

The purchaser should in all cases require one of these certificates, such a certificate is given in the purchase of watches.

The following are the trade marks on the several grades of our manufacture:

AMERICAN WATCH CO.
APPLETON, TRACY & CO.
WALTHAM WATCH CO.
P. S. BARTLETT.
WM. ELLERY.
HOME WATCH CO.

PENNSYLVANIA RAILROAD COMPANY.
Office of the General Superintendent:
Altoona, Pa., 1887.

GENTLEMEN:—The watches manufactured by you have been in use on this Railroad for several years by our employees, in whom we have full confidence, and your equipment. There are now some three hundred of these watches in use on this Railroad, and they are all reliable time-keepers. Indeed I have great confidence in your watches, and I have no doubt that they will continue to be so for many years to come. As you are aware, we are in the habit of purchasing watches of acknowledged good reputation, but as a witness to the fact that we are not deceived, we have purchased a few of your watches, and we have found them to be as good as any we have ever used.

In these watches I am satisfied by your professional Mr. Lewis, and we have purchased over a score of years.

Respectfully,
ROBERT W. WILLIAMS,
General Superintendent.

AMERICAN WATCH CO., Waltham.
NEW YORK CENTRAL RAILROAD,
Locomotive Dept., Western Division,
Rochester, Dec. 24, 1887.

GENTLEMEN:—I have no hesitation in saying that I believe the largest majority of locomotive engines have found by experience that Waltham watches are the most satisfactory and accurate. I have no doubt that they will continue to be so for many years to come. As you are aware, we are in the habit of purchasing watches of acknowledged good reputation, but as a witness to the fact that we are not deceived, we have purchased a few of your watches, and we have found them to be as good as any we have ever used.

Yours respectfully,
CHARLES C. LITTLE,
Brotherhood of Locomotive Engineers.
American Watch Co., Waltham.

For sale by all first-class dealers in the United States and British Provinces.
ROBBINS & APPLETON,
New York.
ROBERT WILKES,
Toronto & Montreal.
GENERAL AGENTS.
Nov. 2, 1887.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carrier at the rate of \$5 a year if paid in advance. Single copies, 10 cts. Subscribers \$5 a year. \$2.50 for 6 months; \$1.50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable dispatches and the New York and Montreal Daily Intelligence, and is published for the purpose of furnishing a complete and reliable source of information.

Arrangements have been made with the Montreal Correspondents in Madoc, Bridgewater, and other places, to send their reports to this paper, with early and full information respecting the Gold Regions, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, nothing but pure news and intelligence will be published. Daily Intelligence is a worthy of public patronage.

RATES OF ADVERTISING.
A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months..... \$2.00
Half Square, 6 months..... \$10.00
One Square, 6 months..... \$20.00
Two Squares, 6 months..... \$40.00
Four Squares, 6 months..... \$80.00
Notice of Births..... 50
Deaths..... 50
Business Notices—All matter under this heading, headed, or sold, 10 cents per line, measured by the space occupied, and not by the number of lines.

Advertisers contracting for any space not less than a square can have the privilege of inserting their advertisements at a reduced rate, changing their advertisements inserted at 7 cents per line for first insertion; and 5 cents for each additional insertion.

The Weekly Intelligencer
is published every Friday Morning at 22 p.m. unless called for at the Office, or sent by mail, and \$2.50 if delivered by the Carrier, payable in advance. When not paid in advance, the price of the paper will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number of our subscribers is now over 1,400. With such a large and general circulation throughout this and adjoining Counties, it is a valuable medium for advertising, and offers advantages to advertisers.

RATES OF ADVERTISING.
Six lines and under, insertion, 10 cts. Each subsequent insertion, 5 cts. Above six lines (per line) first insertion, 10 cts. Each subsequent insertion, 5 cts. Each insertion, measured as solid matter.

A liberal discount will be made for cash payment. Advertisements for insertion must be delivered before 12 o'clock, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, none, or otherwise.

The Intelligencer Job Office
is supplied with Power Presses, Hot Plates, and all the latest machinery for the rapid and best execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Store in Belleville, and at Wilson's Drug Store in Madoc, and at all the other places where books are sold.

All orders by mail promptly attended to.
M. BOWELL,
INTELLIGENCER BUILDING,
Front Street, Belleville.

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERALITY IN THINGS NOT ESSENTIAL—CHARITY IN ALL.

No. 276

The Poms and Vanities of the American World.

The following remarks, called from a pastoral recently issued by Bishop Cox, severe as they are, must be admitted by all sensible persons to be appropriate in this present sinful age. We fear they will apply to other countries than the United States:

"When we see the tawdry fashions, the costly vulgarity, and the wicked extravagance of the times, I feel sure that thousands of American women are strangers to the first law of refinement—simplicity in manners and attire. When I see that thousands of American women read the most shameful romances and the most degrading newspapers; frequent the vilest dramatic entertainments, and join in dances so shocking to benighted among christians, I feel that christian nations are becoming too few, and that civilized brotherhood is

returning to the fields we have wrestled
from the Indians. When I read daily of
the most ungodly divorces, and of crimes
against social purity, and against human
life itself, which are too gross to be men-

tioned more particularly, I feel that to many of our countrywomen are without God in the world, and that radical reform are necessary in the system of education on which the young women of America

are dependent for their training. When we see thousands of households in which young girls are reared for a life of pleasure without reference to duty, I cannot wonder at these results, nor at the misery in which

they involve families and communities. Sow the wind and reap the whirlwind! A christian bishop, therefore, I make an appeal to you, christian women, and I ask you to begin the reformation, by faithful

bearing your testimony against all that tends to the degradation of your sex, and the more so, when such crime is not winked at, but receive countenance circles which ought to be exemplary."

Maple Sugar Making.

This is the season when enterprising men living near maple groves, prepare to make

their year's "sweetening." Many tons are made throughout the Middle and Northern States. Maine, Massachusetts, New Hampshire, Vermont, New York, Michigan, Ohio and the Canadas make the most, and to

limited extent it is made in the Middle and Southern States. A few trees will often produce many pounds of delicious sugar, rightly tapped and attended.

desirableness of our farmers planting many trees in rocky regions, or in portions of their lands which could not otherwise be cultivated. A nook or a corner here and there would grow a dozen or more such

maple trees, and a sidehill in a gorge a
glen as many more. Indeed such tre
should be set along our public roads.
Millions can thus be grown to the gr
benefit of all and the injury of none. T

sugar-maple is a beautiful shade-tree in summer, and when old may be converted into timber, tools, furniture, or fuel. And we would here suggest that a young farmer cannot do a better thing for himself.

town, or his country, after planting a fr
orchard, than to plant a grove of ma
trees. Who will act upon this suggestio
If only a few individuals be induced to

the means by which we can obtain all
this kind of sugar and syrup that we need

Use of the Arms in Walking

how soon your companion will leave you behind, although you hurry, twist, wriggle and try very hard to keep up. One reason for the slow walk among girls is to avoid in this practice of carrying the ar-

arms still, is as hard work as four with arms free. I have seen the queens of stage walk. I have seen a few girls and women of queen-like bearing, walk in

street and drawing-room. They move their arms in a free and graceful manner. Could this habit become universal among girls, their chests would enlarge, and the bearing be greatly improved. See the

girl walking with both hands in her mouth. How she wriggles and twists her shoulders and hips! This is because her arms are pinioned. Give them free swing and her gait would soon become more graceful.

You have seen pictures of our muscles. Those of the upper part, you remember spread out from the shoulder, in all directions like a fan. Now, if you hold the shoulder still, the muscles will shrink, the

some girls will say, "swinging the arms must be very slight exercise." True, it is very slight, if you swing the arms but once or ten times, but if you swing them up and down a hundred times, you will obtain more

exercise of the muscles of the chest than all other ordinary movements combined. Indeed, if I were asked what exercise I thought most effective for developing the chest of American girls I should reply

once, swinging the arms while walking.
[Dr. Dio Lewis.]

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some faint smudges and discoloration, particularly along the right edge. There is no text or other markings on the page.

BY ATLANTIC CABLE.

Mr. Billings on the Crow.

Crows live on what they can steal, and they will steal anything that isn't tied down. They are fond of meat wittles, and are the first to hold an inquest over a departed horse or a still sheep. They are a hard bird to hunt, but a hard one to kill; they can see 2 miles off, and will smell a gun right through the side of a mountain. They are not songsters, although they lay out a good voice to understand thoroughly; they seem to understand thoroughly; long prattles has made them perfect. The crow is a tuff bird and can stand the heat well. They build their nest among a tree, usually twice, and both eggs would hatch, and they were laid in a very hasty way. There isn't such thing as stopping a young crow. Crows are very slow, I believe they live always, I never knew one die a natural death, and don't believe they know how. They are always thin in flesh and are like a rubber shoe, poor inside and out. They are not considered fine eating, although I have read somewhere of blackbirds, but I never knew of the same man banking for some thing like that. The worst. This case on the crow is copied from nature, and if it is true I want to blame for it, nature made the crow, I didn't, if I did I would have made her more looser and just, till enough to make soap or out.

Daily Intelligencer.

BELLEVILLE, MONDAY, MARCH 23.

DREADFUL ACCIDENT.

(By Special Telegraph to the Daily Intelligencer.)

MALDEN, March 23rd, 1893.

Three of Philip, Glover's sons, and a son of Martin Bradshaw, were drowned yesterday afternoon in a pond near Glover's place.

GODLEY'S LADY'S BOOK for April has been received. The list of contents is one of the most attractive Godley ever presented, and its embellishments are executed in a style that is the Fashion, Domestic, Fancy Work and Drawing Departments are full of interest, and the Literary Department is made up of articles from the pens of the best magazine writers of the day. Published by L. A. Godley, Philadelphia, at \$3 a year.

STANLEY ADAMS—The Montreal Daily News of Saturday says: "We learn that private and reliable information has been received of a Fenian movement in the neighborhood of Malton. Numbers of men, supposed to belong to the organization, and all of whom possess arms of some kind, have been gathering at this point for some days. It is a matter of common belief that their presence is the result of a plan of which Malton is on this side of the line are not so ignorant as good loyalty would require them to be."

INQUEST.—An Inquest was held on Sunday the 22nd inst., before Coroner John P. McDonald on the body of a woman named Lyons, who died suddenly the previous evening in the house of John McCarthy. From evidence adduced it appears that she had been called by a woman who represented that she had come from Kingston and was on her way to Toronto to see her children, called at the house of Mr. McCarthy and asked if she could stay all night, and upon being told she could not asked for a drink of water which was given her; she then asked if she might rest herself a few moments, and permission being granted she entered the house and laid down on the sofa, where she was found dead a short time afterwards. Deceased was about 35 years of age. The Medical evidence showed that she died from inflammation of the lungs caused by exposure and want.

AGGRAVATED ASSAULT.—On the morning of the 20th inst., a young man from Hillier, named Wm. Thorne, was in the shed of the Railway Station in this town, when a man named Bulger, lately returned from the States, entered into a quarrel with him, knocked off his hat and kicked him. Thorne, about an hour subsequent, proceeded to the Club House, and with two friends, named James Butler and George Thorne, also from Hillier, entered into a quarrel with Bulger and two other of his companions. It terminated in Bulger committing a serious assault upon Butler, and George Thorne received a very deep cut over the left eye with some blunt weapon. Bulger was at once arrested by the Police, and on Saturday, after a lengthened examination before the Police Magistrate, that official sentenced him to one month imprisonment at hard labor, a fine of \$40 and a further imprisonment of five months with hard labor, unless the fine was sooner paid. It is hoped this salutary sentence will have a good effect upon some of our quarrelling rascals.

—So rapid has been the spread of the suburban population of Liverpool, that the Poor Law Board have decided to bring another portion of each of the districts of West Derby, Everton, Kirkdale and Bootle.

A Confidence Game.

For some time past there have been ugly rumors in circulation respecting the Empire Mine, but as they seriously affected the standing of men who have hitherto borne an unblemished reputation, and as we were not in possession of all the facts, we have refrained from giving currency to them.

The "cat has been let out of the bag," however, disclosing a species of fraud and swindling which showed that while adepts at the business had the management of the mine, green hands were allowed to mix themselves up in the transaction. The facts so far as they have been made public are as follows. We copy from the *Madison Mercury*—

"In the absence of any other stirring news, gossip and scandal-mongers have had a fine time of it for the last few days, in fact immediately after the sale of the property, the mine was sold, to the effect that the rock sent them, the mine had been heavily 'salted' with gold purchased at a distance from common sources of the older inhabitants of the village who asked our opinion. We were very slow to attach any credence to that report, on account of the standing and character of the vendors. However, although the parties interested have done their utmost to keep the matter quiet, it is now public knowledge, and talked about, that the trickery practiced has been discovered, and in fact, acknowledged. As previous remarks concerning the Empire Mine had conveyed to others our own impression that these rumors were utterly without foundation, an explanation of the circumstances under which this piece of deceit—for we can call it by no milder term—was consented to, after voluntarily made in our paper this week, to prevent our being placed, unwittingly, in a false position any longer. That statement, as it implicates others than the Messrs. Jones, we do not deem it right to publish at present—especially as various other versions are afloat. This and our unwillingness to give the Messrs. Jones an opportunity to offer to forfeit either the balance due to them of the purchase money, if the purchasers, after doing something more than pay for the surface of the mine, are then dissatisfied with their bargain; or, if they will not consent to that, we will send the vendors an order to take the property back for the sum they have received for it, leaving the purchasers to recover the balance from the other parties to whom it was paid."

In the interest of public morals, and for the sake of those who have invested their capital in the gold region, it is to be regretted that the purchasers of the mine did not bring the principal culprits to justice instead of compromising such a bare-faced swindle. It will be remembered that the proprietors of the Empire Mine represented that they had had crushed by the mill of Daniels, Scott & Taylor, fourteen tons of ore, which yielded \$31.40 per ton. Indeed, if we mistake not, the certificate of the firm of Daniels, Scott & Taylor was produced as evidence, and if additional evidence was wanted, the nugget of gold obtained from the rock was on exhibition. Every one congratulated the enterprising owners of the mine upon their good luck, and the chief manipulator was sent to Belleville to negotiate for the sale of a portion of the mine, the original owners retaining the largest proprietary interest. The manipulator, the same gentleman who went to Montreal and got the gold wherewith to "salt" the fourteen tons, succeeded in disposing of an interest to certain gentlemen of this town, who in gold circles were looked upon as exceedingly fortunate in securing a "good thing." The bubble burst, however, not many days after the purchase was made, and the "good thing" did not look so bright and flattering to the new owners as it did when they purchased. How and by whom the fraud was disclosed, and how a settlement was patched up, have not been publicly transpired. Different versions have been retailed in private circles. We cannot but think it would have been to the advantage of those concerned, as well as to the public interest, had the matter been brought to an issue before the Courts. A swindle like this will do great injury to the mineral interests of the north country. It will create distrust and doubt, the greatest difficulties we now have to contend with, and retard to some extent the development of our mineral resources. The Empire Mine may after all be a valuable property, for it was after this swindle that Dr. T. Sterry Hunt, made his assay of ore which showed this mine to be one of the richest in the gold region, and had the proprietors waited until that assay had been made public, they might have negotiated the sale on much more favorable terms than was done by means of the fraud perpetrated. Like many others, in too great haste to be rich, they thought they would not accomplish their object easier and quicker by perpetrating this little "confidence game," in which however, they came to grief a little sooner than they anticipated.

All the little villages on the Jersey shore of the Hudson river, opposite New York are to be brought under one municipal government, and in place of a dozen small communities there will stand a city of 120,000 inhabitants. They had rather a spacy time at Guelph on Monday, at the opening of the Assizes, by Justice Haggerty. The gentlemen of the Bar pleaded delay for their records, and put all sorts of excuses, but His Lordship partly declined to listen to them. He had come to do business, and if they did wish to proceed they must abide the consequences. His Lordship's sharpness had the desired effect, and the business of the Court was carried on.

The Court opened at 12 o'clock noon, to-day, the Hon. Justice Adam Wilson presiding.

There are thirty-one civil cases on the docket, one of which is undefended. The Criminal Calendar comprises twenty cases, one of which is an aggravated assault, the other two are against good and honest men, for aiding and abetting in the murder of Holmes. Sidney Smith, Esq., Q. C., appeared on behalf of the Crown, assisted by C. L. Coleman, County Attorney.

The following gentlemen compose the Grand Jury:

GEORGE PHILLIPS, Foreman.
John McKeljohn, Jas. Findlay,
Joseph Chesebrough, Jas. J. Ryan,
Philip Clapp, Isaac Barton,
James Kyle, S. Vautselle,
John Stewart, Wm. Virgins,
Sylvester Falkner, David Miller,
Wm. Totten, Andrew Liddle,
Silas Sims, W. H. Morton,
Samuel Thodes, Andrew Coulter,
James Cook, David Wollman,
S. W. McDougall, Jas. Milne,
Thos. Cuttle.

His Lordship in charging the Jury remarked that though there were only three criminal cases, they were for crimes of a very heinous character—one was for manslaughter and the other two for murder. What degree of crime and what offense the Jury were to determine, he could not determine until the evidence was brought before him, and he, therefore, could not be expected to speak to the Jury with a view of coming to any conclusion. He could only address them as to the law applicable to such cases. The distinguishing difference between murder and manslaughter as laid down in early this week, and understood generally was that murder the graver offense, is committed with malice aforethought, that is a premeditated, designed and unlawful killing of one human life with malice aforethought. In cases of violence offered by man towards woman, violence of a peculiar degree might alter the case altogether, when offered to one of different sex or habit of body. If a woman was laboring under any peculiar disease, so that she was not able to bear the shock, or if pregnant, and violence offered to her by a person knowing her condition, that which might not be murder in one case would be murder under such circumstances. It is not necessary to establish the offense of murder, there should be actual malice or it will towards the party murdered, for in many cases malice is implied. If a person were to fire a loaded gun, and the bullet killed any one in the crowd, the offense would be so wholly unjustifiable, so absolutely malicious, that if death did occur, the law implied that the offense was committed by malice aforethought, and he would be justly indicted for murder. His Lordship then briefly referred to the crime of manslaughter, apprehended there would be no difficulty in arriving at a proper verdict after hearing the evidence. He concluded his brief charge by directing them to make the usual examination of the case, and if there was any other matter to be taken up, he would direct the jury to take it up, and he would direct the jury to take it up, and he would direct the jury to take it up.

An undefended issue was then disposed of.

ACTION OF EJECTMENT against three defendants. One named Mrs. Perrault, filed an appearance after notice of trial given; the defendant Perrault gave a writing consenting to defend appearance, plaintiff giving her \$25 to pay her attorney his costs. Consent given was not to be taken into consideration, and plaintiff could not with safety sign judgment. Defendant's attorney refused to give any other writing, plaintiff entered his record and notice of trial given.

M. Crombie for plaintiff. G. E. Henderson and S. J. Bull for defendant.

CLARKE et al. vs. SHAYLER.

Action on two promissory notes and two bills of exchange. Defence payment. Defendant could not prove his case. Bell and Holden for plaintiff; Diamond and Dickson for defendant.

ELLIS vs. McKENNEY.

Action on an account for work done as sub-contractor on the Niagara River Rail Road. By consent of counsel the case was referred to the arbitration of George L. Reed, Esq., Hamilton. Verdict taken for plaintiff; no increased or reduced, or verdict to be entered for defendant.

Bell & Holden for plaintiff; Crooks & Kingmill, for defendant.

In the case of McADIE vs. Corby, Mr. McDougall made application to have it laid over on account of the absence of a material witness. His Lordship was willing to grant application on production of necessary affidavits. Mr. Wallbridge, in the case of McADIE vs. Southland, which was similar to the foregoing, made a like application, which was granted on same conditions.

The Court adjourned at 3 o'clock, until to-morrow morning, at 10 o'clock.

—The river at Montreal is breaking up, and it is thought the city will escape a flood.

—For the twentieth time the Turkish government has announced the final termination of the Cretan rebellion.

MR. J. S. MILL ON THE IRISH LAND QUESTION.—The *Daily News* says:—Mr. Mill has written a pamphlet on England and Ireland, which will engage the notice of lords of both countries. He sees nothing which Ireland could gain by a separation which might not be obtained by union. Mr. Mill's proposal is the appointment of a Commission with compulsory powers to examine every farm in Ireland that is let to a tenant, and to commute the present variable for a fixed rent. This annual sum should be set aside to landlords, in full of the guarantee of the State; he should have the option of receiving it from the national treasury, being inscribed as the owner of annuities so long as he would consent to it. Every farm would be let to the proprietor who should become the permanent holder of the tenant, who would pay either the landlord or the State the fixed rent that had been decided on.

American Despatches.

St. Louis, March 22nd.—The Indians in Grant County, New Mexico, are committing continual outrages. A few days since they attacked a train and killed one man; subsequently they attacked another train and stamped all the miles belonging to it.

Louisville, March 22nd.—Yesterday, the Banking House of N. Long & Co., was entered by five men and robbed of \$9,000 in currency, and an unknown amount of private deposits. They shot Mr. Long and knocked him down; he subsequently recovered and gave alarm. General shooting then commenced, during which a Mr. Owens was slightly wounded. The robbers escaped to Frankfort.

New York, March 22.—A heavy gale has been blowing all day, and it is apprehended that much damage has been done to shipping. Weather excessively cold. Many accidents to buildings and shipping already reported.

Advices from Washington state that the witnesses in the impeachment trial summoned last night were twenty-four in number. Most, if not all of them have been examined by the impeachment managers, including Breves Major-General Emory, Adjutant-General Thomas, Col. Wallace, Samuel Will, Hon. B. Van Horn and ex-Poetmaster-General Horatio King. At least seven of the witnesses are reporters. A portion of them have already testified before the managers as to the President's speech in Washington, on August 18th, 1860, in response to address and resolutions of the Philadelphia Convention. Several other witnesses have testified relative to language made use of by the President in his subsequent speeches at St. Louis, alluded to in the articles of impeachment.

Boston, March 22.—All trains due from New York and other points arrived here about midnight and roads are open.

AUGUSTA, Me., March 22.—The storm ceased at noon today after a continuation of twenty-six hours.

PHILADELPHIA, March 22.—The track of the Philadelphia road is now clear of snow, and the trains are moving, as usual.

PITTSBURGH, Pa., March 22.—A fire this morning on Benchoff Run, destroyed 4,000 barrels of tanking and 2,100 barrels of oil.

CHICAGO, March 22.—The shingle factory of James & Smith, near the end of the ninth pier, was destroyed by fire last night. Loss \$30,000.

New York, March 22.—The steamer "Arion" brings the following news from Panama up to the 14th inst.:—General A. President of the State of Panama, died on the 3d inst. He is supposed to have been poisoned.

The State of Toluca was rebellious, the rest of the country remaining tranquil. The Columbian army has been reduced to two thousand men.

Archbishop Herran died on the 6th ultimo.

Dates from Valparaiso up to Feb. 17th, and from Caliao up to Feb. 27th, state that war between Chile and Peru is no longer apprehended as the election approaches in Peru, and additional candidates are brought forward for the Presidency.

A dispute had arisen between the Chilean Government and the French house of Armand, for the violation of a contract to furnish iron rods, the delivery of which was forbidden by the French Government. Chile had advanced large sums to the contractors, which they refused to return.

The loan between the Peruvian Government and the consignees of Guano for twelve million is about to be closed. Guatemala has granted the right to construct a railroad from the Port San Jose to Escuintla.

Advices from Australia are to the 7th ultimo. Earl Bellmore, the new Governor of New South Wales, has arrived there.

The Captain and crew of the schooner "Raney" were massacred at Solomon Group Islands by the natives.

It has just been discovered that the ship "General Grant," which left Melbourne for London in May, 1893, was wrecked at Auckland Island the same month, by being drawn into a large cave twenty-five fathoms deep. Only fifteen persons were saved.

Worcester, Mass., March 22.—The storm yesterday proved the most severe of the season, and the trains on all the roads in this vicinity were generally delayed.

—It is reported that President Johnson will ask so delay to prepare his defence, but announce his readiness to proceed at once.

A new iron-clad of the "Hercules" class has been commenced in the same dock from which the "Hercules" was lately floated out at Chatham.

The Hamilton Times says Mr. Samuel Laidman of Blairford, had forty-one big bred ewes killed by dogs, on Sunday last, amounting to \$600.

The election canvass in North Carolina grows lively. On both sides the termier, politician, knave, &c., are already expected to designate political adversaries.

PROPOSED UNION OF THE WESLEYANS AND THE CHURCH OF ENGLAND.—A late discussion took place in the late Convocation on "the possibility of a thorough reunion between the Wesleyan community and the Church of England." This proposition was supported by the Arch-deacon Carlisle and Hornby; but it was opposed by the Bishop of Exeter, the Bishop of London, the Archbishop of Canterbury, and Chancellor Thurlow. Eventually the motion was withdrawn, an amendment, moved by the Bishop of Exeter, was adopted, which was to the effect that the Convocation would "cordially welcome any practical attempt to effect a brotherly reconciliation" between the Church and the Wesleyans.

Telegraphic News.

BY ATLANTIC CABLE.

CONSTANTINOPLE, March 21.—Diplomatic intercourse, which had been temporarily interrupted between the Turkish Minister for Foreign Affairs, and Mr. Morris, American Ambassador at Constantinople, had been resumed since the receipt of a favorable despatch from Secretary Seward, tending to an adjustment of the difference which had arisen with the American legation.

QUEENSTOWN, March 21.—The steamer *Atlantida*, from New York, has arrived.

CONNA, March 21.—Captain McKay has been sentenced to imprisonment, with hard labour, for a term of twelve years.

BERLIN, March 21.—The council of the North German Confederation has approved the treaty recently concluded with the United States, securing the rights of naturalized American citizens.

VIENNA, March 21.—The upper house of the Reichsrath has rejected the motion made by the clerical party to defer action upon the Civil Marriage Bill until a change is made in the Concordat.

ROME, March 21.—The Pope gave a very gracious reception to Admiral Farragut and suite to-day. The Admiral will remain a month in Rome.

PRAGUE, March 21.—Garibaldi has written a letter to the United States Minister, Hon. Geo. P. Marsh, desiring to be agent of the United States Government.

VIENNA, March 21.—Most enthusiastic demonstrations of joy are made over the recent action of the Reichsrath on the Civil Marriage Bill, which is regarded as practically annulling the Concordat. Yesterday when it became known that the Upper House had rejected a motion of the clerical party to defer the passage of the bill, there was great rejoicing among the people, and last night the city was brilliantly illuminated.

LONDON, March 21, 1:30 p.m.—Consols 93½; Bonds 72 to 73½; 1 C 9½; Erie 47.

LIVERPOOL, March 21, 1:30 p.m.—Cotton quiet; uplands 10½d; Orleans 10½d. Broad-stuffs and provisions quiet, steady and unchanged. Sugar and advices report a general advance in the price of tea.

The steamers "Water," "Bremen" and "Etan," from New York, have arrived.

Editorial Summary.

—The Water Works in Montreal are again in operation.

—Wages in the New York machine shops have been reduced from \$5.50 to \$3 per day.

—Eight hundred thousand tons of ice have been cut and stored in New York for use in the coming summer.

—There is a candidate for office in Virginia who lost both his legs in the war. Practice calls him a no-troice fellow.

—A French lady, who held in her hand a glass of cool water, said, "it is very only wicked to drink this, how nice it would be."

—A Southern editor says his contemporary drinks so much whiskey, as to lose his mind of delirium tremens.

—A new steamer, to be called the *Norwegian*, is in course of construction to run on the route between Port Hope, Coburg, and Rochester. She will be out about the 1st of May.

—Whiskey stills set in New York at \$1 per gallon, \$1 less than government tax. Many of the distilleries recently closed, are being illicitly run. It is said, through the connivance with the Internal Revenue officials.

—A farmer in the township of Niagara, has recently had several sheep and calves attacked and killed by rats. The rats gnaw round the feet of the animals, bleed them to death, and then eat them. The farmer had removed all his grain to save it from the rats, and then they attacked his big sheep animals.

—Notwithstanding the poverty of the Southern people, the cause of education is receiving a fair share of their attention. Many of the colleges which were closed during the war have been reopened, and praiseworthy efforts are being made to furnish them with competent instructors.

THE BIRDS.—Insectivorous birds beneficial to agriculture are not allowed to be killed at the season of the year. We therefore caution our juvenile sportsmen of the sparrow and robin type, they expose themselves to sundry pains and penalties if they destroy these birds in the spring. We observe many of the spring birds have arrived from the south; they will breed, if possible, near the place they were brought forth, so land owners will act wisely in preventing the destruction of those birds that are useful to them. Sparrows are great consumers of the eggs of the caterpillar; in fact, it is at this season that a single bird may save a fruit-tree from the ravages of insects for the whole year. The ground covered with snow, the birds have to feed on the tree.

A very good widow, who was looked up to by the congregation to which she belonged as an example of piety, contrived to bring her consanguinity to terms for her little luggage. She arrived late, and one day, just as she had received a dozen bottles, she saw two of the elders of the church approaching. She hurried the man out of the back door, and the bottles under the bed. The weather was hot, and while conversing with her sage friends, she went a-cupping. "Dear me," exclaimed the good lady, "there goes that bed-cord; it snapped yesterday the same way." In a few minutes another, followed by a third. "Another bottle popped off, and the ale came out from under the bed curtains." "Oh, dear me," said she, "I had forgot; it is the year. Here, Prudence, come and take these bottles away!"

A vessel arrived last week at Southampton with 6,000 quarters of wheat from the Black Sea, the largest cargo of wheat ever brought to Southampton in a single vessel.

SPECIAL NOTICES.

ALLEN'S LUNG BALM.
It is warranted to break up the most troublesome Cough
in an incredible short time. There is no remedy that
can show more evidence of its merits than this BALM.
For curing Consumption, Coughs, Colic, Asthma,
Whooping Cough, etc.
Physicians having Consumption patients, and having
failed to cure them by their own prescriptions, should
not hesitate to prescribe this remedy, it has cured cases
when all other remedies have failed.
Consumers, do not despair because all the remedies
that you have tried have failed, BUT TRY THIS
GREAT REMEDY.
Sold by all Medicine Dealers.
Perry Davis & Son, Montreal agents for the Dominion
of Canada. 3-Aw. 771-4w.

R. R. R.
The high praises shall be rendered from people in all parts
of the world that have derived benefit from the use of
RADWAY'S RELIEF. It is now eight years that I have
suffered from Rheumatism, and have had the best advice,
but could not be cured. I was in the hospital 100 days and
all that time I was in pain and misery, but seeing that I
could not get any better, I made up my mind and took it.
Every one has heard of it, if not tried it. Let those who
have not used it, find out its merits. A few minutes
will prove its power of stopping pain. Read the follow-
ing letter. Any person who reads its truthfulness can
write to the U. S. Consul at Rio. For every word
not true we will pay One Hundred Dollars:
Rio de Janeiro, 18th March, 1868.

PROSPECTUS

OF THE

MOIRA GOLD MINING COMPANY.

Capital Stock, \$100,000. Divided into 10,000 Shares.
WORKING CAPITAL, \$15,000.

HORACE YEOMANS, Esq., President.
B. S. GILBERT, Esq., Secretary.
J. G. SHURTZ, Esq., Superintendent.
MERCHANTS' BANK, BANKERS.
DEAN & GILBERT, SOLICITORS.

DIRECTORS:
HORACE YEOMANS, of Flint & Yeomans, Belleville.
ANDREW THOMSON, Banker, Belleville.
W. W. DEAN, Master in Chancery, Belleville.
JOHN G. SHURTZ, Superintendent.
JAMES LISTER, M.D., Belleville.
JAMES W. CARMAN, American Consul, Belleville.
BARTON S. GILBERT, of Dean & Gilbert, Barristers, Belleville.

THIS COMPANY is duly incorporated under Cap. 23, Consolidated Statutes of Canada, for the purpose of working the mineral veins upon sixteen acres of Lot No. 19, in the fifth concession of Madoc, the Richardson Mine being No. 15 in the same concession. A shaft has been sunk to the depth of nine feet in the rock. At six feet a gold-bearing lode was struck, of 18 inches in width, which at nine feet has increased to 24 feet, and a crushing at Gilbert & Turley's mill of four and one-half tons of the rock, gave a yield of over \$100 per ton of rock; the lode is clearly defined, and evidently extends the whole length of the property—32 rods.

The territory is admirably situated for mining purposes, being a high ridge covered with indications of mineral veins. There are numerous places on the land fully as good as well. The large quantity of land, and the prospects of other gold-bearing veins, make it certain that the Company will be able to subdivide the property as soon as a little further development has been made, and form other Companies at great advantage. Work is being vigorously prosecuted in the shaft, under the superintendence of JOHN G. SHURTZ, Esq., one of the Directors, who is largely interested in the property of the mine, and who has had thirteen years' practical experience in the gold mines of California and Nevada, and is unquestionably the most accomplished quartz miner now in this country. It is intended to have further crushing in a few days, and negotiations are in progress which, if carried out, will secure a mill to the Company at once, so that regular work will be gone on with without delay, and dividends may, in that case, be expected in a short time.

CAUTION.

THIS attention and changes of the AMERICAN WATCH CO. (INCORPORATED) have given it such a wide world-wide celebrity that unscrupulous dealers have been induced to imitate the American Watch Co. by selling cheap watches as American Watches, who have thereby done the American Watch Co. a great wrong. The American Watch Co. is a large manufacturing establishment, and its watches are calculated to give the high reputation which our watches have attained. The American Watch Co. is a large manufacturing establishment, and its watches are calculated to give the high reputation which our watches have attained. The American Watch Co. is a large manufacturing establishment, and its watches are calculated to give the high reputation which our watches have attained.

The purchaser should in all cases require one of these certificates, which is furnished to all dealers in the genuine watches.

The following are the trade marks on the reverse sides of our watches:

Office of the General Superintendent.

Altoona, Pa., 15th Dec. 1887.

GENTLEMEN:—The watches manufactured by the American Watch Co. for several years past, by our arrangement, to whom we furnish watches as part of our equipment, have been found to be of excellent quality, and have carried on our line, and we consider them good and reliable time-keepers. Indeed, I have great satisfaction in saying your watches are well made and have worn and do much longer without repair than any watches we have ever seen. I have no doubt that you are aware we are treated to these English manufactures, of acknowledged good reputation, and I have no doubt that you never keep one as correctly, nor have they done as good service as yours.

In these statements, as sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years.

Respectfully,

EDWARD H. WILLIAMS,

General Superintendent.

American Watch Co., Waltham.

NEW YORK CENTRAL RAILROAD.

Locomotive, Western Division.

Rochester, Dec. 24, 1887.

GENTLEMEN:—I have no hesitation in saying that I believe the great majority of locomotive engines have found by experience that Waltham watches are the most satisfactory for their use. The great accuracy and steadiness, notwithstanding the great riding of an engine, and as I have never known one of our engines stop for a moment, I have no doubt that you are aware we are treated to these English manufactures, of acknowledged good reputation, and I have no doubt that you never keep one as correctly, nor have they done as good service as yours.

Arrangements have been made with RAILROAD CORRESPONDENTS in Madoc, Bridgewater, Marjona and other points, who will furnish us with all our full information respecting the different Regions, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., and in short, anything that pains not expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards not exceeding six lines, 6 months, \$5.00

Half square, 6 months, \$10.00

The Square, 6 months, \$20.00

Two Squares, 6 months, \$40.00

Four Squares, 6 months, \$80.00

Notices of Marriages, 50

Do of Deaths, 50

"BUSINESS NOTICES"—All matter under this head, not exceeding 10 lines, 10 cents per line, measured by a scale of solid matter.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 3 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at \$3 per annum if called for at the Office, or sent by mail; and \$3.50 if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and is now over 1,400.

Our "Business Books" is over 1,400.

With such a large and general circulation, throughout this and adjoining counties, it is an advantage to advertisers.

RATES OF ADVERTISING.

Six lines and under, first insertion, 10 cts.

Each subsequent insertion, 10 cts.

Above six lines, first insertion, 10 cts.

Each subsequent insertion, 10 cts.

Advertisements for insertion must be delivered before 10 o'clock, on Thursday to insure their insertion on Friday.

All advertisements without written directions inserted null and void, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for printing plain and neat execution of all kinds of printing, at prices as low as any other establishment in the county.

The Daily and Weekly INTELLIGENCER can be had at the Book Store in Belleville, and at St. Donald's.

All orders by mail promptly attended to.

SPECIAL NOTICES.

ALIEN'S LUNG BALM.

Is warranted to break up the most troublesome

cough in an incredibly short time. That it is the one

most successful remedy for all lung troubles, is

shown by the evidence of its merits from this BAL-

M, for curing Consumption, Croup, Cough, Asth-

ma, Whooping Cough, &c.

Physicians having given their patients and having

heard of cures than of their own hands, have not

hesitated to prescribe this remedy, it has cured cases

when all other remedies have failed.

Consumptives do not despair because all the remedies

that you have tried have failed, BUT TRY THIS

GREAT REMEDY.

Sold by all Medicine Dealers.

Perry Davis & Son, Montreal agents for the Dominion

of Canada.

R. R. R.

The high praises emanating from people in all parts of the world that have derived benefit from the use ofRADWAY'S REMEDIES, prove their value to con-science. There is no pain in severe disease so malig-nant or swift in its destruction of life, but that the RAD-WAY will stop the pain and arrest it in its progress.Every one has heard of it, if not tried it. Let those whohave not used it, if sick, give it a trial. A few minuteswill prove its power of relief. Read the followingletter. Any person doubting its truthfulness canwrite to the U. S. Consul at Trenton. For every wordcollected we will give One Hundred Dollars.See Dr. Radway's Almanac for 1868.Prescriptions, pointing out the proper Dosing, Drawing Card,Warranted to Cure, the National Guards of theEuropean Army.Read Dr. LIVERMORE, June 18th 1868.MARSH, RAYMOND, C. LITTLE & Son.GENUINE—It is now eight years that I havesuffered from Piles, and have had the best advice,but could not be cured. I was in the hospital 100 days andall that time I spent blood and matter, seeing that Icould not get any better. I made up my mind and leftit. And, fortunately, I was met by a friend, who re-commended Dr. Radway & Co.'s preparation.After taking the first dose of Relief and water, Icould breathe with ease, and felt all my pains diminish-ing. I continued taking two of Radway's Pills everynight, and half a teaspoonful of Relief and water, andmy rubbing my chest and throat with it, and thank God,I feel myself perfectly well. I only took ten bottles ofRelief and three boxes of Pills. I hope that the authorsof said preparations may have a long and prosperous life.JOSEPH D. MARSH,179 Fifth Street.3-Aw. 271-11

Trenton, Ont.

March 24th, 1868. 277-3m

Post Office Savings Bank.

THE POST OFFICE SAVINGS BANKS,

established by Statute in the present

Session of Parliament, will commence opera-

tions on the 1st April, 1868, and the Post-

master-general will, from that day, receive

at any of the undermentioned Post Offices

deposits paid to the Postmasters by persons

wishing to place their money in the Govern-

ment Savings Bank.

2. The direct security of the Dominion is

given by the Statutes for all deposits made.

3. At each Post Office named, the Savings

Bank regulations may be read by the public,

giving full information with respect to the

mode of depositing and withdrawing money,

and the regulations are printed on the

cover of the Pass Book supplied to each de-

positor.

4. Any person may have a deposit account,

and deposits will be received daily, during the

ordinary hours of Post Office business, of any

number of dollars, from \$1 up to \$300, the

total amount which can be received from any

depositor in any one year, except in cases to

be specially authorized by the Postmaster-

General.

5. The Postmasters of the Offices named

will act as agents for the receipt of the money

deposited for transmission to the Postmaster-

General, and for payment by the Postmaster-

General of money in cheque payable at any

Post Office Savings Bank desired, for any sum

withdrawn.

6. Each Depositor will be supplied with a

Pass Book, and the sums paid in, or with-

drawn, will be entered therein by the Post-

master receiving or paying the same. In

addition, a direct receipt for each amount paid

in, will be sent to the Depositor from the

Postmaster-General, and the Postmaster-

General will issue a cheque payable at any

Post Office Savings Bank desired, for any sum

withdrawn.

7. Every Depositor's account will thus be

kept with the Postmaster-General, and a De-

positor may pay into his or her account with

the Post Office Savings Bank at any of the Sav-

ings Bank Post Offices which at the time may

be open, and he will exercise the same choice

in drawing out money, nor for

postage on communications with the Post

master-General in relation thereto.

10. No charge will be made to Depositors

on paying in, or drawing out money, nor for

postage on communications with the Post

master-General in relation thereto.

11. The Postmaster-General will be always

ready to receive and attend to all applica-

tions, complaints or other communications

addressed to him by Depositors or others,

relative to Post Office Savings Bank matters.

12. An additional number of Post Offices

will be authorized to act as Savings Bank

agencies on the 1st July next.

1. The first part of the document is a letter from the President of the United States to the Congress, dated January 1, 1861. It is a very important document, as it sets out the President's policy for the new year. The President states that he is pleased to see the Congress assembled, and that he is confident that the country is in a good position to meet the challenges of the future. He also mentions the recent election of Abraham Lincoln as President, and expresses his confidence in the new administration.

No. 280

Topleftical.

One of the finest specimens of the high-flown style that has lately come under our notice, is furnished by the *Mobile Tribune*, in the following advertisement:

"There is a sulphurous volcanic cloud rising over the Northern land; and by the lurid light that gleams along its borders we see houses in flames, and fields desolated and outraged women flying with dishevelled hair to hide their shame, and masted hulks with blood-stained decks drifting rudderless on seas whitened no more forever with the canvases wings of commerce, and cities of the dead whose mouldering ruins

would topple over and fall with the job upon the air of a single footstep upon the sidewalks, but the footstep is not there. "Impeachment is peace!" It is the sort of peace Satan brought into the Garden of Eden, when he made Adam impeach Eden before the Most High. Impeachment is not peace. It is simply turning on the gas that is manufactured in hell; it is putting the door ajar for the entrance of the troops of horrors we have pictured above. Impeachment of the President by Rump Congresses, Robustorrum, for instance,

the Constitution he had sworn to support is a certain sign that government is going to hell upon earth, and anarchy has begun, as the sinking of the sun behind the western hills is a sign that the day has gone and night is coming. "Impeachment is peace," Then peace hell upon earth."

Ingrowing Toe Nail.
Dr. Bailey, in the *Leavenworth Medical Journal*, suggests that the following method of healing this annoying deformity:
I have found that the second toe always presses against, and rather beneath, the side of the great toe, which, very naturally, produces the whole trouble. It has occurred to me, therefore, that if this con-

cause could be dispensed with, and at the same time pressure applied in such a manner as to press the flesh away from the nail. A permanent cure could be effected without the use of the knife, which is justly dreaded by the patient. To accomplish this I got up a bandage, by taking a piece of strong muslin about one inch wide,

just long enough to make two loops (by
ing), one large enough to slip over
great toe, and the other to slip over
third toe, and bring them close together
letting the second toe rest over or at
the bandage, where it furnishes precisely
the required pressure to crowd the soft part
away from the nail, and at the same time
the pressure that caused the disease.

In the few cases that I have used this simple appliance it has been followed with complete success. It is convenient, troublesome to apply, and can be worn without dispensing with ordinary tin boots or shoes, which is sometimes quite an important thing, especially if the patient is a lady.

Snow falls in every month in the year in the mountains of Montana.

An exhorter at a revival meeting became rather indignant because a brother was superior in singing, and said: "Brother, you can sing and pray; but, by the blessing of God, there is one thing I can beat him in."

The needle-point in the seaman's compass never stands still, but quivers and shivers till it comes right against the North pole. The wise men of the east never stood till they were right against the star which appeared unto them; and the star never stood still till it came right against

the other Star, which shone more brightly in the manger than the sun did in the firmament. And Noah's dove could find rest for the sole of her foot all the while she was fluttering over the flood, till she returned to the ark with an olive branch in her mouth. So the heart of every Christian, which is the turtle dove, finding rest all the while

Christ, can find no rest, hovering over the waters of the world, with the olive branch of faith, fly to true Noah, which signifieth "Rest," Christ put forth his hand out of the and taketh it to himself.

EMIGRATION.—The Government emigrants at Liverpool have com-

the emigration returns from the Mersey for the year ending December 31st, a glance over the following figures shows that the Irish element still prevails both regards the United States, Canada, South America and Australia. The exodus, though not so great as last year, from Mersey, is accounted for by the fact

several additional steamships now en-
Queenstown, and emigrants who form
embarked at Liverpool go on board
Queenston, and therefore save expense
escape the discomfort of a channel passage.
When compared with former years, say
English paper, it is a remarkable fact
the Irish were far better clothed and
vided for than either the English

foreigners. Probably remittances
the new help to cover the wants of the
the old world. There was a falling-
1,410 in January, as compared with
same month in the previous year, and
emigration in 561 ships was 115,68
decrease of 7,702 since 1886.

This image shows a blank, aged, light brown page, likely an endpaper or flyleaf of a book. The paper has a textured, slightly mottled appearance with some minor discoloration and small dark spots, characteristic of old paper. A vertical crease is visible near the left edge, and the right edge shows the binding structure of the book.

out, embarked his troops and took them to Guaymas.

The Mexican Government has removed the prohibition on the importation of goods of every description.

This image shows a blank, aged, light brown page, likely an endpaper or flyleaf of a book. The paper has a textured, slightly mottled appearance with some minor discoloration and small dark spots, possibly due to age or handling. A vertical crease is visible near the right edge, suggesting it was once part of a bound volume. The overall tone is a warm, off-white or light beige.

Daily Intelligencer.

BELLEVILLE, MONDAY, MARCH 20.

SIR HENRY SMITH.—The report that the King's men died on Saturday is untrue. The King's men of Saturday evening say, "Sir Henry Smith today to be a little calmer and improving."

NATIVITY.—Opposite the wharves and for some distance to the east, the Bay is open from shore to shore. A few days of such weather as has been experienced to-day will clear the last vestige of ice from the waters.

THE MINING BILL.—A petition numerously and respectfully signed has been presented to Lieutenant Governor Stisted, praying that he will suspend the operation of the Mining Bill, recently passed by the Legislature of Ontario, until the next session of Parliament, thus giving the government an opportunity of becoming acquainted with the numerous facts bearing upon the interests to be affected by it.

UPS AND DOWNS.—Jefferson Davis has arrived in Washington. When Mr. Davis was in the height of his glory, Mr. Johnson was doing for his life from his many friends in Tennessee. When Mr. Johnson came into the Presidency, Davis was a fugitive from the troops set on his track by Johnson. Now the tables are once more turned; the trial of Davis for treason has been indefinitely postponed, and he stands by to see Johnson tried for the highest misdemeanor known to the law. Verily the ups and downs of real life are more wonderful than any we find recorded in the pages of fiction.

RECRUITING.—Every afternoon, the new evening paper published in New York, praises the nose of Sir John A. Macdonald's recent speech. "If the House of Commons," says the paper, "had a plan to run into Canada, and said: 'The long border line of the two adjacent territories, as well as the many predisposing causes to national jealousies or local exasperations that unhappily exist where two large jurisdictions are co-terminous, make it in the highest degree important and desirable that the official expressions, either at Washington or at Ottawa, should be temperate and decorous, and we have therefore observed with no little satisfaction the good sense and proper feeling of the Canadian Minister.'"

HIGHWAY ROBBERY.—On the evening of the 25th inst., a Hotel keeper from Cobourg, named Michael Burke, who had been on a visit in Belleville, met with two or three well-known characters at a tavern conversation to the market place. They drank pretty freely, and one of their number, a notorious robber, who has been twice in the Penitentiary, and once in the State Prison, named James Labrahe, induced Burke to accompany him towards the Railway Station, and having crossed over Taylor's Hill, on arrival at a house on the corner of the Market place, Burke was knocked down, robbed of his \$200 bill, and then made his way towards Cobourg. He was remarked next morning en route to Mado, and the Chief of Police telegraphed to the Constable there, Mr. McDonald, who arrested Labrahe in Mr. Moore's back yard, and conveyed him to Belleville. He was brought up before the Police Magistrate on the 27th inst., and the charge was fully proved against him. Mr. A. George, who resides at Smithville, produced a \$100 bill, which Labrahe changed for silver, and it was identified by Burke as one of those stolen from him. We trust the constable will be relieved from the presence of this fellow for many years to come.

Future of Canada.

Leading American journals are willing to admit that the future welfare of Canada, and that the question whether the territory now comprised in the British Dominions will remain British, depend almost entirely upon the wisdom of our present legislature. They are eagerly watching to see whether our legislators will "rise to the emergency," and give that evidence of statesmanship so essential to the fulfilment of our destiny. Upon their action depends our future fate for well or woe. The New York World says: "If Ministers and Parliament are wise and liberal in their legislation, the whole Dominion will undoubtedly prosper. The Red River territory will soon enter the Confederation, and Newfoundland and British Columbia are already knocking at the door. The disloyal Nova Scotians may be appeased, and their sentiments rendered loyal by suitable legislation."

—The Kingston News of Saturday says: A telegram to the son of the deceased announced to-day that Dr. Sutherland, of Bath, was drowned by falling through the ice while crossing the Upper Gap. The gentleman in Kingston who has been suffering from rheumatism is commencing a journey for the firm of Fenwick, Macdery & Co., of this city. It is stated that the body has been recovered.

Gold News.

A button of gold was exhibited at this office on Saturday, the product of two tons of quartz from the Rose Company's mine. The ore was taken from a depth of about ten feet, and was crushed on Friday at the Lower El Dorado Reduction Works. The certificate of the Secretary of the Works states that the two tons yielded 18 dwts. 2 gws., which would make the product at the rate of about \$9 50 per ton. A new feature has been introduced in the issue of certificates, which will give general satisfaction. Each certificate is marked with a certain number, and the button or bar of gold is stamped with a number to correspond. The button of gold from the Rose Mine was taken to Mr. McFee, Jeweller, who, after testing it, pronounced it to be 234 carats fine. This yield is very satisfactory, and we congratulate the proprietors of the mine on the favorable prospects in store for them.

To-day the boiler and other portions of the machinery of the Bay State Mining Company, left Brown's Foundry, for its destination, Madoc. Parts of this Crushing Mill were sent out some time since, and it is expected that the works connected with this mine will be in operation in about a month. The engine and boiler for the Denbigh Mining Company, left here some days ago, and by this time must be at or near its destination. All the other machinery connected with the Denbigh Crusher, is being made at the Foundry of Mr. Brown, and it need hardly be said that the work is highly creditable to the establishment. It affords satisfactory evidence that all the machinery needed in the gold region, can be manufactured at our own Foundries and Machine Shops.

From the Madoc Mercury of Saturday, we obtain the following additional mining intelligence:

"We were shown on Wednesday by Mr. Jenkins, the Manager of the Victoria Mining Company of Toronto, the result of one point of ore taken from the shaft (No. 3) on their claim on the east half of lot 25, in the 4th concession of Madoc, adjoining Mr. Keefe's lot, from which we mentioned two or three weeks since, that we had seen gold. The yield is a fair show of fine gold, worth probably 35 cents, which was extracted and assayed from the ore by Mr. Jenkins. He also showed us two small pieces of decomposed quartz, from the same shaft, containing small specks of gold, which he said he had found there. The show of gold was really good."

"We learn that Messrs. Henderson and Smith continue to find gold in their new shaft on lot 34 in the 6th concession of Madoc."

"The boilers for the Anglo-Saxon's Co.'s crushing mill has arrived at its destination at El Dorado."

"Mr. Anstee has this week commenced to open his new shafts on the Richardson Hill for Mr. Lombard."

Editorial Summary.

—The Emperor Napoleon seems to be subject to violent automatic attacks.

—Sir Richard Temple has become Finance Minister of India.

—A bridal pair in Detroit worth \$500 pounds. What an amount of happiness.

—Mr. Dickens will positively sail for England on the 23rd of April.

—The Kingston Assizes was concluded on Saturday, after a session of only three days.

—The speculator puts his money on a stage horse.

—General Tom Thumb and wife, Commodore Nutt and Miss Warren, will shortly visit Canada.

—The license inspector of Toronto advertises for detectives to assist him in suppressing the illicit traffic in liquor.

—The receipts on the Nova Scotia Railway in February were \$27,874 less than in the corresponding month of last year.

—Prince Edward Island exported in 1867 \$180,000 worth of goods more than the previous year.

—Sir Charles Wheatstone has invented a high speed automatic telegraph, capable of transmitting 600 letters per minute.

—Accounts from Sicily represent the condition of the island as highly alarming. A general outbreak seems to be feared.

—It is said that Mr. Disraeli intends to advise Her Majesty to confer a peerage on Baron Rothschild.

—Kuklik Khan is the name of a secret political organization in Tennessee acting in opposition to Baron Browne.

—Nearly 10,000 women have been appropriated to the endowment funds of different colleges in the United States during the last four years.

—A republican convention in Illinois has resolved "that we do not desire a President whose mouth, like the Mississippi river, is always open."

—Another error has been made, by a reliable party, to build and equip the Intercolonial Railway on the Robinson route, between Truro and River du Loup for \$14,000,000.

—The nomination of candidates for the county of Lincoln will take place on Thursday, the 2nd of April, and the polling on the 9th and 10th of April.

—Immigration from Ireland appears to be on the increase, upwards of one thousand persons having left Queensland for America during the last few days of February.

—In 1857 there were 145 miles of railway opened in India; now there are 4,070 miles. The companies have repaid to the Imperial Government about \$2,000,000 out of net earnings, making the present debt due to the Government nearly \$2,000,000.

Spring Assizes.

SIXTH DAY.

The Court opened at the usual hour, Hon. Judge Wilson presiding.

HENDERSON vs. VERNILYER & Co.

An action on a covenant. Plaintiff leased Wyman House and J. Ganssels a room for bakery, situate in Belleville; defendant and one S. Ganssels entered into a covenant as sureties for the plaintiff, to pay the lease money. Rent was payable quarterly. Amount of rent and taxes due on the premises amount to \$600. Defendant Vernilyer entered into said covenant as surety on condition that one Daniel Caniff was to be his co-surety; that the name of Ganssels, as lessee, of person's name, had been inserted without the knowledge of defendant; that when executing the covenant was 100 with plaintiff's claim as an error and to void if Caniff did not execute the covenant; by the change of co-surety defendant had lost his chance of contribution, if obliged to pay the rent.

The plaintiff alleges that defendant failed to do the change in sureties, and attempted to lease the premises after Ganssels had failed in business and moved out. The jury did not think defendant had proved his plea, and gave verdict for plaintiff \$745.30. Henderson and Alex. Robertson for plaintiff; Hon. L. Wallbridge, Q.C., and G. W. Ostrom for defendant.

At the close of this case, the Judge being informed by the Crown Counsel that they were ready to proceed with the trial of the Queen vs. Holmes and Good, stated he did not wish to enter upon a trial of this kind at so late an hour of the day, as it would be necessary to keep the jury until Monday in the custody of the Sheriff. It was agreed to take up this trial on Monday morning, and the civil cases still untried remanded, thirteen in all, which was done accordingly, and the Court adjourned until Monday at 10 A.M.

PRESENTMENT.

The Grand Jury of our Lady the Queen in accordance with His Lordship's order, took the Court of Queen's Bench, held at the Town of Belleville, on the twenty-third day of March and atched upon the indictment returned against us, we have carefully considered the indictment laid before us, all of which have had our most careful consideration. We have inspected the Gold and found it clean and in good order, the prisoners making no complaint, but we recommend an order that it was not intended for use, and neither ink, pen nor paper furnished. After considering the great expediency of the Court House, we were surprised at such neglect; as the room adjacent for the reception of Ladies attending Court as witnesses, etc., is in a very uncomfortable state. We also inspected the Court House, and found the gaol-yard at the entrance to the Court House, encumbering the ground and approach to the Court House, and the gaol-yard, and that the prisoners within the gaol sentenced to hard labor be taken out in breaking the same or in some other way.

We are of opinion that the County Council should be requested to take measures to clean the gaol, and other means necessary so that the prisoners could be set at work, by which there might be a saving of money to the County. We are of opinion that the County Council should be requested to take measures to clean the gaol, and other means necessary so that the prisoners could be set at work, by which there might be a saving of money to the County.

We tender our sincere thanks to the Hon. Sidney Smith, Crown Counsel, for his courtesy and able assistance to us during the sitting of the Court.

We tender his Lordship our best respects hoping that he may live long to occupy the honorable position which he now holds.

All of which is respectfully submitted for self and fellows.

GEORGE PHILLIPS, Foreman.

Dated Grand Jury Room, March 27, 1868.

SEVENTH DAY.

THE SULLIVAN MURDER CASE.

MONDAY, MARCH 30, 1868.

The Court opened at 10 o'clock, A. M., the Hon. Justice Wilson presiding.

Homer Holmes and George Good were arraigned for the murder of Daniel Sullivan, on the 1st day of January, 1868.

The learned counsel for the Crown, Mr. Sidney Smith, Q.C., opened the case by briefly addressing the Jury. He was particularly severe upon the proprietors of the Anglo-American Hotel, for having permitted such a brutal murder to take place within their house; upon the crowd who looked on and saw the man beaten and pounded to death, and upon the authorities who allowed the murderers of Sullivan to go up and down the streets of Belleville for two days thereafter without being taken into custody.

It was a spectacle without a parallel in the whole country, and a disgrace to the Town, which, he trusted in the interests of public justice, would never occur again. The learned Counsel then briefly stated the circumstances of the case connected with the murder. The first witness called was—

Francis Holroyd, sworn—Am one of the proprietors of the Anglo-American Hotel; have lived in Belleville off and on for seven years. I knew Daniel Sullivan; he was boarding at my house, and I was the previous to the first of January. I saw Sullivan on the night of the 31st December; he was standing at the rear of the hotel, and I saw the stairs; it was about 12 o'clock at night at the time I allude to. There were a number of parties in the bar-room at the time; I knew Daniel Sullivan; he was boarding at my house, and I was the previous to the first of January. I saw Sullivan on the night of the 31st December; he was standing at the rear of the hotel, and I saw the stairs; it was about 12 o'clock at night at the time I allude to. PROSPECTUS

OF THE

MOIRA GOLD MINING COMPANY.

Capital Stock, \$100,000. Divided into 10,000 Shares.

WORKING CAPITAL, \$15,000.

HORACE YEOMANS, Esq., PRESIDENT. ANDREW THOMSON, Esq., TREASURER.
B. S. GILBERT, Esq., SECRETARY. J. G. SHURTZ, Esq., SUPERINTENDENT.

MERCHANTS' BANK, BANKERS. DEAN & GILBERT, SOLICITORS.

DIRECTORS:

HORACE YEOMANS, of Flint & Yeomans, Belleville.
ANDREW THOMSON, Banker, Belleville.
W. W. DEAN, Master in Chancery, Belleville.
JOHN G. SHURTZ, Superintendent.

JAMES LISTER M.D., Belleville.
JAMES W. CARMAN, American Consul, Belleville.
BARTON S. GILBERT, of Dean & Gilbert, Barristers, Belleville.

THIS COMPANY is duly incorporated under Cap. 29, Consolidated Statutes of Canada, for the purpose of working the mineral veins upon sixteen acres of Lot No. 19, in the fifth concession of Madoc, (the Richardson Mine being No. 18 in the same concession).

A shaft has been sunk to the depth of nine feet in the rock. At six feet a gold-bearing lode was struck of 13 inches in width, which at nine feet has increased to 24 feet, and a crushing at Gilbert & Turley's mill of four and one-half tons of the rock, gave a yield of over six dollars in gold; the lode is clearly defined, and evidently extends the whole length of the property—30 rods.

The territory is admirably situated for mining purposes, being a high ridge covered with indications of mineral veins. There are numerous places on the land fully as promising as the one on which the shaft has been sunk, and which would unquestionably yield as much. The large quantity of land being owned by the company, it is able to subdivide the property as soon as a little further development has been made, and form other Companies at great advantage.

Work is being vigorously prosecuted in the shaft, under the superintendence of John G. Shurtz, Esq., one of the Directors, who is largely interested in the proprietary of the mine, and who has had thirteen years' practical experience in the gold mines of California and Nevada, and is unquestionably the most accomplished quartz miner now in this country.

It is intended to have further crushing in a few days, and negotiations are in progress which, if carried out, will secure a mill to the Company at once, so that regular work will be gone on without delay, and dividends may, in that case, be expected in a short time.

Belleville, Jan. 27th, 1868. 229-4f

India and China Tea Company.

HOME DEPOTS—London and Liverpool.

CANADA DEPOT—32 Hospital Street, Montreal.

JOHN G. SHURTZ, Superintendent.
JAMES LISTER, M.D., Belleville.
JAMES W. CARMAN, American, Consul, Belleville.
BARTON S. GILBERT, of Dean & Gilbert, Barristers, Belleville.

THIS COMPANY is duly incorporated under Cap. 25, Consolidated Statutes of Canada, for the purpose of working the mineral veins of the Moira Gold Mine, situated in the fifth concession of Madoc, (the Richardson Mine being No. 18 in the same concession). A shaft has been sunk to the depth of nine feet in the rock. At six feet a gold-bearing lode was struck, of 18 inches in width, which at nine feet has increased to 24 feet, and a creek of water & Turkey's mill of four and one-half tons of the rock, gave a yield of over fifty-six dollars in gold; the lode is clearly defined, and evidently extends the whole length of the property—53 rods.

The territory is admirably situated for mining purposes, being a high ridge covered with indications of mineral veins. There are numerous places where the land fully as promising as the one on which the shaft has been sunk, and which would unquestionably yield as well. The large quantity of land, and the prospects of other gold-bearing veins, make it certain that the Company will be able to subdivide the property as soon as the little further development has been made, and form other Companies at great advantage.

Work is being vigorously prosecuted in the shaft, under the superintendence of JOHN G. SHURTZ, Esq., one of the Directors, who is largely interested in the property of the mine, and who has had thirteen years' practical experience in the gold mines of California and Nevada, and is unquestionably the most accomplished quartz miner now in this country.

It is intended to have a further crushing in a few days, and negotiations are in progress which, if carried out, will secure a mill to the Company at once, so that regular work will be gone on without delay, and dividends may, in that case, be expected in a short time.

Belleville, Jan. 27th, 1889.

2284-H

India and China Tea Company.

HOME DEPOTS—London and Liverpool.
